REGULATION OF UTILITIES RATES URGED

Associated Boards of Trade of Vancouver Island Favor Action by Government Regulating Rates

CAMPBELL RIVER FRANCHISE ISSUE

General Money Welcomes Effort of Two Companies to Secure Valuable Rights for Development

THE "to be, or not to be" of a Public Utilities Commission, which should hold the reins governing the allotment of the waterpower rights of the Campbell River, and other powers, formed the main topic of discussion, yesterday afternoon, when the Associated Boards of Trade of Vancouver Island met for its business session, to discuss the large number of resolutions which had been prepared during the course of the past year.

Captain R. P. Matheson, of the Esquimalt Board of Trade, submitted a resolution, approved by the Saanich and Nanaimo Boards of Trades, which he subsequently altered to the following:

> "Resolved that a Public Utilities Commission be appointed, similar to the commissions which are functioning successfully in other provinces, and that it should go on record that the rates, charged for power, should be based upon the actual costs of the physical assets of the undertaking."

AMENDMENT ADOPTED

Despite Captain Matheson's modification of this resolution, a further amendment, suggested by Mr. F. S. Cuncliffe, chairman of the resolutions committee, was carried upon the matter being put to a vote. Mr. Cuncliffe's amendment was, in reality, a repetition of a resolution which had been passed by the board last year.

The resolution read as follows:

> "Resolved that a Public Utilities Commission should be appointed, and that the principle should be established that, since the development of the country justifies it, there should be reasonable reductions of rates through the agency of the Public Utilities Commission, having regard only to the actual amount of money invested in the enterprise."

Captain Matheson, for the Esquimalt board, in urging the need for a Public Utilities Commission, asserted that, at the present time, British Columbia had no protection whatever from hydro-electric companies in the matter of the adjustment of power rates.

Under the present regulations, it was probable that the control of

Mr. Grant Hall And Party Make Visit to Trail

NELSON, B.C., July 11.—Passing through Southern British Columbia on his way to Calgary for the Stampede, Grant Hall, first vice president of the C.P.R., today made inspection trips through the holdings of the Consolidated Mining & Smelting Company at Trail and the new plant of the West Kootenay Power Company at South Slocan.

Mr Hall was impressed with the activity of the Tadanac smelters where an extensive building program is under way to provide additional facilities.

Mr. Hall, who is being accompanied on his trip through the West by D. C. Coleman, vice-president of Western lines, left here to continue his trip by way of Kootenay Lake along the route of the new Canadian Pacific line being built from Proctor to Kootenay Landing, to link up a direct rail route with Southern Alberta. Other officials of the party were T. C. MacNabb, Winnipeg, engineer of construction, and C. A. Cotterell, Vancouver, general superintendent of British Columbia Division.

TRADE LEAGUE OF EUROPE IS AIM OF BRIAND

Foreign Minister of France Hopes to Present Plans for Economic Federation at League Assembly

CONFERENCE TO LAY FOUNDATION

PARIS, July 11.—The federation of Europe for commerce and industry, for which Aristide Briand, French Foreign Minister, has long worked and dreamed of, is receiving increased serious consideration.

The radical Socialist paper, Oeuvre, today said M. Briand had received many favorable opinions from powers represented in the League of Nations, that he hoped to outline his plans for a European federation to the League Assembly in September. He hopes even to call a conference at the end of the year to lay the foundation of the organization.

The Foreign Minister's idea is to federate Europe, economically at first, politically, perhaps, in the long run.

Foreign Protests On U.S. Tariff Are Given to Public

WASHINGTON, July 11.—Reed Smoot, Republican, Utah, the Senate's master builder of the tariff, made public yesterday notes received from thirty-eight nations. These dealt in a variety of tone with the changes in American duties proposed in the Hawley tariff bill. But through them ran a minor note of warning, the suggestion that an American tariff too high might result in damage to American export trade.

The Australian note made public at the time of its presentation expressed fear that increased rates imposed by the United States "will tend to divert Australian trade from the United States."

Mexico submitted a note representing great concern among her cattle producers over the proposal for higher rates on stockers and feeders, a matter in which Canadian producers are also interested.

Canada, Great Britain and New Zealand have not, as governments, told the United States they are cognisant of prospective tariff increases.

PLANES IN ARCTIC MAY MEET SHORTLY

COPENHAGEN, July 11.—Advices received here from Ivigtut, Greenland, state that Captain Albin Ahrenberg and the crew of the airplane Sverige reached Ivigtut at 6 o'clock this morning in a motorboat after landing at Kungnait Bay from Reykjavik, Iceland.

OTTAWA, July 11.—The 'Untin' Bowler is likely to be delayed at Port Burwell for a few days, according to a wireless message received by the Federal Department of Marine and Fisheries from its radio station on the Hudson Straits. While there is sufficient open water at Port Burwell to enable the plane to take off on its journey to Berlin, via Greenland, the main bay is full of ice. It may be several days before a favorable wind springs up to carry the ice offshore.

SUNNINGDALE, July 11.—Sir Wilson Ross, with a handicap of eight, won the seniors' competition for the Overseas Cup presented by American and Canadian senior golfers today, with a net score of 75. He won by a single stroke from H. E. Taylor, the English international player.

New Process Expected to Turn Huge Iron Deposits Of Ontario Into Wealth

TORONTO, July 11.—The Daily Star today says that experiments are being made with a new reduction process which if it can be applied commercially will make possible the use of the great iron ore deposits of Northern Ontario in the development of Canadian industry on a huge scale.

Premier Ferguson is actively interested in the experiment, according to The Star.

"Linked to the latest discovery is Robert Turnbull, president of the Volta Manufacturing Company, of Welland, Ont., with offices in Toronto," says The Star. "Such a process, according to iron ore experts, would mean a saving of $5,000,000 annually. It would mean development of the greatest industry in Canada and the discontinuance on Minnesota iron for Canadian iron and steel manufactured products.

SURE OF SUCCESS

"So sure of the success of the new so-called Turnbull process are the sponsors that Premier Ferguson will discuss the project from the platform during his Northern tour in August. Announcement of a huge customs smelter is also rumored, although it is said to have no connection with the Turnbull electric process."

Ontario and Quebec have immense deposits of iron ores but certain other substances are also present in the ores, just as zinc is present in silver and other ores in the Kootenay. The separation and elimination of other substances from the iron ores of Ontario and Quebec has hitherto been difficult and costly, and this detracts very much from the value of the ore. If the difficulty can be solved, as the zinc difficulty was solved in the Kootenay, by the invention of a process which will greatly reduce the cost of getting pure metal from the ore, then the immense deposits referred to will at once assume correspondingly immense values.

NINE BOYS AT FIRE BRIGADE TEST PERISH

Victims Represented People in House in Kent Who Were to Be Rescued From Imaginary Flames

BUILDING CRASHES; FLAMES BREAK OUT

LONDON, July 11.—Nine boys were burned to death tonight in the collapse of a house during a fire brigade display at Gillingham Park, Kent. The boys were assisting at the fire drill about the house, which was a structure just run up for the display.

The boys were within the building, where they represented the occupants to be rescued by firemen from an imaginary fire. It is not known how the structure caught fire, but the spectators saw it suddenly blaze and fall in flames upon the boys before they could be rescued.

Boy Believed Dead Appears At Last Rites

QUEBEC, July 11.—Lost in the woods since Monday, Leo Bergeron, 16, appeared dramatically at a mass being celebrated for his benefit. Following a long search, a dam had been opened to drain a pond in which it was thought his body might be found. The religious people of the district received communion at an open air mass and at the conclusion of the ceremony the boy, near collapse, stumbled upon the scene.

OKANAGAN FRUIT SHIPPED

VERNON, B.C., July 11.—Forty-four cars of early vegetables and fruit left this district during the past week. Movements in cherries have been very heavy, with quality and prices being well maintained. Potatoes are scarce, the price being now $55 per ton.

Wall-Poisoned Building Will Be Torn Down

CLEVELAND, O., July 11.—Fearful of death lingering in the walls of the Cleveland Clinic building where poisonous gases killed 123 persons last May, the directors abandoned plans to remodel the structure, and announced today that they will raze and erect a new building in its place.

Chemical tests revealed that the brown paste-like residue left by the gases, generated by burning X-ray films, had penetrated through the masonry, and the directors said they feared sufficient heat would cause the noxious fumes to reappear within the building.

Normal Relations With Russia Sought By Labor Ministry

LONDON, July 11.—The British Government this week will forward a communication to the Russian Government which, it is hoped, will enable a Russian representative to visit London before the end of July to talk with Rt. Hon. Arthur Henderson, Foreign Secretary, on resumption of normal relations between the two countries.

It is hoped that during the conversation a satisfactory understanding will be reached enabling normal diplomatic machinery to be restored.

State Prosecutor Found Guilty of Receiving Bribe

LOS ANGELES, July 11.—Harold L. Davis, former chief deputy district attorney, was found guilty of bribery by a jury in Superior Court today. The charge involved a bribe of $7,500 paid to obtain the acquittal of promoters of the defunct Julian Petroleum Corporation, tried in 1927 on fraud charges.

TWO NEW PEERAGES

LONDON, July 11.—Peerages were conferred by His Majesty today on Sir William Warrender MacKenzie and Sir George Croydon Marks. The new Lord MacKenzie is one of the country's outstanding arbitrators in industrial disputes. Sir George Marks, now seventy-one years of age, is a distinguished consulting engineer and an authority on engineering patents.

DELEGATES SEEK HALT TO DUMPING

Associated Boards of Trade of Vancouver Island Convention Deals With Fruit Problem in B.C.

MR. A. LEIGHTON NEW PRESIDENT

With regard to the question of dumping of fruit and vegetables from the United States, which came before the Associated Boards of Trade of Vancouver Island in convention here yesterday, the delegates resolved that as the effect upon British Columbia producers had been shown to be disastrous the Government should be urged to take steps to relieve the situation.

This was a modification of the resolution originally submitted by the Malahat Board of Trade, which asked that the authorities be strongly urged to take such means as lay in their power to have a seasonal tariff imposed, with the object of relieving the western farmer.

Mr Lionel Taylor, past president of the Fruit Growers' Association, told the meeting that this was a matter which came within the scope of the members of the Canadian Council of Horticulture, who were giving it their fullest consideration.

The afternoon session concluded with the election of officers for the coming year. Upon the president referring this to the meeting there were cries for his re-election, which he refused, on the ground that he had filled this office for the past two years and felt that it was time that fresh ideas were introduced from the chair.

As a result of Mr Bruces' decision, the past vice-president, Mr A. Leighton, was elected president, and Mr P. L. Anderton, of Courtenay, vice-president.

Last night the delegates were the guests at a dinner provided by the Victoria Chamber of Commerce, when they were welcomed by Mr R. W. Mayhew, acting president, in the absence of Mr P. B. Fowler.

The welcome, extended by Mr. Mayhew, was endorsed by Mr Reginald Hayward, M.P.P., who deplored the fact that there was still a certain feeling of jealousy between the northern and southern portions of the Island. It was only by gatherings, such as he was addressing, said Mr Hayward, that this bug-bear could be dispelled.

Mayor Herbert Anscomb also welcomed the visitors. So far, he said, Victoria and the other end of the Island had not worked together as a unit. "We must be aggressive," said His Worship, "and dry rot must be eliminated from the life of the people of this Island." The Mayor paid a high tribute to the past work of the retiring president and welcomed Mr Leighton in the undertaking of his duties.

Noranda Denies New York Rumor Of Huge Merger

TORONTO, July 11.—A report originating in New York yesterday and circulating freely in local mining circles to the effect that a $60,000,000 merger was under way to link the Consolidated Mining & Smelting Co. and the Noranda Mines Ltd., was emphatically denied by Noranda officials here tonight. Both companies recently announced extensive development and expansion programmes, and it is believed this caused the merger rumor.

PLANE STILL FLIES OVER CULVER CITY

Pilots Have Cruised Approximately 18,000 Miles Without Alighting — Are Now Growing Tired

IN AIR 230 HOURS AT 9:29 O'CLOCK

Note Dropped Asks Spectators Not to Rush Out as Aviators Descend — Want to Land Safely

CULVER CITY, July 11.—Having cruised their biplane Angeleno approximately 18,000 miles or almost the distance around the earth during nearly ten full days and sustained flight, Pilots L. W. Mandell and R. B. Reinhart soared into their tenth night aloft with the first indication that their thoughts finally had turned toward a landing. But how many hours away contact with the earth was remained unindicated. The 230th hour of sustained flight was passed at 8.29.30 p.m. A note dropped late this afternoon addressed to the crowd of spectators on the field, said:

"Please do not rush out when we land. We are tired. We have many things planned for the Angeleno we want to keep intact if possible. We expect to be up about 100 hours more but we want you all to help us get down safely, so please don't rush out and mob us when we land."

Another refueling was made just before dark, a promise that another night would be spent in the air, despite the development of a little noise in the motor earlier in the day.

NANAIMO HAS ORANGE FETE SET FOR TODAY

Rally Will Be Held, With Large Delegations From Mainland and All Parts of Island

SPEECHES AND SPORTS READY

Orangemen of British Columbia will be reinforced with the Orange women's societies of the province in celebrating at Nanaimo today the anniversary of the Battle of the Boyne.

The Loyal Orange Association, the Ladies' Orange Benevolent Association, and the juvenile bodies will share in the gathering. Steamers and buses will take the delegates from various points to Nanaimo. About 1,000 from Vancouver country jurisdiction have planned a parade through Vancouver to Pier D, where they will embark on the Princess Elaine for Nanaimo, and then on debarkation they will form part of a parade which will start at 2 o'clock from St. John's Hall, ending at the Central Sports Grounds, where the speeches and field events will be carried through.

Mayor Busby has accepted the invitation to preside, and there will be speeches by leading Orangemen. A local committee has made the arrangements for the sports, one of the chief events being the tug-of-war.

A number of bands have been engaged for the parades, both in Nanaimo and at Vancouver, including the novelty of a kiltie band of women.

It will be the 239th anniversary of the engagement which secured the Protestant ascendancy in Ireland for several generations, and rendered the accession of the House of Hanover a possibility.

Vernon Canning Plant

VERNON, B.C., July 11.—The canning plant of Bulman Ltd. is nearing completion here. Since the letting of the contract to the Dominion Construction Co. very rapid progress has been made, and by the end of July all machinery will be installed and plant ready for business. The plant will have a maximum capacity of thirty-five to forty tons a day. Nearly one hundred and fifty employees will be needed for the new plant.

VAGUE INTIMATION

WASHINGTON, July 11.—President Hoover today advised Senate Republican leaders to apply the yardstick of "adequate protection" to the pending tariff bill.

Chinese Deal With Officials of Soviet In Drastic Manner

Russian Consul-General at Capital of Manchuria Protests and Is Told to Leave Country—Three Hundred Russian Officials and Employees Are Ordered to Be Deported

Near Panic at Harbin; Many Clashes Reported

TOKIO, July 11.—Dispatches from Harbin, Manchuria, today, stated that as a result of the Chinese authorities taking over complete control of the Chinese Eastern Railway today and ordering deportation of more than three hundred Russian officials and employees, Soviet troops in Eastern Siberia were made ready to move at a moment's notice toward the Russo-Chinese border.

Tonight's dispatches said that Harbin was in a state bordering on panic and that business was at a standstill. Besides seizing the railway, the Chinese had closed all Soviet agencies in North Manchuria and had disbanded the Russian labor unions.

Thirty Russian officials were started for the border early this evening and about 300 others must go on Friday. There were wild scenes at Harbin station whenever a train pulled out and clashes between police and Russians were reported from many parts of the country.

The Chinese were stated to have taken over control as a counter move to the demand of M. Melnikov, Russian Consul-General at Harbin, for the release of numerous officials and employees arrested during the past day or two by noon today.

Chinese immediately dismissed M. Emshanov, manager, and replaced him by Fan Chih-Kuang. Other high Soviet officials also were dismissed.

Later dispatches from Harbin said that Chang Ching Hui, Governor of the Harbin district, handed Melnikov passports for all Soviet employees in the Harbin district, demanding their withdrawal from Chinese territory within twelve hours.

OTTAWA MAY BAN EXPORT OF LIQUORS

Recent Developments Along Detroit River Is Cause of Strong Repercussion in Canadian Opinion

PROTESTATIONS FLOOD MINISTERS

OTTAWA, July 11.—The impression is growing here that the Dominion Government may modify its policy with respect to granting liquor clearances to the United States. In fact it would cause no great surprise to some observers if the cabinet went all the way and complied with the request of the United States to refuse altogether liquor clearances to that country. Whether these forecasts are correct or not, there can be no doubt that the recent developments throughout the country along the Detroit River have caused a violent repercussion.

During the last sitting of Parliament there were several petitions from various religious and temperance bodies asking that clearances be refused. These formal protestations were mild as compared with the telegrams and letters which are pouring in on the ministers of the crown these days.

DO NOT MINCE WORDS

These letters and telegrams are coming in from every province, and while they are not being made public it has become known that many of them do not mince words in expressing the opinions of the writers about the present policy of permitting the clearance of liquor to the United States, in contravention of the dry laws of that nation. The Government is accused of facilitating the harboring of armed thugs who attack the law officers of a friendly country.

LIKE FENIAN RAID

Canada was no more justified, one prominent Canadian is reported to have telegraphed the Prime Minister, in the action it was taking than was the United States when it permitted the Fenian raiders. The government is accused of fearing the liquor interests.

In fact the accusations hurled at the Government for not stopping clearances are said to take in a tremendous range. The prominence of many of the authors of these communications gave ground for speculation as to what the reaction of the Ministry will be to them.

GEN. BOOTH'S WILL

LONDON, July 11.—The manner in which the second codicil of the will of Bramwell Booth, former Salvation Army chief, affects the Army's properties is discussed in the forthcoming number of The War Cry.

This codicil, The War Cry will say, vests these properties in the executors, Mrs Bramwell Booth, their daughter Catherine, and solicitor, Frederick C. R. Sneath.

It says "The effect of this substitution compels the General (General Higgins) to go to the executors for legal transfer of Army property. Whether they will give this transfer without further difficulty or whether they will insist upon the courts being referred to, is not yet clear. They are getting legal advice upon their position.

"One thing seems perfectly clear—that these executors only hold the property for the purpose of passing it over to the General of the Salvation Army. They cannot do anything else with it. They are only trustees for the limited purpose, they can not enter into its administration or control. They can only hold legal title."

SERVICE OF BURIAL FOR CREW READ

Naval Vessels Form in Order and Chaplains Conduct Last Rites for Men in Sunken Submarine

EFFORTS TO RAISE H-47 ABANDONED

PEMBROKE, Wales, July 11.—The last phase of the H-47 tragedy, which took the lives of a score of men, was enacted in the gathering dusk today when the battleship Rodney, flying the flag of the Rear Admiral commanding submarines, accompanied by six destroyers, paid the British navy's last respects to the men entombed on the sunken submarine. All hope of saving them was abandoned today.

The Rodney and the destroyers were anchored and the crews lined up for the burial services which were conducted simultaneously by the chaplains of the vessels while the seamen laid wreaths on the water.

EFFORTS ABANDONED

LONDON, July 11.—The admiralty had decided to abandon all further operations for salvaging the sunken submarine H-47.

The announcement of this was supplemented by the statement that this decision had been reached after full consideration of the location of the lost warcraft and the difficulties in attempting to salvage it.

The admiralty statement says that the facts which guided it in reaching this decision were the certainty that all the missing men perished almost immediately the vessel sank, and that great depth of water, risk from tides and weather would render salvage—even if an ultimate possibility—a task involving the divers and others in great and continued danger.

LATIN RACES MIGRATE

Increased Movement to Australia Is Due to Restriction in the United States

SYDNEY, Australia, July 11.—One of the effects of the restriction of immigration into the United States by means of the quota system, has been to increase substantially the inflow into Australia, particularly of Italians, Greeks and other Europeans who had not previously been accustomed to emigrating so far afield.

In Australia there is an absolute color bar, but there is no restriction upon Europeans, provided it can be shown that they are not likely to become charges upon the State.

TWO OFFICIALS WILL INSPECT COAST PLANTS

Commissioner and Mr. J. P. Babcock Will See Pilchard Reduction Plants and Canneries

SALMON AREAS TO BE INSPECTED

Hon. S. L. Howe, Provincial Secretary, and Commissioner of Fisheries for the Province, and Mr. John P. Babcock, Assistant Commissioner, left Victoria last night on the steamer Princess Norah for an inspection of the fisheries on the West Coast of Vancouver Island. They will visit all the fish reduction and canning plants, as the Norah will make stops at all of them. It is the first trip the Commissioner has made up the West Coast.

While the pilchards have not as yet entered estuary waters in large numbers, it is anticipated that they will do so this week. Several of the plants have already made limited catches. While comparatively little is now known of the life history of the pilchard, it is believed that they enter the inlets on the West Coast to feed. They do not spawn there. They are pelagic spawners—that is, they spawn in the open sea, but when and where is not known. The joint study of their life history and the condition of the fishery has just been undertaken by the Provincial and Dominion Fisheries Departments, under the supervision of Dr. W. A. Clemens, of the Biological Board of Canada, and Mr. Babcock.

Shortly after Mr. Howe returns from the West Coast he will inspect the salmon fisheries of the Northwest Coast, including Rivers and Smith Inlets. He will attend the annual convention of the Canadian Fisheries Association in Prince Rupert August 1 and 2, at which he will deliver an address on the Fisheries of the Province and the Fraser River Treaty.

SPALDING'S TENNIS ANNUAL ON SALE

Spalding's Tennis Annual for 1929 has just been published by the American Sports Publishing Company, and is again edited by Samuel Hardy, the well-known authority of the game. As in former years statistics in connection with all national and international competitions of note are given in addition to the editorial comment by the editor of the annual. The ranking of the Canadian players and the list of champions of the various provinces, are given. Rules of lawn tennis, cases and decisions, tournament regulations and other helpful information for conducting a meet, also rules of badminton and rules of deck tennis are to be found in a separate section of this popular publication.

A Whole Hedge of Roses

THIS beautiful display of climbing roses is at the home of Mr. and Mrs. M. R. Jamieson, 1015 Joan Crescent. Even in Victoria, the "City of Beautiful Roses," as it is beginning to be called by some of its envious neighbors, this hedge is unique, and the drivers of the tallyhos tarry in front of it so that the passengers may satisfy their curiosity with a longer look. Reds, pinks, yellows, creams and whites compose this wall of bloom, the varieties used being the Dr. Van Fleet, the Renee Andre, the Alberic Barbier, the Leontile Gerdais and the Jean Guicard. These are all sturdy climbers, and some have been blooming for the past thirteen years. This year there has been a particularly heavy bloom, and the past week has seen it at the zenith of its glory, although the season lasts for many weeks. While the public benefits by the grower's generosity in placing the hedge where it can be seen in all its beauty, occasional passers-by fail to respect the privilege of merely looking, and several times every year long shoots are torn down by people who try to purloin a buttonhole. The owner wishes it to be known that she will gladly give a nosegay to anyone who takes the trouble to knock at the door and ask for it.

REGULATION OF UTILITIES RATES URGED

Continued from Page 1

these rates would entirely pass out of the hands of the Provincial Government. In fact, there was nothing to protect the Province from the overcapitalization of individual companies, and it should be remembered that Campbell River was the last important remaining power reserve, available to the southern end of the Island.

LOW RATES URGED

Captain Matheson spoke of the remarkable successes which had been attained in other provinces, notably Ontario, through the institution of public utility commissions. "Because we know that overcapitalization has already taken place," he said, "we now ask that the rates shall be based on the actual capital invested in the project.

"Every business and industry depends upon the low rates of power which are necessary in keeping its head above water, and, if you consider the significance which this has towards shipping, with cargoes working both ways, instead of one way, with its effect upon land values, and, consequently upon the farmer, I am sure that you cannot fail to support this resolution.

"During the course of the last year alone, Victoria lost two big industries, simply because they could not get lower power rates. In those districts, served by Campbell River you will have a standard of low power rates, set for you, which you cannot ignore."

AGAINST DELAY

Mr. Matheson's address opened the way to considerable discussion. Mr. J. G. Cameron was of the opinion that it would be very unwise to pass any resolution which might delay any kind of development on Vancouver Island. He pointed out that the present legislation undertook to regulate the cost of power service from month to month.

Mr. E. L. Macdonald, of Courtenay, said that the appointment of the commission suggested would involve another session of the House. The operation, he pointed out, should not be tied up with any particular concern on the Island, and the rates should be based on the actual cost of development. "The Government," he remarked, "already have a clause whereby it can take over this, or any other development, at 6 per cent of the actual capital invested."

Mr. Leo Anderton, of Courtenay, suggested that, if the clause referring to a Public Utilities Commission were eliminated, the board might well ask the Government to embody the remainder of the matter contained in the original resolution in any contract made with a private power company. The main protection needed, he said, was the assurance of the Government's power to buy this property back at a reasonable price.

CAMERON LAKE PARALLEL

Mr. A. Leighton, vice-president of the board, pointed out the mistake which had been made in the "giving away" of the Cameron Lake district. Here, he said, was an example of enormous resources being disposed of for a song—resources which involved many acres, at present free from all taxes—depleted of minerals and timber, while the soil was left uncultivated.

General Noel Money, of Qualicum Beach, declared the public were amply protected, and it should not be forgotten that the Campbell River power had been "hawked all over the country" for the past twenty years. "We ought to be very thankful," added General Money, "that we now have two companies, both of them willing to spend between $15,000,000 and $20,000,000 in developing the country."

SOLDIER JONES QUITS FIGHT GAME

TORONTO, July 11.—Soldier Jones, Toronto, battle-scarred veteran of many hectic fistic struggles and one time holder of the Canadian heavyweight championship, has quit the ring for all time, he has announced. The man who has won more than 250 bouts waged in prize rings from Paris to Brazil, is now dressed in the colorful garb of night watchman at Toronto's newest hotel.

TWO APPOINTMENTS ARE GAZETTED

This week's British Columbia Gazette contains the notice of the appointments of Hon. T. G. Coventry and Mr. W. W. Duncan in the marketing services of the Department of Agriculture. These appointments are set out as follows.

Mr. Coventry, of Victoria, to be a special representative of the Department of Agriculture in Great Britain to assist the department in making inquiry into the opportunities for the marketing in Great Britain of products from the Province of British Columbia.

Mr. Duncan, of Brentwood, to be director of markets under the Department of Agriculture, to assist the department in obtaining information with regard to the possibilities of marketing British Columbia agricultural products both within this province and throughout the Dominion of Canada, and in facilitating the sale of such products by producers in this province to purchasers throughout the Dominion of Canada.

ENGLISH SHOT EQUALS RECORD ON LONG RANGE

Captain George Maxwell Scores 222 Points Out of Possible 225 in Albert Competition

TIES MARK MADE BY MAJOR RANKENS

BISLEY CAMP, Eng., July 11.—In the Albert competition, shot at the 900, 1,000 and 1,100-yard ranges at the National Rifle Association meeting today, Captain George Maxwell, of the Fourth Suffolks, scored 222 points out of a possible 225, equaling the record score made by Major Rankens in 1913.

Captain Maxwell made 73 out of a possible 75 at the first distance, got a possible on the second range and was only one point short of perfect at the final 1,100-yard distance with a 74.

TAX COLLECTIONS SHOW INCREASE

New Mark in Oak Bay Municipality According to Semi-Annual Report of Collector of Taxes

The collector of taxes in the municipality of Oak Bay in presenting his semi-annual report stated that all recent years' collections for the same period were shattered. Last year's mark of 84.6 per cent was one that was expected to stand for some time, said Mr. R. F. Blandy, the municipal clerk, when speaking on the new mark of 84.8 per cent this year.

The total amount collected was $150,303, while the 1929 levy is $177,121. The total estimates of receipts is placed at $161,838. Collections from January to June 30 is .2 per cent better than for the same period last year, while it is 2.8 per cent over the 1927 mark.

Permission was granted to the Victoria Conservative Association for the use of the Willows Beach Park for its annual picnic to be held on July 31.

"Dusty" Miller Wins Decision Over Williams

VALLEJO, Cal., July 11.—Dusty Miller, hard-hitting heavyweight from Victoria, B.C., took the decision from Frank Williams, of Chicago, in the ten-round main event at the Vallejo Athletic Club here tonight.

"I admit," said the Pittsburgh man, "that our city doesn't make a very good impression at first, but the place grows on you, don't you think?"

"No," replied the visitor, "not on me. By the constant use of soap and water I have managed, so far, to remove accumulations."—Boston Transcript.

Alice—"Why don't you tell Rod frankly that you don't like him as well as Ted?"

Jean—"I can't. I'm not sure that Ted will propose."

POSSIBILITIES ARE OUTLINED BEFORE ROTARY

Mr. H. B. Thomson Speaks on "Island Development" at Yesterday's Luncheon of Club

SPEAKER CALLS FOR MORE ENTERPRISE

"If you are ready and willing intelligently to conjecture the possibilities, it will be a matter for surprise to you all when you realize what can be done for the general benefit of Vancouver Island," said Mr. H. B. Thomson, addressing the Rotary Club of Victoria at the Empress Hotel yesterday, when the delegates to the Associated Boards of Trade of Vancouver Island formed the bulk of the guests.

Speaking of power by steam, Mr. Thomson said that, given fuel at a reasonable cost, it was possible to produce motive power at an even cheaper rate than that supplied by hydro-electric sources.

With regard to agriculture, went on the speaker, no province in the Dominion had so many climatic advantages as our own. "You, of the Boards of Trade," he said, "are nothing more nor less than the intelligence branch of an industrial army. Only by talking things over with the farmer can you improve conditions."

Mr. Thomson gave a number of statistics, many of them depressing, and a few of them cheering. Vancouver Island, he said, could subsist on the butter which it produces for possibly three days in the entire year. Despite the fact that this province can run its cattle on the range practically throughout the entire year, its production of fresh and salt meat is infinitesimal.

Mr. Thomson spoke of the loganberry wine industry, pointing out that a surplus of fruit this year, even supposing it had to be kept for another two or three years, would more than repay the interest on the capital involved, by the appreciation in value of the wine itself.

In the course of the luncheon Mr. Alfred Carmichael, president of the club, presented the button, signifying past-presidency, to Mayor Herbert Anscomb, who resigned his office when he took up his civic position. In the absence of the club orchestra, at present on its holiday, community singing was led with outstanding success by Mr. Bob Webb.

Three Tied for First Place in Irish Open Golf

ARCHIE COMPSTON

PORT MANNOCK, Ireland, July 11.—Archie Compston, the Manchester giant; the veteran Abe Mitchell and L. Holland, of Gerards Cross, were tied with scores of 300 when play ended today in the seventy-two-hole competition for the Irish open golf championship. They will play off for the title tomorrow. At the end of the first thirty-six holes Abe Mitchell, the veteran Ted Ray and Tommy O'Connor were bracketed with scores of 153 each. A high wind made playing conditions extremely difficult in the first rounds.

ROSS BAY CEMETERY

Sir,—May I beg of a little space in your valuable paper in reference to the above. The cemetery is in a very disgraceful state and is a bad advertisement for such a beautiful city as Victoria. You may go anywhere in the Prairie cities and you will find no cemetery as badly kept as this. It matters not how much a person attends to his lot to make it look beautiful, he cannot succeed on account of the tall grass surrounding it. Could not the city put some of the unemployed on and clear all the unsightly grass away, and have the grass kept mown all the time? I have heard repeated remarks from tourists about our untidy cemetery; even this week-end I was showing some Prairie visitors over and they were shocked at the untidy state of the cemetery and compared it to Regina where the grass is kept mown like a lawn between the graves.

It would be well if all lot owners got together and made one big complaint to the City Council and then perhaps they would do something to help keep this cemetery tidy and clean, and show respect to our dear departed.

CANCER

Sir,—To those who have seen friend or relative die of this dread disease, their sufferings, and the impotence of man, a picture of horror remains which time cannot eradicate. On this Island, with its wide open spaces, health-giving air and beautiful climate, people have apparently died of cancer. Why? A recent report of investigation into the causation of this disease being conducted in England, reveals the interesting information of rats being the probable carriers.

Assuming this to be true what a host of troubles, cancer, plague etc., the taxpayers of this province are laying up for themselves, who maintain in luxury and comfort numbers of highly-paid officials who are supinely indifferent to the ever-increasing plague of rats to be seen and heard of almost everywhere. Perhaps some day, when the taxpayer wakes up, he will commence to inquire what the paid official is doing and what he is paid for. Most business concerns require something from their employees in return for the salary paid them.

Percy—"No, and I doubt if the French people do either."

SAYS SCREW BENT BY SHIP HITTING ROCK

Captain B. H. Jensen Claims We Entered Goose Harbor to Be Beached There Following Accident

ACTION AGAINST THE MAY BEGINS

That the American fishing vessel We struck a ledge of rock off Gander Island, bending her propeller and damaging a fresh water tank aboard, and then proceeded to Goose Harbor anchorage to have a survey made of her condition as result of the accident was the reason given by Captain Bertel H Jensen, master of the We, in the Admiralty Court at the Court House here yesterday, before Mr Justice Archer Martin, for her presence in Goose Harbor when the Government cruiser Malaspina seized the vessel there on May 6, 1929.

Captain Jensen informed His Lordship that the We left Ketchikan, Alaska, on May 1 last, with her hull, engine and propeller in good condition. The vessel went to Graham Island, and fished four or five miles off shore, but the fishing was poor. The We then proceeded farther south, and at noon on May 5, said witness, the accident occurred.

"We hit a rock off Gander Island. Oswald Christenson, who is employed on the We, was at the wheel at the time, and I was below. There was a heavy jar, which caused the vessel to lean to the starboard side. I came up on deck, and saw kelp over the side. I said to the mate, 'You must have struck a rock.' I looked over the stern, and saw that one of the blades of the propeller had been bent. I decided to put into Goose Harbor, where I knew there was a sandy beach, and see what damage, if any, had been done to the bottom of the boat," Captain Jensen testified.

TO NEAREST PLACE

Witness said the We reached Goose Harbor about 11 p.m., and explained that the reason why he didn't beach the boat that same night was because it was dark, and the tide was at high water. He said that Ketchikan was 180 miles from the place where the We hit a rock, Goose Harbor was sixty miles distant, Prince Rupert was 110 miles distant, and he believed Butedale was a similar distance away. He said he wanted to go to the nearest place, and knew that Goose Harbor was also a suitable place for beaching the ship.

Oswald Christenson, of Seattle, a fisherman aboard the We, corroborated Captain Jensen's evidence concerning the mishap to the boat and the reason why it entered Goose Harbor anchorage. He said he knew the ship's propeller was bent, but didn't know how great the damage was. "I saw nothing before we struck. The captain came up and showed me the kelp in the water."

The complaint of the bent propeller had been stated, admitted Captain P. C Laird, of the Canadian Government fisheries protection cruiser, who seized the We, but he said he had observed the gas boat making six and one-half knots an hour, and contended that if the vessel could proceed at that speed, it was not necessary for him to make an examination of her propeller, nor did he consider the damage done could have been sufficient to necessitate a call in Canadian waters under all the circumstances.

Argument in the action against the We was reserved until the completion of the King versus the May case.

THE KING VS. THE MAY

Hearing opened in the proceedings against the American fishing craft May, with Captain Laird of the Malaspina, telling of the seizure of the boat on May 6 in Goose Harbor. He told of a conversation he had with the captains of the May and the Puritan on board the Malaspina, and claimed that, when asked why the May was in Goose Harbor, the master of the May at first didn't answer. "I asked him if he came in the bay for a rest, and he answered yes. A few seconds later he offered the excuse that he came in to take off the cylinder head of the ship's engine. I asked him why he hadn't said that in the first place and he said he had. I stated that he had not. Then he answered, 'If you fellows are going to take it that way, I won't say any more.' The May was taken to Prince Rupert under her own power, and there turned over to the customs."

Cecil John Gray, wireless operator on the Malaspina, corroborated Captain Laird's version of the conversation referred to, having been present at the interview. The hearing of the action will be continued this morning at 10 30 o'clock, when the captain of the May will take the witness stand.

Hudson's Bay Company Director Tours Canada

VANCOUVER, July 11.—Hon. A. J P Howard, grandson of the late Lord Strathcona and a director of the Hudson's Bay Company, is in Vancouver in the course of a tour of Canada, looking over his family's numerous interests and also the affairs of the Hudson's Bay Company.

Mr Howard said that he took special interest in the overseas settlement plan being carried out jointly by the C.P.R. and Hudson's Bay Company around Vermilion. He visited the place and was pleased with what he saw.

He leaves for the East tonight. C V Sale, governor of the company, will visit Canada later in the year, he said.

Mysterious Disease Visits Lumber Camp

CHURCH VOTES PERMISSION TO USE NEW BOOK

Convocations of Canterbury and York Adopt Resolutions Approving Use of Revised Book

ASSENT OF PARISH TO BE NECESSARY

LONDON, July 11.—Both the upper and lower houses of the Convocation of Canterbury, today adopted resolutions approving use of the revised prayer book in churches where assent is given through the parish council. The vote in the upper house was 23 to 4, and in the lower house 96 to 64.

The 1928 or revised prayerbook has been the centre of controversy for some time. It was rejected by Parliament twice, and since then efforts have been made to overcome the deadlock.

During discussion on the Archbishop's resolution in the upper house, there were lively scenes and some heated remarks were exchanged between Right Rev. M. B Furse, Bishop of St. Albans, and the Right Rev E W Barnes, Bishop of Birmingham, who opposed the resolution.

Dr Furse several times quoted sermons delivered by Mr Barnes, whereupon the latter protested. The Archbishop of Canterbury frequently intervened and finally declared.

"The Bishop of Birmingham so frequently uses language of a vehement kind that he must not be surprised if any of the his brethren wish to call attention to his implications."

The Archbishop added that he would not allow time to be taken up to consider what the Bishop of Birmingham did or did not mean.

YORK, England, July 11.—Both the upper and lower houses of the Convocation of York have approved the resolution of the Archbishop of Canterbury, authorizing use of the revised prayer book in churches where assent is given through the parish council.

The upper house approved the resolution without opposition, only one bishop abstaining from voting.

CO-OPERATIVE UNION ELECTS EXECUTIVE

WINNIPEG, July 11.—W. C. Wood, B.A., of Paris, Ont., today was re-elected to the presidency of the Co-operative Union of Canada at the closing session of the annual congress, which has met here for the past three days. No changes in the list of officers were recorded and the United Board of the Union was also renamed.

The election of George Keen, Brantford, Ont., as general secretary, was announced as his twentieth term as executive manager of the national body. He also will continue as secretary and editor of the union's official publication, the Canadian Co-operator.

Other officers are: President, W C Wood, Paris, Ont., vice-presidents, Alberta, A. P Moan, Wetaskiwin; British Columbia, Robert Wood, Armstrong, Saskatchewan, H W Ketcheson, Davidson.

NINE PRAIRIE PROVINCE COMPANIES COMBINE IN FEDERAL GRAINS, LTD.

New Organization Will Control 339 Country Elevators and Much Space in Terminals

WINNIPEG, July 11.—The merger of nine important local grain and elevator companies into one organization with assets of $9,250,000, was reported here today, according to The Tribune.

The new company will be known as Federal Grains, Ltd., and James Stuart, one of the biggest figures in the grain trade, will be chairman of the board. J C. Gage, president and general manager of the Consolidated Elevator Company, will be president, Harry E. Beller, president of Northwestern Elevator Company will be vice-president, and A. P Mitchell, general manager of the Federal Elevator Company, will be general manager.

The companies involved in the merger are: Stewart Terminals, Consolidated Elevator Company, Federal Grain, International Elevator, Union Grain, Northwestern Elevator, McLaughlin Elevator, Topper Grain, Brooks Elevator.

The new company will control 339 country elevators and 7,250,000 bushels of terminal space.

The merger will be followed by a public offering of bonds. Preferred stock will be underwritten by Wood, Gundy & Company and the Royal Securities. The consolidation brings together some of the outstanding figures and organizations in the Western Canadian elevator and grain business.

The head office of the Federal Grains will be in Winnipeg.

Canadian Teachers' Annual Conference Sails St. Lawrence

MURRAY BAY, Que., July 11 (Aboard the Ss. Richelieu with the Canadian Teachers' Federation Convention).—Teachers' pensions, salaries, contracts and Government legislations affecting the profession existing in the various provinces of Canada, were reviewed at the second and third business sessions of the tenth annual conference of the Canadian Teachers' Federation held at River Bend and Port Alfred, respectively, last night when the various provincial bodies affiliated with the federation delivered their reports. Following the meeting at Port Alfred, the delegates boarded the steamer Richelieu for Quebec, where the conference will end Friday night.

Local V.O.N. Meets

At the monthly meeting of the local board of the V.O.N., Miss Thornley, the supervising nurse, reported 195 patients nursed, 142 new cases taken on during the month, total visits, 1,020. Of these 574 were nursing bedside visits, the rest were educational, including pre-natal, post-natal, child welfare and T.B. Free visits during the month totalled 669. Visits paid on behalf of the Metropolitan Insurance Company, 215. Four well baby clinics were held.

Thanks are given to Mrs. Allen for bedding, bassinet and old linen, Mrs. Mulliner, old linen, Mrs. Andrew Grey, baby carriage.

"'So you have been visiting the new school, have you? Fine, isn't it? Magnificent building! Superb discipline! By the way, what was the first thing that struck you on entering?"

Jones (truthfully): "A pea from a pea-shooter."

THE CADET MOVEMENT

The Cadet Camp at Rodd Hill, at which some 800 boys have been mustered, was an object lesson in what can be done, under discipline, for the development of boyhood Discipline in youthful lives is the necessary prelude to a disciplined and ordered manhood. It is indeed an essential to any manhood that is worth while in the scheme of things. It is a part of character development, a most important part, and in the role of making manhood the Cadet movement deserves every praise. The boys who have been at Rodd Hill undergo drill and physical training. They are taught to shoot straight, and, incidentally, to think straight. They are instructed in the essentials of first aid, and swimming is a part of their curriculum. They learn many things that are not on the agenda of the public schools and those who have taken the Cadet course almost invariably make for the best type of citizen in after life.

It is an excellent thing for British Columbia and its future that the Cadet movement should be encouraged in every possible way, and it is a tribute to what is now being done to that so many boys should have assembled together for the Summer training. Every high school in the province should have its Cadet Corps, and every private school, as is the case where principals and headmasters believe that character development is a part of education. The camp which broke up yesterday will have performed a doubly useful task if, as well as the undoubted benefits which it has conferred on those participating, it gives a fillip to the Cadet movement and shows to the youth of the province, in a larger way than they have every realized, the value of supplementing school life by substantial means which lead to mental, physical and social development.

CHANGING DIETS

The many gospels of diet which are preached almost daily through the press have at last led newspapers to see the humor of this situation The press now recognizes that diet, like fashion, is constantly changing, and that newspapers are used as the medium to express the changes that are taking place. In the modern pharmacopoeia there is nothing so experimental as the effort to decide what people should eat. As to drinking, there is an unanimity of opinion among doctors that all should drink water and milk, and little else. In the matter of foods, however, expert opinion is in a constant state of flux, the more so since the discovery of the elusive vitamins.

Not so long ago it became something in the nature of an axiom that prunes were essential to health and happiness, a dictum which is now almost forgotten. The craze for cereals, got up in attractive and dainty forms and cut into shapes and flakes of many conceivable fashions, persisted for its day and year, and then, like other dieting fashions, waned in the light of some new discovery. The conservers of digestion seem to be kaleidoscopic. They are dependent on the stage of civilisation we have reached. It was prunes yesterday, yeast today, and it may be bully beef tomorrow. All possible changes have been rung on vegetable combinations. The virtues of spinach and parsnips have been sung in medical articles. Green, as opposed to root, vegetables have been advocated with a persistence worthy of an eternal principle. Within a brief few years it was discovered that an undue proportion of starch foods was fattening and impeded digestion. There are learned disquisitions on the vitamin contents of various foodstuffs.

When all is said and done the mystery of diet remains unsolved, for the fact persists that in the pharmacopoeia of human knowledge what was meat yesterday may be poison today It is largely a case of the individual ability of absorption and the state of the individual's health. There are not, and perhaps never will be, rigid laws of dieting which can govern the health and happiness of the mass of mankind. Dieting must vary as climate varies. In the old days of fox-hunting and excessive eating and drinking men often lived longer and lived healthier than they do today. The greater the spread of experimenting in dieting the fewer hours men want to work, which would argue that because their meat and drink is circumscribed and prescribed their energy becomes similarly limited. The healthiest people and the best workers never bother about diet at all. Almost invariably centenarians are those who have never subscribed to dieting laws The craze for dieting is like the craze for psychology. It was ordained by propaganda and nurtured into a new profession which realizes to the ful the credulity of the human race.

THE NOVELIST'S MISSION

We are all familiar with the man who says: "I never read novels; I read only serious books." "People of this type have been roaming the earth since the beginning of time—certainly since novels were first written," writes Mr Frank Swinnerton in The Pall Mall Magazine· "But the fact is that this man need not be taken as seriously as he takes himself. If he does not read novels he knows nothing about them. He certainly does not know how serious they can be One great foreign statesman once told me that he was in the habit of reading English, French and German novels in order to discover what the three nations were thinking."

Historians and biographers will sniff at this fact, and so will the serious person just mentioned; but it is significant. It means that the novelist, like the playwright (for the modern dramatist cannot fairly be left out in such a connection), represents the active thought of our age. He speaks for more than himself. Discussing the novel writer and human character in The Contemporary Review, Rev. the Hon. Edward Lyttleton points out that all readers make on the novelist the claim that the character pictures shall be true to life; that is, they should constantly hint at the mystery in which the subject is wrapped. Next, that they should take account of the effect of daily experience, which means that no character is, strictly speaking, stationary.

"It is not disputed," says Mr. Lyttleton, "that of the two motions, the upward or the downward, the writer is naturally tempted to portray the latter; feeling that so he will be more intelligible to his readers, since in deterioration there is so much that we can analyze, but in growth there is a large essential element that escapes us Moreover, the story of corruption appeals to a morbid appetite for excitement which is rampant amongst us today, whereas growth attracts little attention, so quiet is it and unexciting, though always passing wonderful."

These are true sayings Even more wonderful, more miraculous, than growth is recovery. It is a fact that, in spite of psychological laws which seem so relentless, the downward lapse is sometimes arrested and the personality made to shine with a new light. The novelist must do his best to remind his readers, that "Men may rise on stepping-stones of their own dead selves to better things" That is far too wonderful a truth to be passed by as if it were an insignificant commonplace or an idle fancy. It is a mystery, indeed, but rich and revivifying for all who catch a glimpse of the vision to which it gives birth. It is the charge committed to a novelist that he should first discern the power which makes for righteousness, beauty and truth, and then show his less gifted fellowmen the purpose of the existence of each of us.

WANTON MOTORISTS

Instances are coming to light at this time of the year of game birds being run over and killed by careless motorists. This is the breeding season and the older birds frequent the roads with their young. On the approach of danger in the shape of a motorist the mother birds very often will not desert their young, because the latter have not yet sufficiently developed to protect themselves. The result is they are run over A little care on the part of a motorist is all that is necessary. It is a heartless and cruel pursuit in broad daylight to destroy game in a wanton way and it is almost inconceivable that in a matter of this character any warning should be desirable There are, however, as humans can testify, motorists who are lost to all sense of decency. It is that type that thinks nothing of running down game birds that are crossing the country roads.

Before the war strawberries in Britain were sold at four pence a pound; sometimes six pence, but just as often two pence half-penny. The cost of living is supposed to have gone up 60 per cent as compared with pre-war days. The price of strawberries in Britain, however, has increased 100 per cent and sometimes more. They now sell at a shilling, and sometimes as high as a shilling and four pence a pound. For a great number of people they have become a luxury.

INTO THE TWILIGHT

Outworn heart, in a time outworn,
Come clear of the nets of wrong and right;
Laugh, heart, again the grey twilight,
Sigh, heart, again in the dew of the morn.

Your mother Eire is always young,
Dew ever shining and twilight grey;
Though hope fall from you and love decay
Burning in fires of a slanderous tongue

Come heart, where hill is heaped upon hill;
For there the mystical brotherhood
Of sun and moon and hollow and wood
And river and stream work out their will;

And God stands winding His lonely horn:
And time and the world are ever in flight,
And love is less kind than the grey twilight,
And hope is less dear than the dew of the morn
—W B Yeats

MR. ZZYZZ

Mr Zzyzz is a man who interests us. Mr Zzyzz is not a character in an expressionist play or an obscure Victorian novel by an imitator of Dickens Mr Zzyzz is simply the man who is last in the New York phone book After Zzyzz there is only finis Being a newcomer to the directory this year, Mr Zzyzz has drawn some attention to himself, for he has all at once supplanted Mr. Zzyn and Mrs Zzyz. He went the latter one better—one z better—and the former was nowhere in lastness beside him Just what awards and decorations attach to being last in a phone book has never been made clear But there must be some advantage. One man changed his name from Zzyk to Zzyx in an effort to clinch the place. How vain, indeed are human wishes. For along came Mr. Zzyzz to ruin Mr Zzyk's (or Zzyx's) ambition.—Baltimore Sun

Note and Comment

By R. B. D.

If it is true, as Mr. J. R. Anderson says in a letter to The Colonist—and we are sure it must be true or Mr. Anderson would not say it—that the infant trees and shrubs in the city nursery are languishing for lack of air and space, such a state of affairs is neither a credit to the imagination nor the foresight of the civic authorities. The product of the nursery, of course, cannot be placed on the market and sold at a price, for that would be setting up a public institution in competition with private enterprise, which is not considered good form in these times when everybody is supposed to play the game fairly. But why let the infant trees and shrubs strangle themselves to death when there are so many streets, like Our Street, without a single visible sign of arboreal life upon them except the products of seeds which planted themselves and "just growed," like Topsy, and are quite as full of life and energy as Topsy was, according to her gifted creator?

* * *

True, there was a certain natural attractiveness about the chief of the characters, colored or uncolored, drawn by the late Mrs. Harriet Beecher Stowe. Everything that is permitted to grow up "in a state of nature," or wild, is attractive Topsy, a child of nature, was a vastly more interesting figure than Eva, a child of care and culture. In some respects Our Street in its wild and natural state, with the birds singing and nesting, marrying and giving in marriage (and of course sometimes quarreling and fighting), may be quite as pleasing to the eye to a state of wild nature as it would be if it were as trim and cultured and refined as its neighbors.

* * *

We are perfectly well pleased with Our Street in its wild and dishevelled state; but some of our neighbors are envious of neighboring streets, and have asked us to ask why it is, with trees and shrubs belonging to all the people languishing for want of room and air, the overcrowding is not relieved by transplanting the excess nursery population upon the bare boulevards of neglected streets. We have already spoken and written upon this subject, but the authorities are either deaf or blind, or they have stubbornly or wilfully shut their ears and closed their eyes to all suggestions.

* * *

Still, we must be fair in this matter. We have been told that there are objections to executing works of purely local improvement at general public expense. Yet surely it would not entail vast expense if a number of the trees which are dying where they are were taken to places where they would live and flourish and where in the course of a few years they would enhance immeasurably the general appearance of the city. If the nursery products are going to waste or cumbering the ground, why not take them up and distribute them among residents whose streets are destitute of shrubs and trees and give those residents an opportunity to plant and rear them at their personal expense?

We have not had our annual thunderstorm yet, but we have had one of our semi-annual heat waves with a maximum temperature of seventy-five degrees. We do not envy our neighbors on other parts of "the continent to which we belong," although physically separated from it by a very narrow stretch of water, their many heat waves, but we sometimes envy them one or two of their many thunderstorms, notwithstanding the death and destruction that occasionally attends such natural manifestations. One of the peculiar characteristics of our unrivalled climate is that it hardly ever bursts out in roars of appalling thunder and flashes of fierce and furious lightning

* * *

Thunderstorms occasionally roll down off the mountains and roar around Vancouver, but they hardly ever drift down towards Victoria. If they are arrested by Vancouver and detained there until they have partially exhausted the fury of their wrath, they seldom get beyond the northern end of Vancouver Island. Occasionally a rumble as of distant thunder may be heard in Victoria preceded by a flash or two of lightning; but a real thunderstorm of the kind that makes the flesh creep and the blood run cold is as rare here as a real Eastern Winter

* * *

Probably we are like everybody else who ever has lived in a country subject to thunderstorms, weirdly fascinated when the first distant roll is heard and abjectly terrified when the lightning begins to flash and the elements burst into fury We have sat up all night and watched and listened to a real thunderstorm, fascinated by the spectacle of the elements in a fury We envy our neighbors because they have, whether they enjoy it or not, something we never can possess, the sure prospect of being alternately attracted and distracted by a vision of the "elements in conflict." Is that not characteristic of human nature? There is always something lacking, never a state of complete content.

Sunlight at Scarva

By George Buchanan in The Irish Statesman

Generally we do not care to appear silly or to be laughed at It is obviously deranging, as you sit in the circle, to find all faces turned towards you with the interest of amusement in their eyes, the sound of their voices pealing sardonically about your head And the more you get angry the more you are divided.

But with a change in our attitude, the horror of being ridiculous might become instead a pleasure Let us be silly on purpose; let us invite the laughter To be the cause of merriment, even at the cost of some self-immolation, might be well worth aiming at. Of course I shall be the first to be amused at myself, you my friends, will laugh too; but I shall be pleased and not put out, for we will be in high spirits by accord

Such were my thoughts as I sat in the railway carriage a hot July afternoon last Summer, watching the rays slanting to the ugly red carpet at my feet, slanting through a window that rattled faintly and showed the country sliding past. I was returning from Scarva, where I had seen for the first time the famous sham fight; and I was thinking how stupid it would be if an old custom were dropped because, to the casual eye, it had an air of silliness.

In the Scarvagh Park, a field so big that it was like a hillside, edged with giant oaks, I had seen thousands of people in gruff, genuine good humor, thoroughly happy. They had come, many of them, from great distances to watch this mock battle between King William and King James. And they did not, as I had been led to believe, consider it seriously or in a grave, bigoted way; it was a skit, they had come to laugh. Just such a spirit must have been brought to the miracle-plays in the middle ages, when sacred stories did not lack a good share of buffoonery. It happens that to make a joke about a thing is not always to cease from loving it.

The battle itself was a simple affair Out into the sunlight, from under the shadow of the hedge of trees, two small groups of men marched, the one dressed in green coats, the other in red, both in long white trousers. Curious children kept running alongside, and all the boys and girls, in their best clothes, and their mothers and fathers, tried to get a good sight of them, which was not easy, for the crowd was everywhere, in its own way. Seeing over the heads of the people two tattered flags drawing closer from opposite sides of the field, I could tell that the battle was beginning and there was a great sound of muskets being shot off Elbowing myself through, I was in time to glimpse, leaping forward from each army, which comprised a dozen or less country lads dressed up, two swordsmen who danced sideways, one hand aloft, the other hand stretching out a sword. On opponents meeting, the dancing still went on, and, in perfect time, sword was struck against sword, on alternate sides in succession, noisily To heighten the effect, the other men steadfastly blazed away with the muskets, their aim being the opposing flag. After a minute they ceased, and both parties merged backwards through the crowd, made a detour, and held another encounter like the first in a different part of the field; repeating the manoeuvre several times. And always the crowd bundled and pushed itself after them, a scattered, unwieldy obstacle to the combatants Once when I heard King James, a tall, thin man with a red moustache, shouting "Up the hill! Up the hill!" I discovered, with a shock that he was not exhorting his faithful soldiers, but merely directing the crush of spectators to give space for the fight a monarch acting as policeman.

With a fine gesture of generosity, it was allowed that King James should win the earlier engagements, but tradition demanded a glorious reverse for him at the end. Tradition, to support her, had a spokesman among the crowd, a rich County Down accent in his voice, who let a shout out of him to King James as the last bout began "See and get beat this time!" And amid much cheering and bantering King James was defeated, and he and his men were led away prisoners—arm-in-arm with their captors

Every one of the huge mass of people was on holiday, it being the day after the Twelfth, and this comic pageantry, a burlesque if you wish, done by a few lads for the fun of the thing, set them all to a unity, a common spirit, of enjoyment It was a case where not tragedy but low comedy had caused "the drowning of the dykes" between man and his fellows The immense slope of grass scarcely contained them all they were so many, from farm and village Farmers, their faces circled with grizzly hair, walked about, each with his "ould woman," who, in spite of the warmth had a feather boa tucked round her neck, staring at everyone, or saying to any other farmer what grand hay weather it was. Perhaps the old men would look into each other's eyes softly for a moment, and with a half sigh, as if reluctant, go off in search of a bottle of stout. But, more than the rest, young men and young girls were a host. Lizzie and Mary Maggie and Sarah were here, faces shining, a new pink blouse on, and if they glanced down at their legs they saw the satisfactory gleam of silk stockings Sandy and Bob had turned up all right, and there was Jimmy beside the gate, standing, looking about for somebody. The young men wore dark blue suits and bowler hats shoved as far back on their heads as possible. Now and then they would pull out a red handkerchief to wipe the sweat from their faces. Lord, it was hot! They sat about in the grass, and there was plenty of rough country courting, a vigorous, sometimes not specially modest, game carried on quite naturally in the open. Then you would observe, whenever one girl left the girl she had companioned from the farm, to be friendly with a boy, the solitary girl loitering around, mouth sulky, eyes staring and blinking, until she in turn met some fellow she knew. She would cling to his arm then and laugh. And all the while the sun glowed splendidly on the enormous field closed round with solemn branches. A pastoral, yes; and pastoral-love making enough to set that old singer of Sicily voicing for days on end their simple stories, now beautiful, now downcast, bawdy at times, graceful at others, but all coming out of abundance of life.

I sat down on a form, outside one of the refreshment stalls, run, be it said, in aid of various church funds, and my fare was a bottle of lemonade and a huge ham sandwich in a paper bag. Nearby was the broad avenue, hung over by century-old trees, and now thronged by people coming and going. I watched a drumming competition in progress; the whole district seemed to rumble with this and many more; but I could not master its intricacies. What I noticed were two or three men, in their shirt sleeves, drums hitched up against their stomachs, battering away with canes instead of drum sticks, stepping round in a small circle or standing motionless, and on their faces an expression of utter and absolute serenity. They fixed their eyes on the distance; they did not speak, they were devotees.

In a lull in the drumming a flute band strode past along the avenue, the boys' heads twisted sideways to their instruments. The high-pitched flutes and the deep-toned ones mingled into a quaint continuous moan—a sweet haunting thing, which suddenly seemed, more than anything I have ever heard, to fit in with the meadows and woodlands, and yet to be as aloof, disinterested, as a wind is when it ruffles a pond. It told you nothing; it was as if it gave no heed to the country folk in their Sunday best, although hardy young country boys blew from their big lips the breath that set it free. It seemed to float back from them in time as if they lived long afterwards, to a beginning when legendary woodgods and dryads, even in County Down, might have been visible between the tree stems up to their knees in ferns

The drumming burst out again like thunder, so that the fluters glared angrily at the nearest drummers I found myself, draining from a tilted bottle the last of the lemonade, still in the middle of this holiday, under the auspices of the Royal Black Preceptories, with the unabashed courting and the chatter. I heard two old men drivelling beside me Their beards and whiskers reminded me of pictures of the emperor on Austrian postage stamps, which I used to collect.

One said "I like to see the girls along o' the boys" This drew the wise response: "It's heartsome" And the first, apparently encouraged, proceeded "It makes me remember the time I took someone by the hand myself" I got up and left, leaving them murmuring "Indeed, aye," to one another's remarks, and went to the railway station, but I thought, as I walked in the cool of the avenue, that I should like, above many things, to stay and hear again the sound of those flutes in the darkness growing fainter on the hilly roads, as the boys went home, late at night.

FIFTY YEARS AGO TODAY

(From The Daily British Colonist of July 13, 1879)

A start has been made in the development of iron ore on Texada Island. Bright coal fires blazing in Victoria on July 12 are testimony to the unusual season. The cold, soaking rain of yesterday has greatly damaged the hay crop, much of which was cut.

British Columbia exported $445,115 worth of goods in the quarter ending June 30, 1879, as compared with goods valued at $488,866 in the corresponding quarter of 1878.

Jots From History

GERONIMO, an Apache chief, who, during the years of 1884 and 1886, as the leader of a band of savages, made the pioneers of Arizona and New Mexico miserable with his raids and depredations, was born about 1834. General Cook forced him to surrender in 1886, but on the march to Fort Bowie, where imprisonment awaited him and his tribe, the Indians escaped and renewed their hostilities. General Miles finally captured Geronimo a second time, and he was held as a military prisoner until his death in 1909.

The Rhyming Optimist

By Aline Michaelis

SOMETHING NEW

Something new is our desire,
Always easily, we tire
Of the things well known.
Eagerly we turn aside
From the paths already tried,
For some trackless zone

And without this restless urge,
Sending us to Earth's far verge,
Little had been gained,
Still by narrow barriers bound,
Still in ignorance profound,
Man would have remained

Something new we seek always,
Something better for the days
That our sons will share,
By this lofty longing led,
Man have conquered unafraid,
Land and sea and air!

Wife (during quarrel) You're becoming absolutely unbearable It will soon be impossible to live with you

Husband (hopefully)—How soon?

It's the "Get-Up" That Counts

As truly as merchandise is worthless to the dealer until it has passed into the hands of the customer in exchange for money——

Just so, printed matter is a failure as advertising matter if it does not reach the eyes of the prospective customer.

Much printed matter goes out through the mails only to be cast aside with impatience by the recipient, solely because it doesn't carry conviction in its general appearance.

Its "get-up" is all wrong and, like the salesman who has a good product but a poor approach, it is condemned before it has a chance to deliver its story.

Our compositors are men who know how to make type and paper talk in pleasing ways. There are increased sales ahead for the house that will employ these men to build printed messages to a buying public.

A friend of mine (writes a correspondent) who left a London-bound train in the Midlands, and forgot to retrieve his coat from the luggage rack, wired to his father to go to the London terminus to claim it. When the parent, accompanied by his son's dog, went to the parcels office he quickly identified the coat but was unable to provide any proof that he had any legitimate claim to it. He was about to depart when the dog, which had been inquisitively exploring the place, suddenly encountered the coat hanging from a peg, recognized it at one sniff and set up a joyous barking The attendant asked for no further proof and the coat was instantly surrendered.

Peace River Country Is Pictured by Enthusiast

Miss Dorothy Laing Returns for Holidays After One Year's Teaching Experience at Remote Northern British Columbia School

Seven miles in any direction to the nearest neighbor, thirty miles to the nearest police, over 120 miles to a hospital, snowbound and icebound by Winter, and without telegraph or telephone communication with the outside world at any time of the year, yet possessing a strange magnetic attraction which holds its people to its heart year after year—this is the picture of the Peace River frontier lands brought by Miss Dorothy Laing, daughter of Mr. and Mrs. F. W. Laing, of 1122 Ormond Street, who has just returned to the city after a year's teaching experience at Half Way, one of the two furthest north schools in British Columbia.

One feels behind Miss Laing's enthusiasm something of the pioneering spirit, the pioneer's hardiness and the pioneer's optimism, which filters through from the dwellers in the Peace River country, a spirit and optimism which has even forced itself on the attention of the Provincial and Dominion Governments. There is no element of grumbling discontent in her version of the great undeveloped land. It is a picture, rather, of ruggedness drawn to ruggedness, the frontiersman and his native element coming together by the force of mutual attraction, with the man instinctively setting his hand to the mastery of his environment.

Half Way was Miss Laing's third school. So when she speaks with enthusiasm of her last experience it is not without some other standards of comparison. Furthermore, she has every intention of returning there in September, despite the fact that in midwinter it takes two weeks for a letter to reach her from Victoria—as long a time as it takes for a letter to come all the way from England at the same time of year.

It was an entirely fresh adventure when she set forth for the Peace River country the last week in August last year. She may have had a mental picture of the country, but the actual details did not tally very closely. Traveling via C.P.R. to Calgary, thence to Edmonton, she transferred at the latter place to the Edmonton-Dunvegan line for Grand Prairie (at that time the end of steel, although the road has since been extended another day's journey toward Dunvegan), she found her interest in the country growing as she proceeded northward. Three other Victoria teachers, all going to schools in the Peace River block, traveled with her as chance companions. At Grand Prairie they were met by a motor car from St. John, two hundred miles away, which had come down specially to drive them out as far as their routes lay together.

SIGHTING THE PEACE

The first evening they reached Pouce Coupe, traveling over roads in fair condition. The next morning, starting early, they passed through Rolla late in the forenoon and stopped at Cut Back for luncheon. The first sight of the Peace River was at Taylor Flats, where they took the ferry across to Fort St. John, reached late in the evening.

Here her progress on wheels ceased, and she had to take the mail boat the remainder of the way to Half Way, where she was to teach. This river highway is the only connection during the Summer between the two places, although in Winter it is possible to make the journey either by a road which has been charted over stumps and other large obstacles which are so completely covered up by snow that a sleigh can easily pass over them.

Half Way, as the place is named, is at the junction of the Half Way River (a tributary of the Peace) and the Peace River. Both are enormously wide, with banks heavily timbered with poplar, jack pine and other firs. Benchlands, the lower one not much above high water in the river, the more distant lying far back in well-nigh inaccessible country (although an odd settler is to be found here and there), are characteristic of the whole country. Miss Laing's school was that known as "assisted," which means that the settler furnishes the building and equipment, the Government supplying the teacher. Her pupils, she found, belonged entirely to the family of the one settler (with whom she lived) and families of other settlers employed by him. In other words, it was tantamount to a private school, with the exception that the teacher was under Government rather than private control. The school was perfectly new, and notable as one of the best buildings put up for the purpose in the whole of the Peace River country. It has since been considerably improved by the teacher's own labors, as she devoted many of her spare evenings to the painting of the interior.

LIFE OF NOVELTY

The teaching part of her experiences are negligible, varying little from the routine of any other country school. But the life outside the school had vast novelty. The settler rancher, Mr. Tompkins, owns one of the biggest ranches for many miles, with between 140 and 150 acres under crop, and great untilled lands besides. Being on the banks of the Half Way River he has, unlike some of the other settlers, little difficulty in moving his produce, all freight going out by boat. Both horses and machinery are used in the cultivation of the land. The soil is rich and the rainfall abundant without being too heavy. For some unexplained reason the farmers of the district last year forsaw a dry season, and seeded so heavily that they have had an unusually heavy crop this year. Everyone seems to live in the saddle. Except in Midwinter, when there is much snow, it is the only means of getting about the country. Miss Laing told of swimming the river on several occasions with her horse.

She also pictured the conditions possible during illness. At Eastertime she took one of the children down to hospital to have a piece of glass removed from his eye. It took three days to make the trip, she herself driving the team. The frozen river provided them with a level highway for most of the distance, although their sleigh was almost the last to travel over the ice before the Spring freshets came and made it dangerous. The operation was successful, and she brought the little invalid home with her, the 240-mile journey taking from Sunday to Friday to accomplish.

D. A. Thomas on Peace River—One of the Two Passenger Vessels Operated by the Hudson's Bay Company.

The settler in the ordinary way is a very healthy and hardy person. But there are emergencies when hospital attention and a doctor are urgently needed. But in this country Mahomet always has to go to the mountain, the doctors and the hospitals do not come to the patient. Last Autumn a raft had to be built to take a confinement case down the river, the doctor meeting the hastily-built craft at the first point where road connection was possible. This incident ended happily, but a tragic climax is recorded in connection with a man who chopped his foot with an axe. Here again a raft was hastily constructed, but the victim died before he reached surgical help.

WILD PARADISE

The country sounds like a veritable paradise in the wild. To hunters it should have great attraction, as moose, deer, and other big game are plentiful. The rivers abound with salmon trout, ling, and bull trout. There is so much wild fruit (blueberries, strawberries, raspberries, etc.) that the settler never thinks of planting these.

Almost regretfully Miss Laing left all this behind to come back to the Coast for the Summer holidays. She has been traveling since June 28 in order to get home, taking thirteen days to make the journey, although part of the time was wasted in waiting for connections. She was fortunate in arriving at Fort Fork in time for the Dominion Day unveiling by Judge Howay of the monument commemorating Mackenzie's sojourn there in the Winter of 1793 before he set out on his amazing journey to the Pacific. A picture of this monument is given herewith.

She came out by freight scow, sailing down the Peace River to Peace River Crossing. With a few hours' side-stepping for a fishing expedition this stage of the journey took from Friday afternoon to Sunday. It should be mentioned, perhaps, that their "basket" totaled twenty-three pike, which they cooked on the scow for supper. For freight on this trip the scow carried a cargo of last year's wheat.

She stayed at Peace River until Tuesday, waiting for a train, and during this time witnessed the Dominion Day sports. The second picture shows the Dominion Day crowd of passengers on the D. A. Thomas, "one of the two steamers which ply on the Peace River during the Summer months. Settlers travel hundreds of miles to be present at the sports and attendant fun. The boat waited until one o'clock in the morning to pick up passengers who were attending the big dance at Peace River Crossing.

Reaching Edmonton on Wednesday night Miss Laing completed the journey out to Prince Rupert, by rail. The Hudson's Bay Company operates the only boats on the river, the other (smaller) vessel being the "Weenusk."

Everyone with any trace of the pioneering spirit is gripped by the Peace River country, says Miss Laing. Among those whom she met who felt its strange lure was the engineering party, headed by Mr. J. Bocock, who spent some time in the district engaged in a joint survey of the mineral resources of the P.G.E., the C.N.R., and the C.P.R.

Unveiled at Fort Fork

JUDGE Howay officiated at the ceremony on Dominion Day when a monument was unveiled to commemorate Mackenzie's sojourn at Fort Fork in the Winter of 1793. The inscription on the tablet says: "Sir Alexander Mackenzie—From his Winter quarters at Fort Fork, opposite this spot, Alexander Mackenzie set out May 9, 1793, on his quest for the Western sea. A master of men, he led on his crew, often discouraged and rebellious, through toil and danger, by stream and land, until he wrote his name on the rocks fronting that sea. This first crossing of British North America stimulated the commercial development which saved a coast on the Pacific for Canada and the Empire."

TENDER AWARDED FOR ROAD SECTION

Portion of Dewdney Trunk Road to Be Reconstructed by Ellis Cotton Company

The tenders for the Albion-Whonnock section of the Dewdney Trunk Road were opened yesterday afternoon by Hon. W. A. McKenzie, Acting Minister of Public Works. The award went to Ellis Cotton Company, of Vancouver, the lowest tenderer, who secured the work on a bid of $89,954. The contract is for the construction of a relocated section of the highway covering a distance of three and three-quarter miles.

The tenders submitted were as follows: Ellis Cotton Company, Ltd., $89,954; General Construction Company, $92,706; S. S. McGoffin & Company, $102,577.40; Vancouver Pile Driving & Construction Company, $107,271.22; Pacific Engineers Ltd., $113,903; Fraser Construction Company, $118,647.50.

While there are a large number of contracts being let by the department now the interest is keen in these and the competition seems to be animated among the various firms operating in the province. In all cases the contracts are awarded to the lowest tenderer. The contractors are unanimous in their expressions of appreciation of the manner in which the awarding of these tenders have taken place.

Body Found on Beach

SEATTLE, July 11.—Found on the beach near Alki Point early yesterday, the body of a drowned man was today identified as that of W. A. Graham, pioneer restaurant operator of Enumclaw, formerly of Port Angeles.

At the latter town is said to live the former wife and a daughter of Graham.

His friends believe he came to Seattle for a week-end party and was robbed, later killed and left on the beach.

Graham was said to have carried large sums of money with him continually.

FISHERY LAWS CONSIDERED BY JOINT BOARDS

Subject Before Associated Boards of Trade of Vancouver Island, Now in Conference Here

SIGN CONTROL MOTION PASSES

That the level of the Cowichan River should be controlled better from the lake outlet in the interests of the fisheries down stream was one of the suggestions approved by resolution at the meeting of the Associated Boards of Trade of Vancouver Island, which met yesterday at the chamber here.

It was resolved to support the Cowichan members in their efforts to obtain enforcement of the Weir Regulations which became law in the year 1913.

Duncan Chamber of Commerce submitted a number of resolutions with regard to fishing, both commercial and sporting, most of which had to do with the Cowichan River and Cowichan Bay. These included the redefinition of the sea area at Crofton, suggesting that this should be entirely closed to all commercial fishing, with the exception of trolling.

It was recommended that the closed season for steelheads, in all rivers flowing to the East Coast of Vancouver Island, should be free March 1 to December 15.

REFUSE DUMPING

A resolution, having to do with the dumping of refuse, taken from mud-flats at Cowichan Bay, inside the line of Separation Point, was referred to the Department of Fisheries. The Convention carried the two resolutions which stipulated, that the closed season for river and lake trout in the Cowichan district be from October 15 to March 25, and that brown trout be introduced, as an experiment, into the Cowichan River.

The resolution that rearing, or nursery, ponds be provided at Cowichan Lake, or elsewhere in the locality, on the understanding that no fry be released for the first twenty-four months, was also carried.

It was further resolved that the present number of two fishery officers was inadequate, and also that Crofton should be added to the Cowichan area, and two extra officials employed.

The resolution that recent fishery regulations be amended to permit of the taking of ten grilse per diem, or five salmon, of any species, per person, or twenty fish per boat, and, also, that immature salmon, either spring or coho, weighing up to three pounds, in the round, or two and one-half pounds, dressed, should constitute a "grilse," was carried unanimously, as was the resolution applying to the destruction of Merganser ducks.

MOTOR REGULATIONS

A resolution, submitted by the Malahat Board, which had to do with the appropriate controlling and licensing regulations to deal with common carriers, operating with the use of motor vehicles, was carried unanimously.

ROAD ADVERTISING SIGNS

The resolution, dealing with the excrescences, in the form of billboards and hoardings, which litter the highways, not only of Saanich, but of the entire Island, was soon disposed of. Mr. Lionel Taylor spoke to the resolution, which asked that the regulation of this nuisance should come within the scope of the various municipalities, and the resolution was carried without discussion.

CAMPBELL'S STAFF ENJOY SPORTS DAY

Annual Picnic, Held at Tod Inlet, Productive of Much Merriment—Presentations Made

Messrs. Angus Campbell's Limited held their annual picnic on Wednesday afternoon at Tod Inlet. The journey from town was made by G & C. tallyhos, luncheon being at the Anchorage, and this being followed by swimming, boating, races, and games, and a visit to Butchart's Gardens. Supper was arranged by Mr and Mrs. Peard, who also had charge of the luncheon arrangements.

A presentation to Miss D. Neary, who is leaving the firm to go to Los Angeles, was a pleasant feature in the day's programme, and the staff also presented a bouquet to Mrs Campbell as a mark of appreciation. After the sports there was dancing.

The sports results were as follows:

Girls' race, 50 yards—1, Miss I. Kirby; 2, Miss L. Kirby.

Girls' walking race, 50 yards—1, Miss Ball; 2, Miss Burnett.

Visitors' race, 50 yards—1, Helen Campbell; 2, P. Pitfield.

Boys' race, 75 yards—1, Len Dixon; 2, Bob Dale; 3, Hugh Kelly.

Girls' balloon race—1, Helen Campbell; 2, Margaret Shapin.

Thread and needle race—1, Miss D. Morrison; 2, Miss I. Kirby.

Horse racing game—Miss D. Neary.

Revolt in Arabia

JERUSALEM, July 11.—Reports have been received here that Ibn Saud, King of the Hedjaz, faces a serious revolt in the Nejd and possibly in the Hadjas. Three of the most powerful Arab tribes, the Ajmann, Ateiba and Mutair have combined against him. The rebels have already taken Taraba, an important strategical point. British quarters here admitted the gravity of the situation, but were confident Ibn Saud would put it down.

Many players, with no definite bidding standards would open this deal with an original one Heart bid if holding South's hand as Dealer. Such a bid would be unsound as South does not hold two Quick Tricks, the minimum which is absolutely guaranteed by an original bid. Furthermore, in view of his freak distribution, South must realize that there is practically no chance of the deal being passed out and that he will have an opportunity to show his Heart length on a later round of bidding.

The trouble with too many players is that they have no specific minimum requirements for their bids, or if they do have such minimums, fail to adhere to them. Give such players an extra card or two in their long suit and they will open the bidding regardless of a shortage in Quick Trick strength and without stopping to realize that such bid may accomplish little more than the deception of partner.

SALIENT POINTS OF THE BIDDING

Auction: South and West passing, North bids one No Trump, holding slightly better than a minimum Third Hand bid. East has no sound overcall or double of a No Trump on right and passes. South now takes out to two Hearts, which concludes the bidding as North, holding three Hearts to the Ace, has no reason to rebid No Trumps.

Contract: As in Auction, North makes an original Third Hand bid of one No Trump. South, holding seven Hearts to the Queen-Jack-Ten (which should produce five tricks if trumps) and the Ace of Spades, bids four Hearts. His bid of a game contract, rather than one trick under game or one trick over game is an indication that four Hearts is "finished business" so far as South is concerned and that unless holding solid values, North should not attempt nor invite a Slam contract.

THE PLAY

West leads initially the King of Diamonds. South plays the Ace from Dummy, discarding the Three of Clubs from own hand, and leads the four of Diamonds from Dummy, trumping in own hand with the five of Hearts and not the three. The point of trumping with the five is that this may serve to keep the two hands liquid by providing possibly, another entry in Dummy's four of Hearts.

South now leads the Queen of Hearts and finesses, East winning with the King.

East now considers his next lead. He cannot underlead his King of Spades with the Queen showing in Dummy, a Heart lead seems pointless, and he certainly does not wish to lead Clubs up to Dummy's King. He, therefore, selects the Jack of Diamonds as the lesser of several evils.

South trumps the Diamond lead with the Six of Hearts, then leads the Heart seven, taking the trick with Dummy's Ace. He next leads the five of Spades, finessing the Jack in his own hand, which wins. He then lays down the Ace of Spades, followed by a small Spade which throws East in the lead with the King. At this point, East, stripped both of Hearts and Diamonds, is forced to lead either a Club, which would give Declarer a trick with the King of Clubs in Dummy, or to lead another Spade, which would allow Declarer to trump with the remaining trump in Dummy and discard a losing Club in his own hand.

Thus South makes four odd in Hearts, losing but the Ace of Clubs, the King of Spades and the King of Hearts.

Edmonds Excursion—Tickets for the excursion to Edmonds on the City of Victoria, which will leave from Victoria Sunday, are selling rapidly. Anyone wishing to make the trip is advised to make his reservation as soon as possible by obtaining tickets from Mr. Joe North, Little & Taylor, the ticket office behind the Postoffice.

Water Pressure—Water pressure in the Gordon Head district has been considerably improved since the new twelve-inch main was connected with the distribution system last Tuesday. Some growers reported a weakness of pressure at the hours of maximum draught, but this was attributed by Saanich officials to the lack of pressure from the city.

Park Convention—Alderman John Harvey, Alderman E S Woodward, Alderman William Marchant, Mr. T. R Purdey, park superintendent, and Mr. John Baxter, secretary-treasurer of the International Association of Park Commissioners, will represent the city at the convention of the association to be held in the Olympic Hotel, Seattle, on July 23-26.

Land Registry Changes—Mr Elliott S. Stokes, formerly land registrar for Kamloops, has been transferred to New Westminster, where he will take the position of registrar in succession to the late J. W Dixie. The position of land registrar at Kamloops will be filled by the appointment of Mr. Robert A. Braden, who goes from New Westminster to fill the vacancy caused by the moving of Mr Stokes.

Applying for Water—The Northern B.C. Power Company, of Prince Rupert, is applying for a licence to take and use 600 cubic feet per second, and to store 30,000 acre feet of water out of Falls River, which flows into the Ecstall River about sixteen miles above Port Essington. The plans call for the erection of a storage dam. The purpose of the proposition is to generate power for use in and about Prince Rupert.

Big Estate—The late Mrs James Hunter, of Victoria, who died here on April 26, 1929, left an estate of a gross value of $169,461.86, the order for the probate of the will being granted by Mr Justice D. A. McDonald in Supreme Court Chambers at the Court House here yesterday. With the exception of approximately $5,000 in cash, the estate consists mainly of shares, bank stocks and other stocks within and without British Columbia, amounting to $144,622.

Supplementary Power—The West Canadian Hydro Electric Corporation Ltd., of Vernon, is applying for a licence for the storage of 15,000 acre-feet of water out of the Shuswap River. The capacity of the reservoir to be created is 15,000 acre-feet, and is expected to have a depth of four feet and will flood ten acres of land. The water will be diverted from Shuswap River at the Shuswap Falls hydro-electric power plant and will be used for electric power purpose in the North Okanagan and Salmon Arm districts.

Provincial Appointments—A number of appointments which have been held in abeyance during the absence of His Honor the Lieutenant-Governor from the capital have now been formally assented to, and made active. These include the following: Messrs. D. A. Clarke and E. H. McEwan as members of the board of managers of the Royal Columbia Hospital; Dr. Osborne Morris, as medical health officer for the district surrounding Vernon and medical inspector of certain schools vice D. H. G. Williams, Mr Emette F Benison, of Peachland, as commissioner of police for the district of Peachland, Mr. George R. Bates, of Sandwick, as stipendiary magistrate; Mr. A. W Jeeves appointed stipendiary magistrate for Yale and Caribou, Mr. Edward B Hart, appointed to the small debts court for Caribou.

NOT QUITE

A woman had been inoculated preparatory to going abroad. Next day, to get over it, she remained in bed. It happened that an intimate friend arrived, and a small daughter was sent downstairs to explain.

"Mummy's in bed," she said.

"In bed?"

"Yes. She was intoxicated yesterday, and has a bad headache."

There Is No Substitute for *Tone Quality*

THERE are some things you buy on maker's reputation alone . . . and a Heintzman Piano is one of them. For seventy-five years Heintzman & Co. has made only one grade of piano—the best in Canada. You can choose any Heintzman instrument and it has a tone quality of supreme beauty.

The only way to safeguard your pianoforte investment is to beware the instrument by an unknown maker. Investigate before you invest. Do this and you will have no future regrets.

Use the Heintzman as a standard of tone quality, style and value in the choosing of your piano. See the Heintzman instruments here today.

LOCAL DELEGATES LEAVE FOR WINNIPEG

Mr R. H. McLeod, first vice-president of the Victoria Assembly, Native Sons of Canada, in company with Mr. A. C. Pike, national treasurer, and Mr Robert D. MacLachlan, national secretary, left for Vancouver last evening en route to Winnipeg, where delegates from the 128 assemblies of the society will meet in annual convention at the Fort Garry Hotel.

It is interesting to note that the first item on the large agenda calls for an expression of loyalty to His Majesty the King. Among other items is a notice of motion requesting the Canadian Government to pass a quota law whereby at least 20 per cent of all picture films shown in Canada would be of British Empire production, while another will request the Dominion authorities to consider the establishment of a radio broadcast station in each province and to provide programmes of a quality that would prevent Canadians "tuning in" on American broadcasts, which are heavily laden with advertisements of American products.

Little Princess Shakes Hands With Soldiers

LONDON, July 11 (By Canadian Press)—The first formal presentation to little Princess Elizabeth took place unexpectedly the other day. The Duchess of York was making the rounds at a private view of embroidery made for sale by the disabled soldiers' embroidery industry. She was here given a tiny armchair with a grey wool embroidered seat, which had been worked by the men as a present for Princess Elizabeth.

Her Royal Highness was so charmed with this gift that she decided to allow the little Princess to receive it in person from the disabled soldiers, sixty of whom were enjoying a visit to Lady Melchett's garden.

Her delight was obvious, and childlike, the first thing she did was to sit down in the little armchair—just to see what it felt like. And it evidently felt all that could be desired, for she looked the picture of contentment, and left it somewhat reluctantly to accompany the duchess round the garden.

But it was all a delightfully new experience for the tiny princess and she shook hands with the men as if it was the thing above all others that she liked doing best. She gave the prettiest little bow of her head with each handshake and was most particular to see that no one was left out.

Weddings

HARDY—JACKSON

NANAIMO, July 11.—The wedding took place at St. Paul's Anglican Church, Vancouver, yesterday, at 2 o'clock, when Rev. Harold King united in marriage May, eldest daughter of Mrs. and the late James Jackson, of Nanaimo, to Albert Edward, eldest son of Mr. and Mrs. John A. Hardy, of Chilliwack.

The bride entered the church on the arm of her brother, Mr. William Jackson, and looked very charming in a gown of powder blue georgette with original collar trimmed with d'Alencon lace and a pearl buckle from her mother's wedding dress. Her hat was of Ballybunti straw faced with blue georgette, and trimmed with lace to match the gown. A shower bouquet of Ophelia roses completed her attire. Miss Annie Jackson, sister of the bride, was her only attendant, and wore a gown of rose taffeta with mohair hat to match. She carried a bouquet of pink carnations. Mr. L. A. Hardy, of Ocean Falls, supported the groom. During the signing of the register, Mrs. Grayshon sang "Beloved, It Is Morn."

Following the ceremony a reception was held at the home of Mr. and Mrs. A. J. Kayll, 1997 Beach Avenue. The bride's mother, wearing a gown of black georgette over flat crepe with black and white hat, and the groom's mother, wearing a blue gown with hat to match, assisted the bride and groom in receiving. Mrs. William Grundy, aunt of the bride, presided at the prettily appointed tea table, which was centred with a three-tier wedding cake. Mrs. George Hardy, aunt of the groom, cut the ices. Those acting as servitors were Mrs. E. Le Coque, Mrs. Howarth and Mrs. S. A. Kayll.

The happy couple left on their honeymoon for the West Coast trip to Port Alice. The bride traveled in a dress of navy canton, a fawn and navy satin felt hat, and a fawn coat. Upon their return Mr. and Mrs. Hardy will make their home in Vancouver.

MURTON—CASTLEY

DUNCAN, July 11. — St. John's Church here was the scene of an exceptionally pretty wedding yesterday afternoon when Amy Margaret Castley, eldest daughter of Mr. and Mrs. Thomas S. Castley, was united in bonds of holy matrimony to Mr. William Edward Murton, only son of Mr. and Mrs. William Murton, Duncan. Rev. A. Sischlager officiated. The church was a profusion of Summer flowers, and made a lovely setting for the bridal party, who stood beneath an arch of sweet peas and roses and spirea. The bride was lovely in a gown of white crepe backed satin fashioned with tight bodice and a full skirt hanging with uneven hemline and wedding veil of white silk net with coronet of orange blossoms encircling the head and carrying a shower bouquet of Ophelia roses and carnations. She was given in marriage by her father, Mr. T. S. Castley, and was attended by her sister, Miss Doris Castley, who made a sweet picture in a frock of pink georgette with a picture hat in the same delicate tones, and carrying a bouquet of pink sweet peas and white carnations. Mr. Frank Dovey, of Victoria, a brother-in-law of the groom, was best man. Mr. W. A. Willett presided at the organ and Miss May Tombs sang "Until" during the signing of the register. Following the ceremony a reception was held at the home of the bride's parents, Mr. and Mrs. Castley. Here again there was a lovely profusion of Summer flowers, and the young couple received the good wishes of all, standing beneath a wedding bell fashioned of Summer flowers. For traveling, the bride wore a most becoming ensemble of delphinium blue silk moracain crepe, with hat to match, and a white fox fur, the gift of the groom. Following a short honeymoon trip motoring through the State of Washington, Mr. and Mrs. Murton will take up their residence at Shawnigan Lake. The happy couple were the recipients of many lovely gifts, including a silver tea service from the staff of the B.C. Telephone Company, where the bride was on the operating staff. The bride's gift to the groom was a diamond tie pin, and the groom's gift to the bridesmaid was a leather handbag, and to the best man cuff links. Co-workers on the staff of the Telephone Company and friends of the bride carried out the effective decorations in the church and assisted with the decorations at the home.

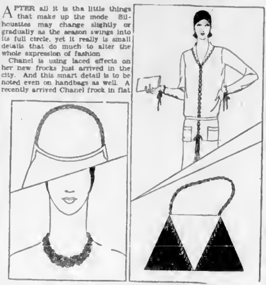
Laced and Braided

AFTER all it is the little things that make up the mode. Silhouettes may change slightly or gradually as the season swings into its full circle, yet it really is small details that do much to alter the whole expression of fashion.

Chanel is using laced effects on her new frocks just arrived in the city. And this smart detail is to be noted even on handbags as well. A recently arrived Chanel frock in flat crepe has lacings of the material outlining the collar running down the front and trimming the sleeves.



A bag that promises to win success is the Chanel model of pin seal leather in combinations of three colors such as beige, blue and red, or in two shades as brown and beige. Lacings of leather accentuate its unique shape, ultra modern in its triangles.

Another of the little features that are refreshing in the mode is the use of braided effects, another Chanel fancy for the handle of a pouch bag. This idea is shown also in belts, and makes up one of those ensembles within an ensemble.

Louiseboulanger favors multiple strands of beads, very small in size and braided for chokers and longer necklaces. Sometimes these bright pieces are in tricolor. They are a smart new item in jewelry to wear with afternoon party frocks or long sleeved chiffons for the dinner hour.

NOT HIS FAULT

Two motorists were charged with driving a car minus one sidelight. They were fined a pound.

Outside the court a heated altercation took place between them.

"You must pay me half the fine, Ike," said one; "we own this car between us."

"No fear, Mo'," retored Ike; "you were driving at the time and the light at my side of the car wasn't out."

SERVICE IS HELD AT EMERALD LAKE

Thanksgiving for King's Recovery Observed at Mountain Resort—Victoria Artistes Play

The nation-wide day of thanksgiving for the recovery of His Majesty the King, was observed at Emerald Lake Chalet on Sunday, an impressive service being held in the evening in which all the guests and staff joined. The chosen hymns for the Westminster Abbey service were sung by the guests at the Chalet. Hon. J. A. Robb, of Ottawa, who is a visitor at Emerald Lake, gave a most delightful little address. After the singing of the hymns Miss Irene Bick and Miss Eileen Dumbleton, who are fulfilling a musical engagement at the Chalet during the Summer, played a very attractive programme, which delighted the large audience. These Victoria musicians are attracting a good deal of interest and attention, and receive great praise from all who hear them.

Marriage Takes Place In Seattle

The marriage took place at St. Paul's Church, Seattle, on Wednesday afternoon at 2 o'clock, Rev. Rowland Edwards officiating, when Miss Gladys Margaret Fleming, daughter of Mr. and Mrs. Inglis Fleming, of Seattle, became the bride of Lieut.-Commander Neville Pisani, D.S.C., R.N. (retired), of Royal Oak, Victoria. The bride was given in marriage by her father, Mr. Inglis Fleming, and wore a beautiful gown of oyster chiffon, fashioned in medieval style with a tight-fitting bodice and long sleeves, and trimmed with pearls. Her beautiful wedding veil was held in place with a wreath of orange blossoms and pearls, and she carried a bouquet of white sweet peas, roses and orchids.

She was attended by Miss Phyllis Pisani, who wore a charming frock of delphinium blue georgette and a large crinoline hat of the same shade trimmed with silver. Her bouquet was of pale pink roses, sweet peas and delphinium.

The best man was Mr. W. M. Sparke, of Victoria.

The church had been beautifully decorated by friends of the bride.

Following the ceremony a reception was held at 1115 Seventh Avenue West, where the bride's mother, wearing a gown of black lace over oyster satin and a black hat assisted the bride and groom in receiving. The groom's mother wore a smart gown of silver grey georgette, and a black hat relieved with touches of grey.

The bride and groom left for a motor tour of California, the bride traveling in an ensemble of jade green and white crepe de Chine and a green hat.

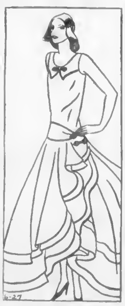
Westman, of Victoria; Mr. and Mrs. Kellogg, of Mann, of Gabbro Mine, Jordan Seattle; Mr. and Mrs. Marcusen, San Francisco; Mr. and Mrs. McRiver, Mr. and Mrs. F. Westmoreland Wood and family, of Lloydminster, Sask.

Mrs. Westmoreland Wood before her marriage was Miss Hyacinth May, daughter of Captain H. J. May, who was captain of H.M.S. Hyacinth, the last man-of-war which carried sail and was stationed at the Esquimalt Naval Base from 1892 to 1896. Mrs. Wood is indebted to her father's ship for her Christian name. Old-timers will be interested to hear that Captain Stileman, now Sir Harry Stileman, who was commander on the Hyacinth at Esquimalt, is now at the head of Dr. Barnardo's Home for Boys in London.

Fashion Fancies

By Maria Belmont



6-27

There is no more delightful material for the dress of a young and slender girl than organdie. It is soft, alluring and delicate. It has been extremely popular for daytime dresses, and this season has made its debut as medium for evening dresses. It is not very practical, however, as unless it is immaculately fresh, it is not at all attractive.

The dress shown here today would be delightful for wear at an informal evening party. It is of off-white organdie, with a long bodice and a four-ply skirt which crosses in front and fastens at the hip with a tailored bow. The yoke band at the hips assures a smooth and snug fit. The bows are of brown organdie to harmonize with the brown hat of starched net.

Zest . . . sparkle . . . keen refreshment

LIKE sea air, a little fresher, a little cooler than the inland, refreshing as a dip in the deep . . . mellow as the pleasant sunshine on the sand . . . just so is the newer, finer, more vigorous sensation of drinking "Canada Dry"

With the zest of speed-boating through blue water . . . as sparkling as the sunshine on white-caps . . . that's the quality of "Canada Dry."

Pure Jamaica ginger subtly flavors it. High-quality ingredients, blended and balanced in exact proportions, have won for "Canada Dry" the approving nod of connoisseurs. Its remarkable zest and sparkle are the result of delicate and uniform carbonation. Countless homes and great hotels serve it. Capture the thrill of drinking this better, purer ginger ale. COLUMBIA THEATRE "Burning the Wind," Hoot Gibson's most enthralling Universal picture with the romance of old California as a background is now showing at the Columbia Theatre. The star plays the modern son of an old California family and he fills the picture with the type of fast riding and fighting for which he is noted. The role is one of the best he has enacted and in it he exceeds even his past successes to provide new and dangerous thrills. "Burning the Wind" has a strong romance. Virginia Brown Faire appears opposite Hoot as Maria Valdes, the "daughter of the Dons."

PLAYHOUSE THEATRE Will Walling, who is playing one of the principal roles in "The Harvester," which is now playing at the Playhouse Theatre, is a well known figure throughout the legitimate theatres in the West. In this film he appears as a somewhat deep-dyed villain, but in his younger days he was a real matinee idol of Western America, and for seven years was leading man of the Belasco & Myers stock companies on the West Coast.

DOMINION THEATRE With the men and women of the Fourth Estate holding the spotlight in both literature and drama the announcement that Phyllis Haver's new Pathe dialogue and sound starring vehicle, "The Office Scandal," now at the Dominion Theatre, is a story of newspaper life is of timely interest to picture fans. That the lives of the workers on the metropolitan newspapers are reproduced with fidelity is assured by the fact that Ralph Block, the producer of "The Office Scandal," and Jack Jungmeyer and Paul Gangelin, the authors, formerly were newspaper men of experience. Raymond Hatton, stage and screen star, portrays the role of a city editor.

CAPITOL THEATRE "The Wheel of Life," featuring Richard Dix, now showing at the Capitol Theatre, is dashing, vivid, romantic drama, and Dix, as the central figure, is the personification of vigorous soldierly manhood. The plot is woven about life in a military outpost of the British Government in India. It concerns the love which develops between Dix and Esther Ralston, who plays the role of the young and unhappy wife of the elderly G. P. Heggie, commanding officer of the military post. Dix rescues Esther and a party of friends when they are beset by hostile native tribesmen, who surround a monastery of the Buddhist priests where the Easterners have taken refuge. The climax is an amazing and breath-taking one.

FRECKLES

Sun and Wind Bring Out Ugly Spots. How to Remove Easily

Here's a chance, Miss Freckleface, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes your freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any drug or department store, and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask for the double strength Othine, as this strength is sold under guarantee of money back if it fails to remove your freckles. (Advt.)

Two Thousand at Montreal Dinner Given by Nurses

MONTREAL, July 11.—What was probably the largest exclusively women's dinner ever held in this city was given by the International Nurses' Congress in a local hotel last night when over two thousand nurses dined together. A naval cadet trumpeter was employed to call the assembly to order before each speaker. Very brief addresses were made by nine after-dinner speakers.

Registrations of 700 additional delegates yesterday brought the attendance at the congress to 6,600 delegates, and a total of 7,000 is anticipated before the sessions end.

Vancouver Opera House Property Is Sold for Just Under $800,000

VANCOUVER, July 11.—The Vancouver Opera House property on Granville Street, immediately adjoining the Hotel Vancouver, has been sold at a price reported just under $800,000.

The front portion, 120 feet deep, including the office building, has been sold to the Granville Estates (No. 8) Ltd., a group of local capitalists, at a price just under $600,000, who will later remodel the theatre building or erect a new commercial structure, according to the terms of the purchase.

The rear forty-three feet and a twenty-foot strip adjoining the south side of the Hotel Vancouver have been purchased by the C.P.R. Certain private lane concessions made several years ago, have now been cancelled.

The C.P.R. purchase is believed to presage further additions to the Hotel Vancouver, including the reconstruction of the Howe Street wing.

CLARA BOW TO WED

LOS ANGELES, July 11. — Harry Richman, New York musical comedy actor, announced yesterday that he and Clara Bow, star of the cinema, will be married. The wedding, according to Richman, will be celebrated in about five weeks.

Officials at the motion picture studio where Miss Bow has been working on her latest picture, confirmed Richman's announcement of the engagement.

Mr. Menendez Named Registrar Of Two Courts

Mr. Leo A. Menendez, secretary to the Attorney General, has been appointed to the position of registrar of the Supreme and County Courts at New Westminster. Mr. Menendez will leave about the beginning of next week to take over his new duties.

The position which he is to fill was formerly occupied by the late J. W. Dixie. The training which Mr. Menendez has received in the office of the Attorney General for a number of years well qualifies him for the position to which he has been appointed.

USED CAR SALE BENEFITS PUBLIC

Atkinson Motors Stage Whirlwind Clearance Movement to Secure More Room for Business

Starting today the Atkinson Motor Company, Ltd., is offering to the bargain hunter opportunities that are nearly unique in the used car class. More room for the new models of Durant and Peerless cars, expected in a few days, is the need that dictates this drastic cut in prices; consequently the management has decided upon a genuine sacrifice, open to the public for ten days only.

The purchaser may rely upon receiving adequate protection, for a personal statement from Mr. C. W. Lovell, president of the company, insures a sixty-day guarantee on all "shield" cars bought during this sale, and furthermore a new paint job, a new battery and four new tires are supplied with all cars valued over $300.

Approximately 75 per cent of the cars on the road have changed ownership, once, twice and even three and four times. Undoubtedly the used car deals bulk large in the dealers' transactions and much consideration is necessary before such sweeping tactics as those herein mentioned are deemed advisable. It is only because of an anticipated increase in the volume of business that this course has been adopted.

Bids Farewell in Informal Address

In an informal address at the close of the lecture given by Rev. W. Pascoe Goard in the Chamber of Commerce on Wednesday night, Mr. Herbert Garrison bade farewell to a deeply interested audience.

Outlining the rapid rise of the British Israel World Federation, he stated that it had been founded in 1919, though belief in the British-Israel identity had been held by distinguished thinkers for centuries.

ANSWER TO YESTERDAY'S PUZZLE

CUMBERLAND TO ENTERTAIN SHIP'S CREW

Special Events for Sailors Included in Sports Programme—Committee Arranging Big Celebration

SMOKER INCLUDED IN DAY'S EVENTS

CUMBERLAND, July 11.—Final arrangements were made by the water sports committee for the big celebration to be held on Saturday at Lake Cumberland, at a meeting held on Wednesday. The sports programme was drawn up and includes twenty-six events, swimming and boat races being provided for, in both classes, male and female. Children's swimming races will be held in the early part of the day and about noon it is expected the senior events will be commenced when a contingent of sailors from H.M.S. Colombo will be the guests of the water sports committee. The sailors will be at liberty to enter many of the events and a special fifty-yards swim has been provided for them, only members of the ship's company being allowed to compete.

A special ladies' race, confined to the Comox district and for the championship of Lake Cumberland, has also been included in this year's programme. What is certain to draw a large entry is the open 100 yards swim, for which two valuable prizes will be given. The prize money for the greasy pole event has also been increased. This event has always proved very popular and a good entry is expected. A special donation was received to stage a quoiting competition and this will be held on the new road at the lake.

Following the water sports, a soccer game will be held at 5.45 between a Cumberland City team and the strong Colombo team. The sailors will be entertained at dinner, provided for one half of the number at the Union Hotel, and the other half at the Waverley Hotel.

The day's proceedings will be concluded with a monster smoker in the Cumberland Hall.

The sailors will be transported from the wharf at Royston in cars, kindly loaned by prominent citizens. Some of the sailors will remain in town and participate in the cricket match to be played on Sunday. Given fine weather this week-end, the water sports should prove to be the best ever held in Cumberland.

HEAR REPORT OF PRESIDENT

Delegates From Ten Boards Register at Convention of Associated Boards of Trade of Island

The annual convention of the Associated Boards of Trade of Vancouver Island opened in the board room of the Chamber of Commerce yesterday at 10.30 a.m., with the striking of resolution and credentials committees. The former is composed of Mr. Frank Cunliffe (chairman), Mr. B. C. Nicholas, Mr. George I. Warren, Mr. A. McDonald and Mr. Percy Cowman. Mr. A. Leighton (chairman), Mr. P. L. Anderton, Mr. G. A. Cheeke, Mr. A. Peterson and Mr. H. A. McKillican form the credentials committee.

The main event of the morning session was the reading of a detailed report upon the activities of the past year by Rev. M. W. J. Bruce, president of the Associated Boards of Trade of Vancouver Island, as reported elsewhere.

Mr. Cunliffe moved a vote of thanks to Rev. Mr. Bruce for his very able report, which was carried amid applause. In seconding Mr. Cunliffe's motion, Mr. Cheeke suggested that a special committee be formed to consider the matter of the report, and to submit suggestions arising from it at the end of the session. A committee was accordingly formed of Mr. Leighton, Mr. Cheeke and Captain Matheson.

Among the delegates present at the opening session were P. L. Anderton, Courtenay; Capt. H. B. Babington, Saanich; Edward Bickle, Cumberland; J. G. Cameron, Victoria; G. A. Cheeke, Malahat; Frank Cooke, Esquimalt; P. Cowman, Nanaimo; Reeve W. Crouch, Saanich; F. S. Cunliffe, Nanaimo; Nat Gray, Saanich; S. J. Heald, Malahat; M. C. Ironside, secretary to the association, Nanaimo; J. L. Kenny, Ladysmith; R. C. Lang, Cumberland; A. Leighton, Nanaimo; R. P. Matheson, Esquimalt; R. W. Mayhew, Victoria; Gen. N. Money, Qualicum; E. L. Macdonald, Courtenay; H. G. McKillican, Sidney; J. N. McLeod, Courtenay; B. C. Nicholas, Victoria; A. Peterson, Duncan; Thomas Pitt, Duncan; L. C. Rattray, Duncan; J. E. Sladen, Saanich; Dawson Turner, Port Alberni; Lionel Taylor, Saanich, and W. W. Walkem, Ladysmith.

Nancy, who was only five, was much impressed when a large bunch of roses arrived for her mother.

"Why did you get them, mother?" she asked.

"You see, Nancy, seven years ago today daddy and mother were married," explained the mother.

"Goodness! He was a long time sending them wasn't he? You'd think he'd have sent them seven years ago."

Australia and South Africa Much Concerned

CAPETOWN, South Africa, July 11 (Canadian Press Cable via Reuter's).—The British Government's proposal to abolish preferences, made known yesterday by Right Hon. Philip Snowden, Chancellor of the Exchequer, is causing considerable concern in South Africa which would suffer from such action more than any other Dominion, as the local market for certain products is relatively small.

"Without preferences we have no hope," said the general manager of the Rhodes' Fruit Farm. "The whole of our fruit industry has been built up on preferences. It has never entered our heads it was possible they would be withdrawn."

MELBOURNE, July 11 (Canadian Press Cable via Reuter's).—Commenting on the British Government's proposal to abolish preferences, Mr. Stanley Bruce, of Australia, today suggested that, at a time when there is increasing recognition of the necessity for expansion of international trade and development of the Dominions' resources it was inconvenient that Right Hon. Philip Snowden, Chancellor of the Exchequer, should prejudice discussions of these vital matters by such drastic action as he has indicated.

New Zealand Nominee

WELLINGTON, N.Z., July 11.—The appointment of Sir James Parr, New Zealand's high commissioner in London, as the Dominion's representative on the newly-constituted Imperial communications advisory committee, is merely temporary, Premier Sir Joseph Ward stated today. A permanent appointment will be announced shortly.

The committee was established in accordance with the recommendations of the Imperial Wireless and Cable Conference and is a factor in the new Empire communications merger. Sir Campbell Stuart, of London, a native of Montreal, is Canada's representative on the committee.

SHOW TO BE IN OPEN AIR

Horticultural Society Plans Display in Grounds of Empress Hotel at End of Next Week

LATE SEASON TO BE IMPORTANT

The Victoria Horticultural Society will hold its sixth annual summer show on Friday and Saturday of next week, July 19 and 20. A new innovation by the Society is going to be experimented with this year, in the staging of an open air show. By the courtesy of the C.P.R. this exhibition will be held in the grounds of the Empress Hotel. This is an ideal location, and will make an excellent setting for a show of this description.

Coming just at this time, it will find nearly all small fruits at their best, and what is expected to be the premier floral class for individual species will be sweet peas. These in nine days time will be of first class exhibition quality

The Committee responsible for arrangements realizes the importance of what is termed group display, particularly from an artistic point, and these are being classified as in the past two years. Each group calls for the staging in 36 square feet of floor space, one to care for potted plants, and the other to take care of cut flowers and foliage. It is gratifying to the committee to learn of new contestants in these classes.

The Society challenge cups, together with cash prizes, go up for competition in this section. Variety of specimens, quality of specimens, and artistic effect, are the three points to be remembered, and for which the points will be awarded. Any intending exhibitor is advised to secure prize lists, which can be obtained from any floral store, or from the secretary, Mrs. F. E. Boulter, 583 Obed Avenue, telephone 7862Xt. In addition to the commercial donors in the prize list already published, the Society appreciates aditional ones since received, Mr R M Palmer, of Cobble Hill, being one of the latest donors. In addition to competitive exhibits, a number of displays will be arranged by the local florists.

BUILDING WILL BE FIREPROOF

Construction of New High School in Saanich Will Prevent Possibility of Disaster

A resolution favoring that the new Saanich High School be of fireproof construction, either brick or concrete, was passed unanimously at a joint meeting of the Saanich Council and School Board held on Wednesday night. The motion was moved by Reeve William Crouch and seconded by Trustee Walter Jeune.

Plans and specifications for the construction will be drawn up as soon as possible in order that full data may be available to the rate payers previous to the annual elections next January. In moving the motion the Reeve stated that he had no authority to pledge the Council to vote a grant for the cost of preparing the plans, but thought that they would assist the board when called upon.

Councillors Borden and Hagan immediately questioned the effect which possible secession of the rural districts would have upon the erection of the new high school. They also reminded the board also that, whatever happens, the population would need school facilities and separated areas would be called upon to pay for services rendered. A short discussion followed on the location of the building, but the place in all probability will not be decided upon until the Government decides on the secession problem.

Councillor Stubbs said that it would be a good plan if the building be erected on municipal property while Councillor Hagan stated that if an ideal site could be obtained by purchase, such method should be considered

Following the joint meeting Dr David Berman, medical health officer, tendered his annual report.

NEW METHOD TO BE DEMONSTRATED

Modern Pianoforte Teaching Will Interest Students at Summer School

The following is from a Regina paper of last week "Mothers, fathers and other interested citizens of Regina were treated to a little less than amazing exhibition of a new method of pianoforte teaching on Saturday morning at the Regina College when ten little girls demonstrated that after a week's concerted coaching they knew as much music as is usually gained only after six months' training They were demonstrating the method which will be used in the Regina public schools when they open for the new term.

"The ten little girls are being taught by the method of the Canadian Bureau for Advancement of Music, Toronto, under the direction of Mrs. Peter C. Kennedy. The study of music is no longer a hardship, or one to be avoided as it has seemed in the past to many children, it was demonstrated The children, two more than are usually in a class, were so interested in the study that they thought it was great fun.'

"The group system, it was shown, makes the children keener in their study and causes them to try to excel one another The children, none of whom studied a note of music previously, showed that they knew notes, sounds, scales and could even play some simple selections on the piano.

"They sat at small tables and played their 'pianos' on the paper keyboards in front of them. Sometimes they would go to the blackboard and draw notes and staffs with a familiarity that seemed almost miraculous after such a short period of training one hour each day per week

"Then they had their big feature, 'the orchestra.' Each child had some kind of simple percussion instrument such as a couple of sticks, a rattle or a triangle. With these they beat time giving them an excellent knowledge of rhythm

"This is the course which will be introduced to the children after school hours next Fall A teacher will come to teach the classes of eight pupils, thus creating interest among the children and incidentally cutting down the cost to the minimum."

This afternoon a similar demonstration will be given at 2 o'clock at the High School.

Thief Stole Dresses

SEATTLE, July 11—Police arrested Harold Long here yesterday, whom, they say, appearing as a female impersonator at private parties, used the opportunity to rob the homes of his employers of feminine finery

When a woman to whom he sold a stolen dress was accosted in Victoria B C by the owner of the dress Long was trailed down. Police declared he had confessed to fifteen robberies.

BUTTERMILK AND EGGS NOT ENOUGH FOR MRS. OLSON

Her Appetite Leans Towards Meats and Vegetables Since She Took "Keeno"

No More Stomach or Liver Trouble—Rheumatic Pains Banished in a Hurry

For a number of years Mrs. Anna Olson, 1544 Union Street, Vancouver, suffered with stomach and liver trouble and she had rheumatism in her left leg. She took "KEENO" and this great medicine drove all excess acids and poisons out of her system in a hurry. The result is that Mrs. Olson is enjoying fine health once more.

Previous to taking "KEENO" Mrs. Olson did everything and tried everything to obtain relief but all to no avail. She lived on buttermilk, eggs and other light foods in her efforts to regain health Instead of this limited diet helping her it only caused greater weakness because of insufficient nourishment.

This woman was also restored to good health by "Keeno."

"I feel like I did ten years ago," says Mrs. Olson, "and I can't praise 'KEENO' too highly for what it has done for me. I have a good appetite and instead of living on buttermilk, eggs and other light foods I am eating bread, meats and vegetables.

"Before I took 'KEENO' gas would form in my stomach and almost shut off my breath Sometimes I had dizzy spells so badly that I could hardly stand on my feet Black specks seemed to float in front of my eyes.

"My system became so disordered that I suffered an attack of rheumatism It settled in my left leg and I couldn't walk without limping I was weak and tired and near a complete collapse. Thanks to 'KEENO' my health is now splendid"

"KEENO" has relieved thousands of other people and you may confidently expect it to do the same for you It is obtainable at The Vancouver Drug Co. Ltd., stores and at leading drug stores in every city, town and village

Health and Diet Advice

By DR FRANK McCOY

You may have seen some articles in various newspapers or magazines claiming that it is dangerous to reduce—that taking off weight is not only weakening but may bring on serious diseases, such as tuberculosis and kidney trouble My opinion of this is that most of these "experts" do not understand even the rudiments of dieting

I believe there is much more danger in a fat person not reducing than in striving for more normal proportions. Although I have observed and directed thousands of cases of reducing I do not know of any fat woman who has been injured by limiting the amount of food below that which she was accustomed to eating The only possible danger that I know of would be for her to reduce too much below normal on a diet that is deficient in alkaline-forming elements or vitamins It is quite possible that if she reduced on a diet of white bread and sugar exclusively, her system would become very toxic This danger is entirely averted if the fresh fruits and non-starchy vegetables are predominant in the anti-fat menu

I receive many inquiries about the use of certain extracts for reducing, but I have never found them either advisable or necessary Much of the talk about the dangers of reducing has probably originated in those cases where these were used

Contrary to the prevailing idea of many people, fat is not an indication of health The proper weight for the best mental and physical vigor is often far below the patient's ideal, and it can only be determined by careful observation considering the temperament, muscles and bony frame work One cannot determine the correct weight by height and age alone I will be pleased to give my opinion as to your correct weight if you will send me your photograph, and your height, age and present weight

It is a well-known fact that after thirty a person has a much better chance of living to a ripe old age if he is thin There is not much satisfaction in eating heartily just to fill an oversized casket The quickest way of reducing is to employ a citrus fruit fast, using only these fruits or their juices and water In this manner the weight can be reduced from a half-pound to two pounds daily with marked improvement in all physical and mental functions.

When one is on a reducing diet one should also receive sufficient exercise to maintain the muscular tone Long daily walks are undoubtedly valuable, especially because the body thereby absorbs a large amount of oxygen to assist in consuming the clogging waste matter in the muscles and tissues Ordinary occupations may be followed through the fast This may seem impossible, but it is not, as I have known a large number of cooks and chefs who reduced while in continual contact with food It would be necessary for them to refrain from even tasting food during the reducing period

The diet following the fast should be carefully selected to provide the necessary amount of protien and green vegetables. The carbohydrates should only be introduced very gradually after the patient has overcome the tendency to obesity The concentrated starches, fats and sugars may be entirely dispersed with by obese people.

Fat people will notice an increase of energy after reducing which is due to freeing the body from its burden of encumbrances

Langford News

LANGFORD, July 11.—The annual school meeting will be held in the schoolhouse, Goldstream Road, on Saturday evening at 7·30 o'clock for the purpose of electing a school trustee and auditor, etc

Members of the recently-formed troop of Girl Guides, which left on Thursday morning from Langford for the Bradley Dyne Camp at Patricia Bay, include Cecily Bennett, Betty and Margaret Smedley, Stella and Eileen Hincks, Elizabeth Welch, Jean Clerk and Georgina Cooney.

NORTH SAANICH FLOWER SHOW SET

Will Be Held on Monday at Saanichton—Entries to Close on Saturday

SIDNEY, July 11.—The general monthly meeting of the North Saanich Horticultural Society will not be held this month, owing to the forthcoming flower show of the society, which is to be held at the Agricultural Hall, Saanichton, on Monday afternoon and evening, July 15, under the patronage of His Honor the Lieutenant-Governor and Miss MacKenzie

Every effort is being put forward to make the show an outstanding event for the district, and already a large number of entries have been received. An auction sale of the exhibits will be held at 9 o'clock, the proceeds going to the exhibition fund

The handsome prize book shows a good line-up of prizes for every section in flowers, fruits and vegetables; and for the best decorated tea table, open both to ladies and gentlemen. The grand aggregate prize of a silver vase, donated by Mr. L. Taylor, president of the North Saanich Agricultural Society, will be presented to the exhibitor scoring most points in the show

A number of noncompetitors and commercial displays have been secured, and Mr V. E. L. Goddard's collection of mounted wild flowers (that won the Macown Trophy at the Vancouver Island Spring Flower Show) will be on exhibition.

During the afternoon tea will be available and a musical programme has been arranged including musical, solo and fancy dancing numbers.

Anyone not having received a catalogue of the prize list can do so by communicating with Mrs. E. L. Hammond, R.R. No. 1, Saanichton. All entries for the show must be in the hands of the secretary not later than Saturday, July 13.

Vacation School at Duncan Is Success

DUNCAN, July 11.—The vacation school held in the United Church Hall under the auspices of the Sunday school, is proving most successful. Twenty-four children were present on Wednesday, the third day of the school, and the bright, happy faces of the girls and boys, ranging from four to nine years of age, was evidence of their interest. Miss L. M Clack is in charge, assisting her are Florence Dirom, Mabel Owen, Christine McKenzie and Doris Mann. The sessions are held in the mornings from 9 to 11 45, opening with a worship period. Bible stories are learned, hymns taught, group games played, and kindergarten models made

Whiffen Spit Is Popular as Beach Resort

SOOKE, July 11.—Whiffen Spit beach and Sooke Harbor camp are in a fair way of becoming the most attractive points for excursions from Victoria. Special cars had to be provided by the Vancouver Island Coach Lines to take the overflow passengers which could not be accommodated in the roomy motor bus which takes the morning run from Victoria to Sooke. Visitors seem to take great delight in exploring the long stretch of sand at the entrance of Sooke harbor, named Whiffen Spit in memory of Paymaster-General Whiffen, or ramble in the virgin forest of the adjoining camp, which a visitor described as a trip to fairyland. Preparations are being made by the Department of Public Works to widen the road to Whiffen Spit, which will add to the convenience and safety of the visiting public

United Church Picnic Enjoyed at Sidney

SIDNEY, July 11.—The annual Sunday school picnic of the Sidney United Church was held last Saturday afternoon at the Curlew Picnic Grounds, Elk Lake. The children were conveyed from the Wesley Hall by cars kindly loaned for the occasion at 1 o'clock, and from the moment of reaching the grounds until 7 o'clock, when the homeward trip was made, there was not a dull moment.

The day proved an ideal one for the affair, and following an hour or so of swimming, the seventeen sporting events arranged by the rector, Rev M. W Lees, assisted by the teachers of the Sunday school, were entered into with great enthusiasm by the contestants, who received hearty support from the onlookers

Following the sports, a bountiful supper was served under the shady trees, and a pleasant hour was spent at the tables. Before leaving for home, three hearty cheers were given for Mr Lees and the teachers and those who had made the pleasant afternoon possible.

The following is a list of the prize winners in the different events:

Children under 6 years—1, George Dickson; 2, Laurine McNeill.

WAR PATIENTS ENTERTAINED

Unusual Company Is Gathered at Nanaimo From Shaughnessy Hospital for Outing

JAPANESE VETERAN IS AMONG PARTY

NANAIMO, July 11.—One hundred and five war patients from the Shaughnessy Military Hospital, at Vancouver, arrived here at noon yesterday to enjoy a picnic given under the auspices of the Nanaimo branch of the Canadian Red Cross, assisted by the Canadian Legion and the Army and Navy Veterans, in their honor.

They arrived on the noon boat with a complement of nurses and prominent Red Cross members of the Mainland, and were taken direct to the Canadian Legion Hall, where, beneath gaily colored streamers in the banqueting room, they sat down to a hot dinner consisting of varieties of meats, vegetables, salads, buns, pies and ice cream and a round of smokes.

Despite their disabilities, they were ready for any pleasure afforded. At the extreme end of one table the "pet" of the party lay on his stretcher watching the proceedings, and received lots of attention. At the other end of the table another favorite sat in a wheel chair. He took a full course. He admitted that pie he never saw, meat he couldn't have, but he intended to celebrate, he said, and he enjoyed a generous helping of Philpott's milk-fed pork, salad, apple pie and ice cream, and pronounced Philpott's cook the best ever, and the local ice cream hard to beat, and said he felt fine

They spent a very enjoyable day drinking pop and other refreshments and going on sightseeing trips in different directions. It took a while to get them placed in cars, but citizens responded to the call of the local veterans for machines, arrived on time, and returned them to the hall at 4 30, when a second meal awaited them. There were plenty of smokes, and to the patients whose health was a barrier between them and yesterday's picnic, a gift of cigarettes was sent by the returning patients. The remainder of the pop was also put aboard to quench the thirsty while crossing the gulf homeward bound

A Japanese by the name of Kato, who proudly wore the buttons to show that he had served for the King and the country of his adoption, said he fought in the 52nd Battalion, and with his comrades yesterday enjoyed a trip around Departure Bay and other points of interest.

There was talent among the visitors and by way of contrast, Joseph H Barnes, of the original 7th Battalion, entertained the hostesses with popular songs and, by request, sang the song of memories, "Tipperary." "Dad" was another veteran to command attention. He is eighty-five years of age and, as James Ryan, served with the Canadian Forestry Battalion. Asked how he managed it, he replied: "I looked forty-six when I enlisted; they put that age down and I stuck to it." Some of the more abler ones decided they would like to dance, so they did

Mayor Busby presided and in a neat speech expressed his appreciation at being able to dine with the splendid men who had honored Nanaimo with their presence. They had stood behind the guns for an ideal and freedom the citizens and veterans co-operating with the Red Cross in making the event possible would no doubt help the boys to feel that time would not make Nanaimo forget the boys who fought for them.

The boys were welcomed by Mr. V B Harrison president of the Nanaimo Red Cross, and expressed the hope that the next time they came all the patients would be in a position to be present

At the conclusion of the dinner Mr J J Stafford, on behalf of the patients, thanked the Red Cross, veterans and citizens for such a wonderful time. He said the sad part was when they had to leave 100 behind

The men left at 5 30 o'clock, after pronouncing the event a success from every standpoint of view, and again thanking the citizens for their kindness

ST. MARK'S CHURCH HAS ANNUAL PICNIC

Outing Enjoyed at Hamsterley Lakeside by Merry Crowd

The annual picnic of St. Mark's Church, Cloverdale, was held at Hamsterley Lakeside, Elk Lake, on Wednesday. Tallyhos conveyed a merry crowd of adults and children to the grounds where they enjoyed all the conveniences placed at the disposal of the public by the Peases of Hamsterley. Ball games and other forms of sport were indulged in, while bathing and swimming in the warm waters of the lake was enjoyed by adults and children alike. Delightful refreshments were served during afternoon and evening which greatly added to the enjoyment of the picnickers. It was a tired out, but well satisfied crowd that wended its way to the busses as the shades of evening were beginning to fall.

Among those who were indefatigable in their efforts to make the picnic a success were Rev. O. L. Jull, vicar of the parish; Mr. H J. McAnerin, superintendent of the Sunday School, together with the teachers and other helpers.

Magistrate—It seems strange to me that you could keep on robbing that enormous corporation for so long without being caught

Paint with NEW PROCESS PAINT this year. Next year will prove the wisdom of your choice.

BEAUTY-*that Lasts*

NOT merely for a month or two . . . until the newness has worn off . . . or the sun and rain have taken away its beauty . . . but for years your home will look smart and fresh when it's painted with NEW PROCESS PAINT.

Long after other homes have become dingy with smoke and grime *yours* will retain its beauty. When other homes are costing money for repairs, NEW PROCESS PAINT will still be keeping rot and rust at bay.

NEW PROCESS PAINT is not an ordinary paint . . . It is something different . . . better. It covers the surface with a tough, elastic coat that rain or snow cannot penetrate, or sun fade.

Beauty is a lasting quality if you paint with NEW PROCESS PAINT.

World-famous physician prescribes
BEER

LORD DAWSON of Penn, Physician of H. M. the King stated in the House of Lords, July 19, 1923: "There are a number of people who at the end of a fatiguing day are quite unable to digest their food, because their nervous system is too tired. A small quantity of alcohol (such as is contained in BEER) makes them happy with themselves and happy with the world." Alcohol properly taken in proper quantities in moderation serves a useful purpose, by aiding digestion. BEER spells moderation. GOOD BEERS such as the brands named below are good for your health. For sale at all Government stores and beer parlors. Delivery free.

Every club has its special bore. At the Maryland he was an explorer. He usually finished his stories by saying he never saw a lion he feared. One evening one of his audience said:

"Well, I have often thrown myself down and slept among lions in their wild and natural state."

"I can't believe that," said the bore.

"It's the truth," affirmed the other.

"Were they African lions?"

"Well, no—er—I suppose not. Not exactly African lions, but they were dandelions."

PRESIDENT URGES REAL B.C. BOARD

Rev. Montague W. J. Bruce Suggests Action by Associated Boards of Trade of Vancouver Island

WARNING ON NEW STRAWBERRY

"There is a matter which I feel our boards should take a part in initiating or reviving, for I have a belief that there has been a Board of Trade for British Columbia before, and that is to see that the British Columbia Board of Trade is once more functioning. The great danger in Board of Trade work is that it is apt to be too parochial," said Rev. Montague W. J. Bruce, president of the Associated Boards of Trade of Vancouver Island, in his presidential address yesterday at the meeting here.

He proceeded. "We must remember that we are a very small part of the whole, and although there is a Canadian Chamber of Commerce, yet I feel that there is the missing link. If a British Columbia Board of Trade could be formed—meeting at different places in different years—after the conventions have taken place, I feel that it would bring greater weight and co-ordinate the somewhat varying views from different sections. Apart from that it would give our own members a larger outlook on the affairs of this province and prove of inestimable value in bringing us together.

Mr. Bruce briefly reviewed the activities of the board during the year, including the business of the three special meetings which were fully reported at the time.

WEST COAST BUSINESS

Speaking of the initial cruise of the Princess Norah, Mr. Bruce said: "I was very much impressed with the necessity of as soon as possible of opening up the West Coast, especially by a road from Great Lake to Ucluelet. Apart from the primary importance this would be to the business men there, it would be a great boon to the inhabitants, who are practically, except by sea, cut off from civilization. This would mean a tremendous impetus to the tourist trade, which we are told is the life blood of this Island. The scenery there is incomparable, and boating of all sorts would be possible in the sheltered sounds, whilst many streams and lakes now practically inaccessible would be open to the fisherman.

BERRY SITUATION

"Although the Government has assisted the strawberry growers by financing the processing of a part of the strawberry crop, yet the future is fraught with some danger. The old berry which has been universally grown has now been surpassed in shipping value by a newer sort, and although many growers will doubtless make the change, yet this will mean not reaping the benefit for two years, with the danger of the bulk of this industry being transferred to the Mainland, who have had the foresight to plant the newer berries.

CATHEDRAL GROVE

"You will have before you again today the question of preserving the timber at Cameron Lake. This has been before you previously, but until that timber is absolutely secured from destruction for all time by the hand of man it is our duty to leave no stone unturned to accomplish this most important matter.

ADVERTISING SIGNS

"Almost approaching this, as it closely pertains to the spoiling of the beauty of the Island, is the resolution which tends to curb or abolish the unsightly advertisements which are springing up on all sides along the well-traveled roads."

Privy Council To Hear Appeals Of P.A.T.A. Cases

LONDON, July 11—The judicial committee of the Privy Council today granted the Proprietary Articles Trade Association of Canada and the Attorneys-General of Quebec and Ontario leave to appeal from the judgment of the Canadian Supreme Court which declined a contention that the Combines Investigation Act is ultra vires of the Dominion Parliament.

The Dominion Government, the Amalgamated Builders' Council and the Amalgamated Clothing Industries Council of Canada are contesting the appeal.

L. C. O'Connor, of Lindsay, commissioner appointed by the Dominion Government two years ago, reported that the P.A.T.A. was a combine of wholesale and retail manufacturers and distributors of proprietary medicines and toilet articles and the association then contended that the Combines Investigation Act and the section of the Criminal Code dealing with conspiracies and combines were ultra vires of the Dominion Parliament. The Supreme Court of Canada in April last rejected both contentions.

SUMMER SCHOOL TO BROADCAST TODAY

Aunty Babs Entertains CFCT Children Tonight—Education Programme Over Local "Mike"

A very busy day is before CFCT today, and the first broadcast will take place at 8 o'clock this morning. At 2 o'clock this afternoon the last afternoon broadcast, for this week, from one of the classrooms of the Department of Education's Summer School for Teachers will take place. During this broadcast radio listeners will enjoy hearing a rhythmic band and toy symphony orchestra. This band, composed of young children, will give a demonstration of rhythmic music, marches, dances, etc., under the leadership of Miss Olive Campbell. This broadcast is expected to be quite entertaining.

At 5:30 tonight CFCT will again be on the air, and a great many young boys and girls will be listening to Auntie Babs, who speaks to them regularly at that time every Friday evening. Auntie Babs is known far and wide through her stories for children, and will delight boys and girls until 6 o'clock. Immediately following this weekly half-hour, the closing market quotations will be announced, and then the nightly "Sunset" programme will be presented over Victoria's radio station. The hour's orchestral music will feature the Sunset Trio, and the programme will be opened with "Suite Melodique," written by Rudolf Friml. Anton Rubenstein's "Romance" will follow, and Franz Schubert's "Minuet" will precede Drigo's "Valse Bluette." The violin, 'cello and piano will also render a selection from Victor Herbert's popular "Mademoiselle Modiste," played by request, and Ethelbert Nevin's suite describing "A Day in Venice." Tonight's dinner programme over the local radio station will draw to a close with three songs by French composers — Bemberg's "Hindoo Song," Debussy's "At Evening" and "Open Thy Blue Eyes," by Jules Massenet.

The Department of Education's broadcast this evening will commence at 8 o'clock, when microphones will be installed in the auditorium of the high school. Radio listeners will thus have the opportunity of hearing the first of a series of five weekly concerts presented by Summer school authorities. The recital tonight will introduce to radio listeners Miss Doreen Davidson, soprano of the American Opera Company, and Arline Falconvitch, talented pianist.

CFCT's last broadcast for tonight will take place an hour before midnight, when dance music will reign supreme on the local station's wavelength. The Crystal Garden Orchestra will entertain radio listeners with popular dance numbers, and CFCT will sign off soon after midnight.

Band of Track and Field Stars to Meet at Vancouver Today and Tomorrow

Olympic Champion Will Be Featured At Monster Event

Canadian and American Aces Will Attempt to Conquer Undefeated World's Amateur Titleholder—Women's Team Powerful

VANCOUVER, July 11.—Famous sprinters from Canada and the United States are here tonight in the domain of Percy Williams, 100 and 220-yard Olympic sprint champion, to attempt to conquer the only undefeated dash star in the world, at the greatest two-day track and field meet ever held on the Pacific Coast tomorrow and Saturday.

Percy Williams

Well known sprinters who will challenge the supremacy of Williams include Johnny Fitzpatrick, Canada, and Eddie Tolan, "midnight express;" Frank Wyckoff, Claude Bracey, United States, and a number of others.

Approximately 125 athletes, including more than a score of British Columbia Indians, are scheduled to get under way at 5 p.m. tomorrow, with the finals scheduled for Saturday afternoon.

The events for Friday include dashes for men and women, a three-mile run, broad jump, 56-pound weight, quarter mile relay and two bicycle races. Saturday the javelin, quarter mile, one mile, shot put, high jump, sixteen-pound hammer, half mile, twenty-eight-pound weight and women's relay will be added to the list of events.

The meet will be formally opened by Lieutenant-Governor R. R. Bruce. The men athletes entered include Phil Edwards, Canada's famous quarter-miler; R. F. Bowen, 220-yard flash; Herm Brix, shot-putter; Ed. Hamm, world's broad jump champion, and W. McGeagh, quarter-miler.

The women stars to compete include Myrtle Cook, Florence Bell, Jean Thompson, Edith Cook, Fanny Rosenfeldt, famous Canadian sprinters. A Canadian relay team will race two girl combinations from Los Angeles and Seattle.

TILLICUMS AND JOKERS TO PLAY ANGELES SQUAD

Will Play One Game Apiece Against Visiting Baseballers at Royal Athletic Park Tomorrow

VISITORS BRINGING OVER STRONG TEAM

The job of providing the opposition for the visiting Port Angeles balltossers here tomorrow has been left with the Tillicums and Jokers, first and second berth occupants of the Senior Amateur Baseball League, respectively. Two games will be played at the Royal Athletic Park. The matinee encounter will start at 2:30 o'clock and the nightcap at 6 o'clock. Each club has the privilege of strengthening up if it desires. Just which team will play in the afternoon will not be known until today.

According to C. E. Shields, manager of the Port Angeles Club, a strong team will visit here to oppose the locals. Port Angeles has given the local clubs plenty of good competition in the past and are expected to make a good showing on Saturday.

MOORE RELEASED

Following a protest lodged by the Sons of Canada, local ball clubs at a meeting held at the Y.M.C.A. last night, decided to dispense with the services of Frank Moore, as an umpire, for the remainder of the season. The task of finding a new umpire is one that the board of governors will have to deal with.

Sure Class "D" Baseball Pays! Read the Proof

HANOVER, Va., July 11.—If you don't believe Class "D" baseball can be made profitable, read this.

The Hanover club of the Blue Ridge League started its 1929 season with a surplus of $1.74 in its treasury, all the profits of last year. Receipts for last season were $27,851.76 and the expenditures were $27,727.61. There were $96.75 worth of unpaid bills from the year before, so the club cleaned it up and took its profits of $1.74.

Tommy Loughran Gives $5,000 to Hospital Drive

NEW YORK, July 11.—At a dinner given recently by Mrs. Peter J. Schweitzer, president of the Home of the Daughters of Jacob, it was revealed that Tommy Loughran, light-heavyweight champion, has contributed $5,000 to the fund now being raised for the erection of a hospital in connection with the home.

The Daughters of Jacob are sponsoring the title match between Loughran and James J. Braddock at the Yankee Stadium on July 18.

This battle will be promoted by the Madison Square Garden Corporation with the profits going to the Daughters of Jacob Hospital fund.

AL DEMAREE

By AL DEMAREE
(Former Pitcher New York Giants)

Batters' weaknesses vary so from year to year that a pitcher cannot constantly pitch to one spot or dish him up only curve or fast balls continually.

A certain batter may have a glaring weakness against a curve ball, but by being forced to continually hit nothing but curves, he oftentimes becomes a good curve ball hitter.

The same thing applies to high, low, or inside and outside pitching.

A batter who has a reputation of being a good low ball hitter will see very few low balls if the pitchers can pitch high to him. But in time he looks for no pitches below his waist and lays for the high ball and before the pitchers realize it, they have changed him into a high ball hitter.

The only hitter John McGraw ever claimed had no weakness at bat, was Hans Wagner, the flying Dutchman.

"Just mix 'em up and duck!" was Mac's advice to the pitcher.

Victoria Girl Reaches Interior Tennis Final

Hope Leeming Shows Great Form at Kelowna—Velda Rithet Loses Match—Local Pair Advances in Women's Doubles

(Special to The Colonist)

KELOWNA, B.C., July 11.—The fourth day of the Interior lawn tennis championship was featured by the splendid win in the semi-finals of the ladies' singles by Miss Hope Leeming winning over Mrs. Muir, of Vancouver. Miss Leeming only allowed her opponent two games in the first set and none in the second. Miss Velda Rithet has become the real sensation of the tournament. In her match with Miss Allison King, of Vancouver, she won the first set, 6-4, and made a gallant stand in the second, which she lost, 8-6. The third set was won by Miss King, 6-3. Both Miss Rithet and Miss Leeming are great favorites on the courts.

Ryall and Shields, the Vancouver players, who were at the P.N.W. sectional tournament at Portland arrived at 5 p.m. today after driving for twenty-three hours without stopping, and immediately took the courts. Ryall defeated McAllister, of Penticton, in his first match, 6-3, 6-1, and without a rest went on to play Logie, of Kelowna, whom he defeated 6-5, 6-2. Shields, in the meantime, met and defeated Dreyfus, of Vancouver, 6-3, 6-3, and then Ryall and Shields met and defeated Luiener and McNicholl in straight sets, 6-2, 6-1, and then called it a day.

Nordstrom and Langlie had in the meantime defeated Russel and Dreyfus in a hot doubles, 6-2, 8-6, while Langlie and Miss Straus defeated Metcalfe and Mrs. Mangin, 6-2, 6-1.

The semi-finals of the ladies doubles had to be postponed until Friday on account of some of the individuals being engaged in other matches.

In the men's veterans, Brown and Brown, of Victoria, were nosed out by Cornwall and Fernie, of Kamloops, 6-7, 7-5. Later in the evening Cornwall and Fernie were defeated by Metcalfe and Craig, 6-6, 7-5.

Miss Leeming will meet Miss King in the finals of the ladies' singles on Saturday. The ladies' doubles semi-finals will be played Friday afternoon, Miss King and Miss Tatlow meeting Miss Leeming and Miss Rithet, while Mrs. Ross and Mrs. Muir meet Mrs. Sparling and Miss Strauss. Ryall meets Nordstrom and it is expected Shields will meet Langlie in the semi-finals of the men's singles.

Hammond to Try To Route Next XI Via Canada

MONTREAL, July 11.—Baseball is easier than cricket bowling, said A. P. F. Chapman, well-known English cricketer, before sailing homeward today. He witnessed baseball games in Chicago and here.

"It is a great game," he said, "but it will never be popular in England."

He declared he would try to have the next cricket test match team go to Australia via Canada.

The cost of taking the team this year had been $100,000.

CHANGES MADE IN ENGLISH XI FOR THIRD TEST

New Faces Will Appear on Cricket Team to Meet South Africans in Saturday's Match

GODDARD, BOWLEY ARE GIVEN PLACES

LONDON, July 11.—The selection committee in English cricket has picked another experimental team for a third test match with South Africa, which starts at Leeds on Saturday. With their eye on the visit of the Australians next year and the fact that some of the old standbys like Jack Hobbs are suffering from "Anno Domini," a young generation of players have already been tried. They were not a success.

Men like Fender, Dulep Singh, Crawley, Robbins and O'Connor, who have done splendidly in first class cricket this season were tried. They were unfortunate in the international games and their names do not appear in the team picked for the Leeds match. In their places appear the names of Goddard, Gloucester, and Bowley, Sussex, who are new to test match cricket, and such old-timers as Frank Woolley and Freeman, of Kent.

Goddard was the first county cricketer to take a hundred wickets this season.

The South African eleven has not been nominated yet. They may be without Cameron, their regular wicket keeper, who was hurt by a bouncing ball in the last test.

KENT'S COLLAPSE CRICKET FEATURE

Poor Showing in Second Innings Against Essex Surprises—Gentlemen Take Lead

LONDON, July 11.—The Gentlemen had secured quite a lead on the players in their cricket match at Kennington Oval at the close of play today. The score was: Gentlemen, 450, Players, 334.

The collapse of Kent in its second innings featured the other first class matches.

Closing scores today:

Derby, 94 and 200 for 1 wicket; Somerset, 179.

Northants, 125 and 129 for 4, Sussex 447.

Kent, 323 and 61, Essex, 230 and 37 for 2 wickets.

Yorkshire, 239 and 178 for 4 wickets, Worcester, 252.

Gloucester, 129 and 64 for 4 wickets, Lancashire, 168.

South Africa, 192 and 239, Wales, 159 and 224 for 3 wickets.

To Fight Davies Tomorrow

EDDIE Graham, claimant of the Northwestern featherweight title, who meets Albie Davies in a ten-round bout at the Tillicum gymnasium tomorrow night. Here are some of the topnotchers that the Portland fighter has met this year: Decisions over Eddie Thomas, Sam Langford, Petie Miller, Leo Lomelli, Mickey Brown, Dynamite Murphy, Teddy Fox, Phil Saise, lost to Hector McDonald. Graham is due here this afternoon and will work out at the Tillicum gymnasium tonight.

Royals-St. Saviour's Connaught Cup Game Ordered Replayed

VANCOUVER, July 11.—The game of football played here last Saturday between St. Saviour's of Vancouver and New Westminster Royals in the British Columbia semi-finals of the Dominion Soccer championship, and which was won by St. Saviour's, 3-1, was tonight ordered replayed on Monday, July 17, by the British Columbia Football Association, at a special meeting. A protest entered by New Westminster, on the ground that St. Saviour's failed to file a list of players with the Royals three days prior to Saturday's game, as called for by the Dominion Football constitution, was upheld and the game ordered replayed.

The secretary of the St. Saviour's Club admitted failure to submit his players' list as required. He was one day too late.

RECORD ENTRY EXPECTED FOR JUNIOR TENNIS

Representative Field Will Take Part in Three-Day Annual Tournament, Beginning Monday

GIRLS' CHAMPION UNABLE TO PLAY

Entries for the B.C. junior lawn tennis championships, which will start at the Victoria Lawn Tennis Club Monday and continue until Wednesday, are coming in rapidly, according to Secretary F. A. Jackson. A record list is expected and one of the most representative in the history of the event.

Although the field will be a colorful one a tinge will be taken from it by the absence of Doreen Swayne, three times titleholder and defending champion. Miss Swayne, considered as one of the most promising youngsters in the Northwest, recently underwent an operation for appendicitis and her activities this year will be confined to the sidelines.

This year's field will have a number of outside competitors. Entries have been received from several points, including Portland, Seattle and Vancouver.

In the boys' singles Rooke Robertson, of Brentwood College, is expected to make a powerful bid for the title. Robertson has been showing some great tennis lately and is one of the favorites. He will have plenty of stiff opposition, however, as the Vancouver invaders are reported to be formidable.

Helen Campbell, Velda Rithet and Joan List will be the mainstays in upholding the local colors against outside invasion in the girls' events. These three are making great strides in the net pastime and have promising careers in front of them.

DOREEN SWAYNE

For the past three years junior British Columbia tennis champion, who will be unable to defend her laurels when the curtain goes up at the Victoria Lawn Tennis Club on Monday. Miss Swayne recently underwent an operation for appendicitis and has not sufficiently recovered to take part.

Wife Charges Walker With Cruelty; Wants Separate Maintenance

TRENTON, N.J., July 11.—Mrs. Margaret Walker, wife of "Mickey" Walker, world's middleweight boxing champion, today filed suit for separate maintenance.

The Walkers were married June 22, 1923, and separated last month.

In her complaint, Mrs. Walker charged cruelty and excessive use of liquor. She further states that the boxer had stayed out until early hours of the morning dining with women friends. Mrs. Walker also asked custody of their five-year-old child.

AMATEUR EQUALS PAR AT JASPER

Californian Shoots First Round of 70 at Famous Course—Has High Praise for Course

JASPER PARK LODGE, Alta., July 11.—For the first time in its history, an amateur has played the famous Jasper Park Lodge golf course in par. The triumph belongs to B. Tait, of Pasadena, Calif., scion of one of the most noted golf families of Scotland. Tait is vice-president of the Annandale Club and is in charge of the course, and is a member of Midwick. Par of the Jasper golf course where the Canadian amateur championships will be played next month is 70. Lying amid the Rockies it is 6,455 yards of sport and beauty, and is, in fact, renowned as the finest course in Canada.

"We haven't anything like it in California," says Tait. "I would like nothing better than to come back for the championships in August."

Romance is added to Tait's achievement in the fact that, as a surveyor, he came through Jasper a quarter of a century ago, working ahead of the railway. He has been a guest at the lodge for two weeks, but he has not yet recovered from his surprise at the amazing change in what was once nothing but a mountain wilderness.

Gloucestershire Eleven Suffering From Catarrh Eyes

LONDON, July 11.—Members of the Gloucestershire cricket team today were suffering from "pinkeye" or catarrh eyes. Dipper had to leave the Old Trafford Grounds at Manchester, where the team is engaged in a match with Lancashire.

The malady is particularly contagious, and with other members of the team showing symptoms, the possibility looks that the whole side will be incapacitated. Among the team at Old Trafford are Wally Hammond and Goddard, who are among the twelve men selected to represent England in the third test match against South Africa beginning on Saturday.

FRANK PATRICK MAY BE PILOT OF AMERICANS

New York Management Is Seeking Services of Coast Magnate to Succeed Tom Gorman

L. CONACHER NOT CARDED FOR JOB

NEW YORK, July 11.—Overtures are being made to have Frank Patrick, famed Canadian hockey magnate, take over the managership of the New York American team for the coming National Hockey League season. The post was left vacant by the recent resignation of Thomas P. Gorman, of Ottawa.

FRANK PATRICK

In making it known tonight that he was seeking the services of Patrick, William Dwyer, president of the American Club, spiked reports that Lionel Conacher might be playing manager of the A's next season. Conacher, as captain and defence man of the star-splashed sweater crew last season was the king pin of the team.

"I don't believe a man can do two things at once and do them well," Dwyer said tonight. "Our only reason for not considering Conacher for the vacancy is because we do not want a playing manager."

SONS OF CANADA TO MEET SIDNEY

Canadians Need Win to Stay in Third Place—Kerr and Williams Expected to Twirl

With a win necessary to keep them in third place, the Sons of Canada will be at full strength tonight when they oppose the heavy-hitting Millmen in a Senior Amateur Baseball League fixture at the Royal Athletic Park at 6.15 o'clock.

Johnny Kerr is expected to go to the mound for the Canadians, while Syl Williams will most likely do the heavy work for Sidney. A win for the Millmen will place them on even terms with the Sons of Canada. In their last appearance the teams battled to a 4-4 score after a fast nine-inning battle.

Marjorie Leeming Reaches Semis in Oregon Net Play

Will Play Defending Champ Today—Marjorie MacFarlane Also Advances—Ross Hocking Loses Singles Match to Suhr

PORTLAND, July 11.—Only four men and four women remained in the race for the Oregon State singles tennis titles when the last ball had been served on the Multnomah Club courts today. The four men were Ray Casey, San Francisco southpaw; Kurt Berndt, Casey's fellow townsman, Jerry Bartosh, of Los Angeles, and Bob Johnson, Portland junior star.

The women were Marjorie MacFarlane, ex-New Zealand champion; Dorothy Weisel, Californian and national girls' play court champion, Marjorie Leeming, Victoria star, and Mrs. Golda Myer Gross, defending titlist, from San Francisco.

Ray Casey, seeded No. 1, encountered his most serious competition of the meet so far in his quarter final opponent, Harry L. Plymire. Although Plymire took only four games in two sets, losing 2-6, 2-6, he made his brother Californian use every trick he knew. Plymire was seeded No. 3, so his defeat left only two seeded players, Casey at No. 1 and Berndt at No. 2, remaining in the meet.

Berndt advanced by defeating L. Driscoll, his doubles partner, 7-5, 6-2. Jerry Bartosh eliminated Dick Goldthwaite, Portland, 6-0, 6-1.

Bob Johnson, Portland, will play Casey tomorrow. Johnson has played only one match in the event so far, eliminating A. B. Dorsey in the first round. In the second he advanced on a default by Bert Cole, in the third on a default by Jimmy Johnson and today on a default by Herb Suhr.

The women's matches tomorrow give promise of exciting tennis since Marjorie MacFarlane will play Dorothy Weisel and Marjorie Leeming will play Mrs. Gross.

Yesterday Ross Hocking, of Victoria, lost a hard-fought singles match to Herbert Suhr, 3-6, 6-6, 6-2.

Mona Miller, Victoria, after being eliminated in the singles, went down to defeat in the mixed doubles with Percy Lewis before Marjorie MacFarlane and Isaacs, Victoria, 6-1, 6-4.

Local Oarsmen to Oppose Outsiders In Colorful Meet

Strong Contingents From Vancouver, Portland and Brentwood Will Provide Stiff Opposition for J.B.A.A. Crews at Esquimalt

Final section of the J.B.A.A. crews for the annual N.P.A.A.O. Regatta, which will be held at Esquimalt Harbor on Friday and Saturday, July 19 and 20, was made last night. Despite the fact that the majority of the oarsmen who will uphold the colors of the popular Bays in this colorful event are newcomers to the rowing game, Coach Dan O'Sullivan looks for the crews to make a good showing against the seasoned squads from Vancouver, Portland and Brentwood.

The starting point for all races will be near Magazine Island, and will finish at the Naval Coal Dock. Progress of each event will be easily seen from the finishing point. Arrangements are being made with the naval authorities to allow the spectators to view the races from the Naval Coal Dock.

The course will be surveyed on Sunday morning, and buoys placed at the start, halfway mark and finishing point.

This year's event marks the second time that the rowing classic of the Pacific Northwest has been held at Esquimalt Harbor, it being previously held there in 1906.

The J.B.A.A. crews named last night by the boating committee are as follows:

Junior singles—Jack Crane. Spare, C. Newman.

Junior doubles—F. A. Heron and J. M. Miller. Spares, C. Newman and J. King.

Junior fours—A. H. Wills, stroke; B. Hunnings, 3; A. Wright, 2; and H. Dutchburn, bow. R. Askey, stroke, W. Norris, 3, O. Dunn, 2, and C. Smurthwaite, bow. Spares, C. Newman, J. Miller and F. Heron.

140-pounds doubles—A. McLachlan and J. Crane. Spare, J. King.

Senior singles—D. D. Moses. Spare R. Ditchburn.

140-pound fours—J. Crane, stroke, A. MacLachlan, 3; K. Darbyshire, 2, and E. Scott, bow. Spare, J. King.

Senior doubles—D. D. Moses and R. Ditchburn. Spares, F. A. Heron and J. M. Miller.

Senior fours—A. H. Wills, stroke; B. Hunnings, 3; A. Wright, 2; and R. Ditchburn, bow. J. Crane, stroke, A. MacLachlan, 3; K. Darbyshire, 2, and E. Scott, bow. Spares, W. N. Kennedy, D. D. Moses and C. Newman.

LEAGUE CRICKET IS SUSPENDED FOR ONE WEEK

No league cricket fixtures are carded tomorrow, but a combined Five C's-Albions team will oppose the British Public Schools eleven at Beacon Hill at 2:30 o'clock in an exhibition match.

Scheduled fixtures will continue next week with the Incogs playing the Five C's at University School grounds. With the completion of the first half of the schedule these teams are tied for first place.

HELEN WILLS DOWNS CAZALET

Women's Champion Defeats Crack Englishman Before Prince of Wales and Select Gallery

LONDON, July 11.—Miss Helen Wills showed a select and keenly interested gallery, including the Prince of Wales, how easily she is able to beat even a first-class male tennis player, when on a private court in the West End of London she defeated Captain Victor Cazalet, M.P., by scores of 6-2, 6-4. Captain Cazalet, former amateur squash racquets champion of Britain and a renowned tennis player, was no match for the woman champion of three nations.

HELEN WILLS

The Mail, describing the match, says she played as if merely toying with him and ran away with first five games before she allowed the captain to win two, after which she promptly ran out the set. In the second set Helen allowed the score to reach four-all before running out.

Miss Wills' opponent declared he struggled his hardest but his efforts were unavailing as "she was too good."

GEHRIG DROPPED FROM "BIG SIX"

Heinie Manush Takes Yank First Baseman's Place in Select Group—Members Have Poor Day

With the American League half of the "Big Six" kept out of action by rain National League members gave a mediocre account of themselves. Hornsby did get three out of ten in a double-header at the Polo Grounds, but his average shed two points. P. Waner got one hit, a homer, and Melvin Ott got two in two games, one his twenty-fifth homer. "Heinie" Manush, the St. Louis slugger, was included in the "Big Six" last night in the place of Lou Gehrig, whose work has fallen off. Manush with .395 is crowding Jimmy Foxx for the leadership of the "Big Six" and the American League.

VICTORIA WEST WIN BALL TITLE

Capture Second Half Honors of the Westholme League—Colonist Whitewash Colwood

Staging a batting rally in the ninth inning that netted them four runs, Victoria West scored a 19-15 victory over The Times last night at the Willows Oval in a Westholme Softball League fixture. By their win the Wests earned the right to meet Marigold, first-half winners, in a three-game series for the league championship.

Both teams played ragged ball throughout and the winners were in doubt until the last inning. The teams entered the final stanza deadlocked with fifteen runs apiece. The Times sent two runners across the plate in the first of the ninth, but the Wests wiped out this deficit in their half and added two more to capture the battle.

Y.M.C.A. gained second place in the league standing by defeating Marigold at Victoria West Park in a fast game, 4-1. Three runs in the fourth inning was the margin of the "Y" victory.

Bill Spencer's band of Colonist softballers ended the season with one of the sweetest victories of the second half by shutting out the Colwood Wood Company at Langford, 2-0. By coming through to victory The Colonist jumped out of the cellar position.

LAWN BOWLING

Yesterday afternoon the ladies of the Victoria club played their challenge match against the men, two rinks a side. The men put up two strong rinks and while one went down to defeat, the other rink had sufficient margin to enable them to win by four points. Both the skips of the ladies' rinks played an excellent game. Again and again, when the men were lying three and four points, Mrs McKeachie came in with her bowls to lie shot. Mrs Owens, the other skip, made even a better record by running the kittie or taking out her opponent's bowls with a fast shot.

The games were greatly enjoyed and to give their losing rink an opportunity to redeem itself the men challenged the ladies for a return match.

The rinks and score are as follows:

Mrs. Burley, Mrs. Huxtable, Mrs. Symons, Mrs. Owens, skip—18. Fullerton, Heywood, Button, Johnson, skip—16.

Mrs. Armstrong, Mrs. McDonald, Mrs. Cameron, Mrs. McKeachie, skip—14. Dowswell, Stewart, Dorrell, Paterson, skip—21.

M. J. M'NULTY WINS BRIGHOUSE RACE

Nine-to-One Shot Captures Trigo Handicap From Simony—Good Prices Are Returned

VANCOUVER, July 11.—Overlooked in the betting when he was allowed to start at nearly 9 to 1, M. J. McNulty, Jr., five-year-old gelding from the Rancolas Stable, again proved the best of his class in the Trigo Handicap, feature of this afternoon's card at Brighouse, when he won by a length over the heavily played Simony. Pat was third.

McNulty was taken to the front by Jockey Hughes coming down the stretch and was just able to hold off the challenge of the favorite. The winner paid $19.20 straight, $5.85 place and $3.45 show.

Outsiders figured in the money in many events and double figures were returned accordingly.

First race—Six furlongs
Zinon (Thompson) $12.00 $7.10 $3.00
Roy Friend (Owens) $7.00 $4.05
Thelma C (Craigmyle) $3.10

BOBBY JONES WILL NOT FORGET WINGED FOOT COURSE SOON

BOBBY JONES

The Winged Foot course and the national championship open tournament which just closed should prove a memorable one to Bobby Jones for several reasons. First of these, he won it. Secondly, he won it in play-off, administering the most crushing defeat in the history of such matches to Al Espinosa, who trailed him twenty-three strokes. Thirdly, he made the highest score of his championship career, when he brought home a 79 and thereby lost his chance to win the title in the regulation 72 holes.

He scored the third 75 of his record championship play. His total for the 108 holes was 335 or three over fours. Added to this, he started the tourney and finished it with rounds of 69 three under par. The greatest galleries in American golf history watched him play.

RAIN HALTS JACK BERG-PERLICK GO

National League Race Will Be a Three-Club Battle, Says McGraw

Veteran Pilot of Giants States Pirates, Cubs and Own Team Have Good Chance of Copping Bunting in Heydler's Circuit

By WALTER TRUMBULL

John McGraw

NEW YORK, July 11.—"It's a three-club race," said John McGraw, as he prepared to enter the Giant dugout at the Polo Grounds by his private door today. "It lies between the Pirates, the Cubs, and my club, and I still think we have a good chance." A business man once came from Chicago to New York, got off the train at the Pennsylvania station, took the subway to Wall Street district, walked into the basement of the building where he had business to transact, transacted it, took lunch at a restaurant in the same building, got into the subway again, returned to the station and took a train back to Chicago without ever having been on a New York Street or having emerged into the open air. McGraw can go to and from the New York clubhouse to the bench in much the same manner.

Moreover, if an umpire orders the Giant leader to depart, the arbitrator can't tell whether McGraw really has gone to the clubhouse, or whether he is lurking behind the secret entrance, viewing the game through a peephole and giving instructions to his men. This lack of exact knowledge has threatened certain umpires with something like brain fever or apoplexy.

"Which is the more dangerous club, Pittsburgh or Chicago?" I inquired.

PITTSBURGH DANGEROUS

"I have been inclined to favor Pittsburgh a little from the first," answered McGraw. "The Cubs are tough to beat in their own park, with its short boundaries, but they are not so good away from home. Pittsburgh has been getting fine pitching and it is a faster club than Chicago. Those Pirates have speed. Outside of men such as Cuyler, the Cubs are not so speedy."

Then the New York leader, who is looking well and says that he now feels well, disappeared through the private portal and I hurried up Rogers Hornsby.

"They tell me you are smacking that ball again," I said. "That is a big load off my mind, because ever since you broke into fast company I have been real worried about your batting."

"Well," said the Rajah, smiling amiably, "I hit one every once in a while. You never can tell. Some days you hit 'em and some days you don't."

"How about this baseball race?" I demanded.

"Well, I'll tell you," said Hornsby. "I think it's going to rain and I hope it does rain. If we have to play a double-header in this weather tomorrow, even Hack Wilson is apt to melt down to a lightweight. Yes, I sure hope it rains."

This was neither informative nor accurate. Anyone looking at Wilson would know he never could make the lightweight class. He has the legs of a grand piano, a waist like a safe and a chest which resembles a section of a large gas tank.

THE WILSON FIGHT

I understand that he appeared before John Heydler yesterday to explain his reasons for socking some of the Cincinnati Reds. As this bout occurred in the Chicago station, it is hard to see where a president of a baseball league has jurisdiction. It looks as if it should be referred to the railroad president. But let us return to Hornsby. I pressed him on the question of the race and his opinion was somewhat the same as McGraw's.

"It looks as if St. Louis was out of it," he said. "That leaves the Cubs, Pittsburgh and the Giants. If our pitchers hold up, we have a great chance to win. I think you'll see us win the next world's series."

Speaking of the Chicago pitchers, I sat in the press box behind Guy Bush yesterday while he was pitching in the game with the Giants at the Polo Grounds and he showed me more stuff than I have seen any pitcher display this season. This Bush has what few twirlers possess nowadays, a straight drop ball—and it's a peach. He had the Giants swinging at balls in the dirt. I have seldom seen a lot of batsmen swing at more bad balls, and they did it because Bush was fooling them. Some of the Giants missed the ball a foot.

GOLF
AS CHAMPIONS PLAY IT

The JIGGER IS USED ONLY IN THE APPROACH

When and how should a jigger be played?

Answered by
WILLIAM MEHLHORN

A jigger should be used only for approach work because of the shallow face. It is dangerous to use it for any shots, unless used when the ground is hard. It is better and easier than a mashie-iron for shots longer than a mashie.

DON MOE REACHES WESTERN SEMIS

Portland Youngster Stages Uphill Battle to Win From Ballew, Four and Three

MISSION HILLS COUNTRY CLUB, KANSAS CITY, July 11.—The uphill battle of Don Moe, of Portland, Oregon, to gain the semi-final round and the rise from comparative obscurity of Gilbert Carter, of Nevada, Missouri, to fight his way into the semi-finals were outstanding events today at the thirtieth annual Western amateur golf tournament.

Four down at the end of the morning 18 holes to Carey L. Ballew, Jr., Kansas City, the University of Oregon sophomore was as steady in the afternoon as he was erratic in the morning and won four holes in a row to and the match on the thirty-third green 4 and 3.

Carter won 2 and 1 from Lawrence Moller, of Quincy, Illinois. John Lehman, Gary, Indiana, was forced to go to the 36th green to win 1 up from A. L. "Gus" Novotny, Chicago.

Art Sweet, Chicago, gained the next to the last round by an overwhelming 8 and 7 victory over H. J. Kaiser, of Racine, Wisconsin.

Tomorrow's 36-hole semi-final rounds bring together Moe and Lehman and Sweet and Carter.

STOCK MARKET AGAIN FINDS GOING ROUGH

Price Trends Are Highly Confusing — Number of Issues Are Bid Up; Many Others Show Recessions.

CONVERTIBLE AND U.S. BONDS FIRM

NEW YORK, July 11.—The stock market again encountered rough and uneven going today and price trends were highly confusing. The bulls once more concentrated their efforts on the utilities. Firmness in call money at 9 per cent, despite persistent prediction of better credit conditions, together with what proved to be unwarranted fears of a new high record total of Federal Reserve brokers' loans, provided a background for further bearish operations. Brooklyn Union Gas was sent up 14 points to a record price, and such issues as American Waterworks, American Telephone, Consolidated Gas, American Power and Light, International Hydro-Electric, Columbia Gas and Philadelphia Company rose 2 to 8 points to new peak prices.

American Can, American Rolling Mill, Cuyamel Fruit, Granite City Steel, Remington, Youngstown Sheet & Tube, and Mathieson Alkali rose about 2 to 7 points to new highs, although all gains were not maintained. Midland Steel Products preferred was a spectacular issue, soaring about 18 points to a record price. A few of the rails were strong.

Radio was again depressed, dropping about 2 points to a new low for the movement at 76 1-8. Atlantic Refining, which has been steadily advancing of late, fell back 5 points. Allis Chalmers, Burroughs Adding Machine, Columbia Graphophone, Dupont, Johns-Manville, Cutler-Hammer and Snider Packing preferred lost about 3 to 8 points. Coppers generally settled a couple of points and motors were soft.

Foreign exchanges were inclined to ease. Sterling, after a drop of 1-16 of a cent, cut the loss in half and closed at $4 85 3-32. The Canadian dollar held at 99 1-2 cents.

Strength of the U.S. Government securities and of convertibles featured the bond market today.

Latest News From Wall Street

(Branson, Brown & Co., Ltd.)

Washington.—Alfred P. Sloan, Jr., president of General Motors Corporation, before Senate Finance Committee with Alvin McAuley, agreed that a 10 per cent duty would not injure the industry. He declared General Motors had no intention of importing into this country cars if made in foreign countries. In answer to Senator Couzens he said it was impossible to make a car in Germany and sell it in South America against American competition.

American Car & Foundry—W. H. Woodin, president of American Car & Foundry, said at the annual meeting: "I expect American Car & Foundry to have good first half-year. The importance of the O'Fallon decision does not in my opinion seem to have been fully appreciated. As one of its results I expect there will be a stimulation of interest of the railroads in buying new equipment." Directors re-elected.

While motor car companies are taking most of the credit for the increased consumption of gasoline, which is running currently 15 to 20 per cent higher than at the same time a year ago, aeronautical interests point out that much of the increased use of gasoline can be accounted for by the larger number of aircraft of all kinds in operation compared with a year ago. Since January 1 it is estimated that 1,500 new commercial planes have been placed in operation in the United States, with the expectation that close to 3,000 more will be added to existing services for industrial and passenger carrying activities in the present year.

Purchase of the larger part of the interest of John N. Willys in the Willys Overland Company by a group of Chicago and Toledo financiers was made as an investment, although with a speculative tinge. There are no thoughts of any imminent merger with other automobile companies despite rumors that the $25,000,000 deal with Mr. Willys was the forerunner of a big combination which would include the Willys Overland, Packard Motor Car and Nash Motor Company.

Bank of England made no change in its rediscount rate of 5½ per cent.

Production of can manufacturing companies in first half of current year was far in excess of what it was in same period of last year.

Second quarter copper company earnings will soon begin to make their appearance and some of the showings should be better than returns in first quarter.

Illinois Central ordered five 600-horsepower oil electric locomotives from Ingersoll Rand Company and General Electric.

United Corporation of Delaware net profit from January 8 to June 29 was $3,435,500 after interest and Federal.

Hornblower & Weeks—Standard Gas & Electric is being accumulated again by those most familiar with the company's prospects and it is now being rumored that this company will sell some of its important subsidiaries at a price that will justify $160 a share on the present Standard Gas & Electric stock.

J. S. Bache & Co.—With steel news continuing highly encouraging for this season of year, it is our view that holdings in Bethlehem Steel should be maintained for substantially higher levels in the not distant future.

CHICAGO WHEAT TRADE ERRATIC

PRICES FLUCTUATE RAPIDLY WITHIN RANGE OF FIVE CENTS

Advance Swift Following Aggressive Commission House Selling—Market Still Trends Upward

(B. C. Bond Corporation, Ltd.)

CHICAGO, July 11.—The market was a decidedly erratic affair today with prices fluctuating rapidly within a range of five cents. There was general selling early on the theory that the market had fully discounted the bullish government report, and prices declined rapidly with many stop loss orders caught on the way down.

Fair support developed around 123 for September and local shorts covered. Later there was a sensational bullish array of crop reports, and prices advanced quickly when aggressive commission house selling developed.

Heavy rains in Kansas, with some sections receiving as much as seven and eight inches, and continued drought in the Northwest, suggested heavy losses in both sections.

The report from Washington that damage to crops later than July 1 was not figured in official estimates also had considerable effect on sentiment. Winnipeg messages said the government report was generally construed as suggesting a crop of around 350,000,000 bushels. Forecast was for thunderstorms over entire grain belt. A good export demand was reported in the Southwest. The market's trend still appears upward.

Money at Work

Earning—Saving—Investing

Don't be afraid to—
show your ignorance.

The inexperienced investor is sometimes a bit bewildered by the mass of technical terms used in describing some security which he contemplated buying. Perhaps some of the provisions do not sound exactly right to him but rather than appear ignorant enough to question his banker about them he says, "Well, I suppose it's all right," and lets it go at that.

Your banker does not expect you to be conversant with all the technicalities of his business any more than you would expect him to show complete knowledge of your business. But the important facts and considerations of a sound security can always be made clear to an intelligent person, and every investor should satisfy himself on every point before making an investment. In other words, the use of common-sense applies in investing as in everything else and your banker will respect you all the more if you are eager to ask questions and learn the important points about the security you are buying.

Mining News

(H. E. Hunnings & Co., Ltd.)

Waite—Great interest is attached to the results of the present diamond drill hole. It is spotted 100 feet southwest of the last one to encounter ore and, if it hits, will indicate another 100 feet in length of the new ore. Results should be obtained this week, says our field man. Press reports say No. 6 hole got twenty-seven feet of ore.

Premier Gold has just distributed a six-cent dividend involving $300,000 and bringing total paid to date up to $13,750,000, all since December 31, 1921.

Rhyolite—It was as part of Noranda's programme of acquiring all producing and probable producing territory in the district that led to the acquisition of 60 per cent interest in the Rhyolite property for $35,000 cash. Its chief merit lies in the possible extension on strike of the new Waite ore.

Working force of Hudson Bay Mining & Smelting at its development estimated at 1,600 men. Part of Island Falls' copper dam is now completed, power plant will be ready by end of Summer and machinery will go over Winter roads.

Treadwell Yukon, at Sudbury will be on a profitable basis, according to the statement of President F. W. Bradley, at San Francisco. Company's two other properties in Yukon and Nevada now show combined profit at rate of $2,000,000 yearly.

Fire last week in the pulveriser department of the Noranda smelter shut off the smelter production for three or four days, and will cause some curtailment this week. Beyond the loss of production, damage was small and no one seriously injured. The mishap did not prevent June making a record output. July output will probably be impaired somewhat. Underground developments are reported as being splendid. Diamond drills are locating ore in new and unexplored places and officials are wondering now just how big the Horne mine is going to be.

Granada—Three hundred feet of ore length is reported on the 525 level now. The officials are more optimistic than ever. It seems that the gold values are all, or nearly so, contained in a small stringer of coarse native gold. This makes it very difficult to sample, but the officials are fairly conservative. The ore is supposed to be opening up on three levels now.

Yakima Shoshone Company has made a strike of high-grade silver ore on the Nellie group, south of Osburn, Idaho, which is under lease and option. The same property is being explored at deeper levels by the Silver Summit tunnel driven by the Stratton's organization, which has an easement through the Nellie ground to reach adjacent territory in which it is hoped the eastward extension of the Sunshine vein system will be picked up.

Control of the Marsh Mines Consolidated, a responsive property at Burke, Idaho, passed to the Hercules Mining Company on Monday, according to official announcement from Wallace, Idaho.

Pend Oreille Mines and Metals Company will shortly start construction of a 200-room hotel at Metaline Falls to accommodate workmen employed in building the $5,000,000 electrolytic zinc plant and concentrator. Milwaukee Railroad is prepared to extend its Metaline Falls branch to the mills site across Sullivan Creek.

Consolidated Copper Company is being formed to operate the Blue Ledge mine near the Oregon-California line south of Medford, control of which was recently relinquished by the American Smelting & Refining Company.

OILS

Southwest Pete made thirty-three feet of new hole during last shift. Now at 4,399 feet.

Royalite 19 has made two feet of new hole following six weeks of trouble from lost tools. Now at 4,524 feet.

Foothills No. 2 made another four feet of hole. Now 177 feet in the lime at 4,534 feet.

Calmont No. 2 continues fast drilling on Dallas lease and now at 2,240 feet. Calmont No. 4 at 1,410 feet. Calmont No. 6 at 400 feet. Calmont No. 5 well will spud in Saturday in north end of the field. Twenty-two feet of new hole has been made at Calmont No. 1, and cellars are being dug for two more wells on the Dallas lease.

Freehold No. 1 is at 2,610 feet. Freehold No. 2 is down 1,100 feet.

Madison—Officials report 70,000,000 feet of gas at 1,637 feet and will drill to 1,850 feet, where they expect 20,000,000 feet or more. This property is located on Beaver Dome near the boundary.

STOCK TRADING IS DULL AGAIN

IN FEW QUARTERS ONLY IS BUSINESS BRISK AT TORONTO

Home No. 2 Recovers After Temporary Drop—Mines Show Slightly Stronger Tendency

(Stobie, Forlong & Co.)

TORONTO, July 11.—The Toronto Standard Stock and Mining Exchange was dull again today. In a few quarters brisk trading took place. There was nothing bullish on today's news to influence either the mines or oils.

Reports that Home No. 2 had temporarily frozen over came simultaneously with a downward movement in this stock. Later, as it was heard that the well had resumed 35 per cent of its former production and that the incident would have no permanent effect on supply, there was a tendency to buy back, and the stock recovered to $21.80 or one dollar below yesterday's close.

A.P.C. apparently moved in sympathy with Home and closed at $3.50, 25 cents off.

Associated dropped 10 to $4.40. Field reports say that the company's No. 1 well has reached the last lap and observers say that drillers are within forty-eight hours of production.

Ajax traded steadily around $2.20 before a last minute advance to $2.28, a net gain of 7 points.

C. & E., Dalhousie and Southwest Petroleum were slightly softer.

Mayland gained 15 points to $8.75.

Wainwell was a long trader and at mid-session showed a strength to two cents high, before easing to 38 1-4 cents, a net gain of 4 3-4 cents.

Other oil stocks were very steady.

Mines show a slightly stronger tendency and included Pend Oreille, Sherritt, Teck Hughes, Ventures, Mining Corporation, Howey, Falconbridge and Dome.

Sudbury Basin dropped 35 to $8.75.

Noranda lost an early gain of 45 and closed at $59.40, a net loss of 5 points. Big Missouri was up 4 to $1.50.

Today is perhaps the first session in recent days to show a slight revival in strength in the mining market. In view of the fact that no bullish news was forthcoming during the day it is thought that generally sound conditions prevail.

DECLINES IN OILS FEATURE TRADE OF DAY

Home Oil Recedes to $21.60—Royalite Drops to $140—General Tendency Is Downward

MINES ARE STEADY; SALES TOTAL SMALL

VANCOUVER, July 11.—Further declines in the oil issues and a lessening in trade volume featured the operations on the market today. The mines were also dull.

Home Oil opened with an overnight loss of $1.15 and rapidly sold down to a low of $21.60, with the closing bid $21.55, a net loss of $1.60.

Alberta Pacific Consolidated, closely related to Home Oil, also came under heavy pressure, the two market leaders being the main traders during the session. Starting 18c weaker at $3.65, Alberta Pacific dropped back to close at $3.56, a net loss of 27c. Calmont fell back 12c to close at $3.65. Royalite lost $5 at $140. Illinois Alberta and New McDougall were the strong issues, gaining 5 and 10 cents respectively. The balance of the oil list ranged from steady to 10c lower.

In the mines, George Copper was the strongest issue, selling up to $10.70 and closing 70c firmer at $10. Big Missouri was strong in the early trading, but eased later, finishing 2c up at $1.46. The balance of the list was generally steady.

Whitney Letter

(Branson, Brown & Co., Ltd.)

NEW YORK, July 11.—Whitney, of the Wall Street Financial Bureau, today says: As advised yesterday, the utility group has completed its reaction, as have the major portion of the low-priced rails, and the former group has clearly indicated this by providing the feature of today's market. Believe that in the course of today's market, the food products group completed its minor reaction, and that the steel and copper groups did likewise, so that we have to look forward to the initiation of group advances in these as well as a continuation of the advance in the utilities. The street has accepted it as a foregone conclusion that the statement on broker's loans will disclose that these borrowings are at a new high record. Since this has been anticipated, confirmation of the belief through publication of figures, will provide no market factor which has not been thoroughly taken into consideration, and consequently, with the statement out of the way, I look for a generally strong and higher market tomorrow and over the week-end.

Just as the Morgan-sponsored United Corporation provided the leadership for the utility group today, look for Fleischmann, similarly sponsored, to provide the leadership of the food products group tomorrow, and recommend its purchase at or under its previous high, likewise the purchase of Corn Products below 105, and Penniek & Ford below 00. In the utilities, continue the purchase of North American Company below 150 in anticipation of a 25 and possibly a 50 point advance. Holdings of Standard Gas & Electric should not be sold until the stock approximates 150, while Pacific Gas & Electric can be purchased any place below 70, and American & Foreign Power within the range of 120-125.

In the steel group, continue to buy U.S. Steel below 200 and Bethlehem Steel below 118. In the coppers, Anaconda below 150. Believe traders are justified now in taking profits in American Can around 160. Selling in Columbia Graphophone inspired by weakness in Radio is ill-advised, the stock is a purchase.

Curb Securities—With the utilities on the move again would direct attention to International Utilities "A." U.S. Finishing six months earnings statement is expected to show close to $18 a share for the first half year. In addition, balance sheet will disclose that excess cash was utilized on July 1 to retire almost an even half of the company's bonded debt. Despite the advance recorded thus far, can see no reason why the stock cannot be characterized as still exceptionally cheap.

MORNING START OF WHEAT WEAK

TRADE SENTIMENT MIXED WITH REGARD TO CROP REPORTS

Good Inquiry From Mills for Certain Grades in Cash Market—Coarse Grains Higher

(Branson, Brown & Co., Ltd.)

WINNIPEG, July 11.—Wheat started off weak this morning and prices broke from 3 1-4 to 2 1-8 under the previous close during the first hour. Trade sentiment with regard to the two crop reports was decidedly mixed and while the larger interests construed them as bullish, there were many of the opinion that they were less bullish than private reports had indicated. There was heavy liquidation of long wheat and some short selling early which found rather poor support with no export business over night or this morning.

Later in the day there were some extremely unfavorable reports coming in from many districts of the Spring wheat territory, both sides of the line and this combined with reports that ruinous rains had fallen over the largest part of Kansas delaying harvest operations and severely damaging the crop brought in heavy buying from all directions except from abroad, and prices made a sensational recovery of over four cents from the bottom.

In the cash market there was a good inquiry from Canadian and American mills for certain grades, but holders were not interested at present; spreads and offerings were very small resulting in a curtailed business. There was also a better demand for three durum and lower grades. Spreads on top grades were again unchanged, but the lower grades were 1-2 to 1 cent better.

The Canadian Government did not estimate the yield, but gave conditions on the last ten-year average. The condition for the three Prairie provinces averaged 88, which worked out on average yields for past ten years indicates a wheat crop of 315,000,000 as compared with 540,000,000 last year.

The American report estimated a total yield of all wheat of 833,000,000 against 903,000,000 bushels last year. There was a heavy rain in the Edmonton district and a few little showers in Northwest Alberta, also in Manitoba. Saskatchewan received no moisture, while temperatures were very high, from 90 to 96 at many points, which means the crops are suffering, especially where moisture is badly needed. Temperatures are higher in the West again today with some thunderstorms predicted. Look for higher prices and advise purchases of wheat on all moderate setbacks.

Coarse Grains—All higher at the close, largely in sympathy with wheat.

Flax scored a big gain to close 7 1-2 to 7 3-4 up. Business small. Crushers showing interest, but supply very light.

AT HOME OIL NO. 2

VANCOUVER, July 11.—"There is nothing serious in the situation at Home No. 2 well," said George S Harrison, secretary of the Home Oil Company, today, in connection with a report that No. 2 had become frozen. "At the worst it is a temporary choking of the well which might last a week, or, at the outside ten days.

"We can at any time use the diamond drill and remove the material which has caused the choking, but the usual method is to apply back pressure to neutralize the pressure below and attempt to break up the plug that way. If this fails the diamond drill will be moved back on the well and applied.

"Our casing at No 2 is in perfect shape eliminating any possibility of serious trouble, and it might be pointed out that choking is an ordinary difficulty and one that has often been threatened in this well as in No 1 well.

Berry Processors Take Out Incorporation Papers

Company Registered for Purpose of Dealing With Surplus Berries—Other Incorporations on Island—Mining Companies Active

This week's B.C. Gazette contains notice of the incorporation of Berry Processors, with headquarters in Victoria, and a capitalization of $10,000. This company is the one that has been called into existence by the berry growers of the province for the purpose of taking care of the processing of surplus berries produced this year. Somewhat extensive powers are given the company in the matter of carrying out operations for the taking care of the fruit in a variety of ways if required.

Pacific Transfer Company (Victoria), of Victoria, $50,000, is incorporated to take over the business conducted by H. K. Perry; Independent Insurance Agencies, Victoria, $10,000, and Intermountain Building and Loan Association of Canada under the Savings and Loan Association Act have all been incorporated.

On Vancouver Island there has also been incorporated this week the following: Gulf Islands Transportation Company, Sidney, $50,000, to take over the business carried on by Mr. J. Y. Higgs; John A. Hirst Transfer Company, Parksville, $10,000.

The Mainland incorporations were as follows: Granville Estates (No. 8), Vancouver, $400,000; Hartford Manufacturing Company, Vancouver, $100,000; Home Coal Company, Vancouver, $10,000; Kanorley Oils of Calgary with headquarters in B.C. in Kamloops, and $41,675 paid up capital; Pacific Oil Refineries, Vancouver, $100,000; Quesnel Light and Water Company, Vancouver, $40,000; Security Underwriters, Vancouver, $25,000; Telkwa Holdings, Vancouver, $100,000; Vancouver Outboard Motor Club, Vancouver, under the Societies Act; Western Mercantile Company, Vancouver, $20,000; Western Pacific Insurance Agencies, Vancouver, $10,000.

The Mountain Boy Mining Company, with headquarters in Montreal, has been given a registration as an extra provincial company with headquarters for the province in Vancouver with Mr. S. W. Taylor as attorney for the company. The capitalization is $3,000,000.

Regal Silver Mines, of Vancouver, incorporated as an extra provincial company is given registration as such.

Ticker Forecast

(B.C. BOND CORPORATION, LTD.)

NEW YORK, July 11.—With all the profit taking Union Pacific practically lost no ground and is holding all the gains it made in the recent advance. Recommended by us on many occasions in the last several weeks, Union Pacific justified our expectation and recorded a good gain during the first period of its advance. The fact that the profit taking which was in evidence during the last four or five days did not produce a setback in the stock indicates that a new movement is near at hand. As we have frequently pointed out, Union Pacific is worth considerably more than any price it reached in recent years. Even at $300 per share Union Pacific would not appear overvalued. The growth of its own earnings and the appreciation in value of its holdings will easily warrant a price of 300 for Union Pacific. Neither will it take much time for this stock to make the new levels. We consider Union Pacific an attractive purchase today.

Manhattan modified guaranteed—A law suit filed by minority stockholders of the Manhattan Elevator Railway Company modified guarantee stock demands payment of back dividends on this issue. The demand is based on the idea that when the Interborough Rapid Transit demanded a deposit of the old 7 per cent stock it assumed the obligation to pay all dividends on the modified guarantee. It did pay from 1923 to 1927 but has not paid anything since. Accumulations today are approximately $10 per share. While the filing of a law suit does not mean immediate payment or even an offer to pay by the Interborough, it nevertheless places the issue squarely before the companies involved and a decision should be much sooner than had things been left to drift. The stock has not done well since the Interborough lost its law suit demanding a seven cent fare. It is now selling within reach of the low levels of the year, and even if only half of what is due should be paid on the stock, a speculation with good prospects and those who are willing to hold this issue until a court decision is made should reap substantial benefits.

Union Carbon & Carbide—Union Carbide reacted somewhat during the selling wave yesterday, but quickly picked up the moment pressure was lifted from the list. The position of Union Carbon is highly satisfactory, and with all the gains the stock made in the recent months, it still retains considerable room for further expansion. The advance, of course, placed Union Carbon in a more speculative position with risks considerably greater than they have been heretofore. The prospects are still satisfactory and buying this stock during selling flurries should bring additional profit.

The unsettlement anticipated by us developed on schedule, but the market proved itself strong enough to resist the attempt to demoralize the entire list. Repeated attacks on leaders like Steel, General Electric, Westinghouse, etc., made a comparatively small impression on the market and the real vulnerable point proved Radio, but even here short covering was so hasty that it proved that the bears were not certain of their ground. Anticipating a substantial increase in brokers' loans today, further attempts to unsettle the list will be made, and here and there the attempt will be successful. The undercurrent, however, is still on the up side and the bear crowd will experience considerable difficulty in changing the trend. It is therefore advisable to hold aloof from selling the market. Profit taking is warranted in individual cases, but we still believe that it is worth while retaining one's position on issues that have been tried and have proven themselves strong enough to resist the selling. Practically the entire steel group is in such a position, while the rails are in fact in an improved state, having absorbed considerable profit taking without yielding ground.

Rumors are being circulated that the Bank of England intends to raise its discount rate. The news should be known early at the opening of the market here and therefore not affect the market to any extent. Even if it is increased, we are certain that the Federal Reserve Board here will not follow the example. Credit conditions are easing up and this is best evidenced by the declining tendencies in term Monday. In the last few days large bond issues have been placed in the market, carrying a comparatively low yield and no additional attractions in form of conversion or stock purchase warrants. The market nevertheless absorbed these offerings with ease, indicating anticipations of lower money rates. With these prospects in view the market operators should not overlook the bond list which may not offer spectacular profits, but will assure an attractive yield.

American Rolling Mills moved up to new high levels yesterday, but subsequently fell under the profit-taking spell. The stock was readily taken on declines and apparently has now a good power. Being a newcomer, American Rolling Mills is still hesitating in its movements and the gains recorded so far have been rather moderate. The long-range prospects of this company are highly satisfactory and with time the stock should sell much higher. It is a buy at the market and particularly attractive on all minor setbacks.

Western Union is holding well its recent gains and should have no difficulty in absorbing the profit taking which usually develops after a substantial rise. We consider Western Union as being still undervalued. On the basis of earnings the stock should sell close to $240 and even then it will sell at only about fifteen times its earnings, whereas many other utilities, even those operating in its own field, are selling at a considerably higher ratio. We advise additional purchases of Western Union.

Borden Company crossed $100 yesterday and was called upon to absorb considerable profit taking around this level. Additional profit taking can be looked for, but we believe that Borden's position is so satisfactory that no amount of profit taking will check the forward movement in the stock. While Borden is by no means undervalued, the company's commanding position and its continued expansions assure not only increase in earnings, but also appreciation in the market value of the stock. After the profit taking around $100 is completed, Borden should resume its advance and sell higher. We advise utilizing profit taking for accumulation of holdings.

Western Pacific has not done much in the recent market and is not expected to spurt up all of a sudden. The road is now in the midst of a broad expansion programme which will require considerable expenditures, and these will have to be charged to operating costs. It is a stock with a long pull and those interested in a promising railroad issue for a period of several years will probably have no opportunity to buy much cheaper than at the price at which it is obtainable today. It is recommended for a long term speculative holding.

Wall Street Journal

(Branson, Brown & Co., Ltd.)

NEW YORK, July 11.—Bullish enthusiasm was renewed today by spirited buying activities in the utility group. Considerable significance was attached to the conspicuous strength of the leaders of this class, particularly United Corporation, the Morgan holding company.

Brooklyn Union staged a sensational up rush into record territory and Consolidated Gas reached new high ground for the present shares, strengthening the belief that a consolidation of the two concerns was imminent. Columbia Gas and Standard Gas also reached the best levels of the current advance.

While the principal industrials generally moved in a narrow range, this class was not without its buoyant features. American Can reached its best price since the four-for-one split-up in 1926, helping to offset persistent selling of Radio Corporation, which broke to a new low on the movement, and the automobile shares, notably General Motors.

Chesapeake & Ohio stood out in the railroad department, soaring to the highest price of its history, above 250.

Money from out of town flowed into Wall Street in good volume.

General Asphalt advanced to within striking distance of the year's high of 87 3-8, on buying based on estimates that the year's earnings would be close to $10 a share.

Big Bond Issue Soon

NEW YORK, July 11.—A banking syndicate will soon offer for public subscription an issue of $25,000,000 Canadian International Paper Company first mortgage 6 per cent gold bonds, due in 1949.

The Canadian International Paper is a subsidiary of the International Paper & Power Company.

Development of the Canadian Company, together with the acquisition of new properties has been financed in the past by the parent organization and the proceeds from the sale of these bonds will be used to repay a portion of the advances made by the International Paper Company.

In 1832 when Toronto was York — Montreal but a merchant settlement — the West a few trading posts, and the windmill marked the birth of Canadian manufacturing

CAPITALIZATION: 1,000,000 Shares, No P

SUCCESSFUL results in the Turner Valley have demonstrated the great pos tion of naphtha and crude oil in the highly folded foothills structures in Alberta. lected oil companies operating in this area offer, in our opinion, the most attractive speculative opportunity today. Recently, discoveries in Turner Valley have centred the attention of the world on the oil possibilities of Alberta. At the present time Turner Valley is producing in excess of 3,000 barrels per day, giving high-grade petroleum products ranging in value from $3.00 to $4.00 per barrel. The proving of single wells with productive capacity in excess of $1,000,000 yearly has greatly enhanced the value of stocks of favorably situated companies. The greater part of this production is a high-grade naphtha which is encountered in a porous horizon at a depth of from 50 feet to 250 feet from the top of the Madison dolomitic limestone. In Turner Valley the depth to this producing horizon is from 3,700 to 6,000 feet.

The success which has attended companies operating in Turner Valley has brought the attention of oil operators to other foothills structures. Exhaustive exploration of these structures, long known to geologists, is now assured. Of all these foothills folds, the Waite Valley and Highwood structure is probably the most important, both in size and possibilities. It is a broad complex anticlinal fold extending over a wider area than the Turner Valley anticline, but having, in general, the same major and minor structural features. Despite its proven richness, Turner Valley, which covers but a small section of Alberta's oil resources, may prove of secondary interest tomorrow.

We have selected **INNERFOLD OILS LIMITED** from the many opportunities offered us to finance companies, and, in view of its favorably situated acreage, capable management, assurance of competent drilling and ample finances, offer it as an outstanding speculative opportunity.

PROPERTY HOLDINGS—Innerfold Oils Limited holds leases on 1,240 acres in Waite Valley. This acreage has been carefully selected and lies in five blocks so distributed as to profit by the successful completion of any well on the entire structure. There are several other wells prepared to drill in Waite Valley at present, each one of which will prove a block of Innerfold acreage if successful. The company also holds 2,560 acres of oil leases at the south end of the Highwood structure. This acreage is all in one block and is adjacent to the hr tie well drilled by the Imperial Oil several years ago, before the existence of the productive limestone was known. Crude oil was struck at 2,610 feet and again at 2,700 feet. The well was started with a very small hole, and when it was lost at 3,000 feet there was 2,000 feet of oil standing in the hole.

PURCHASE WARRANTS—The especially attractive feature of this issue is that each share of stock carries with it a Purchase Warrant which entitles the holder to purchase from the treasury an additional share at a price of $2.00 on or before June 30, 1930. These are bearer warrants and the time of expiration may be extended at the discretion of the directors. When commercial production is reached the warrants should be very valuable.

CAPITALIZATION—The company is capitalized for 1,000,000 shares. Of this, 350,000 shares are held in escrow for the vendors and 100,000 shares have been purchased for cash by the officers and directors. The 200,000 shares now offered constitute the only public issue. Of the remaining 350,000 shares in the treasury, 300,000 are reserved for subscription under the Purchase Warrant provisions as outlined above.

MANAGEMENT—The management of Innerfold Oils Limited is in the hands of men largely responsible for the present prominence of the Turner Valley field. Management is of paramount importance in the affairs of any company, and particularly of companies engaged in the production of oil. We call particular attention to the able and successful group of Vancouver business men who compose the directorate of the company. Their record of achievement commands confidence in any enterprise they sponsor.

FINANCES—Innerfold Oils Limited is fully financed to carry out its drilling obligations and is fully prepared to develop its property to secure and produce all oil and gas therein according to the most economical and best oil field practice.

DRILLING PROGRAMME—The location of Innerfold Oils No. 1 Well is in L.S.D. 2, Section 6, Township 20, Range 3, West 5th Meridian. This well is considered to be ideally situated as the best possible test of the Waite Valley structure. Drilling will start in the Dakota formation and the Madison limestone should be reached at a depth of approximately 3,500 feet. This is much shallower than the same horizon in Turner Valley and will materially reduce drilling costs. All the equipment has been purchased and is now being moved to the drilling site, and drilling will commence on or before August 1. The company has contracted for the sale of all production at prevailing market prices.

A large scale map showing the company's holdings and containing a list of wells in the Turner Valley, Waite Valley and Highwood area will be gladly furnished upon request.

A CHARMING HOME
With Beautiful Garden and Tennis Court

THIS PROPERTY is in a very secluded and sheltered position, and contains a little over an acre of ground. The house, approached by a driveway, is well built and in excellent repair. On the ground floor are dining-room, drawing-room and den with fireplaces; also two good-sized bedrooms and bathroom. Upstairs are three additional bedrooms, also a wash basin and toilet. The kitchen has gas as well as coal range. This is a particularly bright and sunny house, all rooms being of good size and well proportioned. It should appeal strongly to a lover of the country, being yet within easy access of town. The grounds are well laid out with flower beds, vegetable garden and shade trees, and is a very picturesque spot. Taxes are only $48 a year. The price of $8,500 we consider very reasonable.

UPLANDS WATERFRONT — A choice piece of property, containing nearly an acre, for only $2,850. This is less than half the price asked for adjoining lots, and is a great bargain. Terms if desired.

STOCK PRICES MOSTLY EASIER

FEW INDIVIDUAL ISSUES SHOW BETTER FORM ON UPSIDE

Aggressive Buying Operations Eliminate Irregular Tendencies—Some Substantial Recoveries

NEW YORK, July 11.—Prices in the majority of cases were a little easier at the start of trading today on selling which was probably induced by fears of a sizeable increase in brokers' loans statement to be released this afternoon. A few individual stocks showed better form on the upside, such as Remington Rand, Eastman Kodak and Gold Dust, the latter stock recording a new high level price later in the session. Merger possibilities of Gold Dust have recently attracted a strong following to the stock and have resulted in steady price appreciation. A number of the recent market favorites, such as General Motors, Radio, and Columbia Graphophone were forced to withstand heavy pressure a good part of the day. Toward the end of the second hour aggressive buying operations served to eliminate some of the irregular tendencies throughout the list.

Recoveries of a substantial nature took place in a number of the leading industrial issues, such as American Can, Westinghouse and General Electric. However, the utility shares monopolized a large portion of the afternoon trading and a number of issues in this group staged sharp upturns. Brooklyn Union and Consolidated Gas both reached new high levels on persistent merger talk, while National Power & Light, Standard Gas & Electric and others advanced quickly.

Copper stocks remained quiet with some of the issues in the group a little lower. Oil shares were mixed. Atlantic Refining was very heavy throughout the day. The statement by interests close t othe company indicated that earnings for the first half of this year would not approximate the amount originally estimated provoked a goodly amount of liquidation and sent the issues in this group downward. Trading for the most part was colorless, and had a little action on the rest of the list. Money renewed at 9 per cent and remained at that figure throughout the session. Additional selling in the closing dealings of the session tended to give the list a further irregular appearance. However, we are of the opinion that the buying side on declines appears to be the more attractive one at this time.

RAILWAY WILL BE SOLD AT AUCTION

Canadian National Railway May Be New Holder of Central Vermont Railway Company

ST. ALBANS, Vt., July 11.—Announcement of plans for the formation of a new Vermont Corporation to take over the property of the Central Vermont Railway Company after the sale of the property at public auction here on July 29 is made by Receiver John W. Redmond. Present plans, Judge Redmond said, call for the creation of an operating company to be known as Central Vermont Railway, Inc.

It is not expected, the statement further says, that there will be any bidding at the auction except the principal creditors, the Canadian National Railway. The required legislation has been passed to enable the Canadian National to own the stocks and bonds of the new company, and, if the Central Vermont Railway property is purchased on July 29 in behalf of the Canadian National, that company will occupy substantially the same relation to the new company that it has for years occupied in respect of the old Central Vermont Railway Company, that is the new company will be a subsidiary of the Canadian National Railways.

Nanny Subdues Bill

BANFF, Alta., July 11.—"Old Bill," veteran warrior goat, who has been alone and unchallenged champion of the goat enclosure of the wild animals in the paddock here, is subdued—bearded in his den by a nanny. In an effort to brighten his life the local park wardens caught a wild nanny Rocky Mountain goat and her kid, and after allowing them to become accustomed to their new surroundings, placed them in the corral with "Old Bill." Taking the initiative the nanny proceeded to clean up on her mate, and now he is a meek and different goat.

The time used is Pacific Standard for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the table, the tide rises or falls continuously during two successive tidal periods without turning.

The height is in feet and tenths of a foot, measured from the average level of low water.

To find the depth of water on the sill of the Esquimalt drydock at any tide add 18.9 feet to the height of high water as given above.

To find the depth of water on the sill of the Songhees drydock add 30 feet to the height of high water as above given.

Marine Notes

The Princess Norah sailed for West Coast points at 11 o'clock last night, taking out a list of seventy-five tourists and a capacity cargo of freight. She will return in seven days' time.

Docking here at 10.30 o'clock yesterday morning, the Canadian Seigneur commenced loading 250,000 feet of lumber for Eastern Canadian ports. She is expected to clear for sea early this morning.

The Canadian Winner docked from Eastern Canadian ports at an early hour this morning to discharge 150 tons of freight before proceeding to Vancouver, for which port she has nearly 3,000 tons of freight.

The Vulcan City is reported due this morning from Chemainus to load 500,000 feet of lumber for Atlantic seaboard ports. The Gro is also due this morning to load 400,000 feet of lumber.

The Ruth Alexander docked from California ports at 3 30 o'clock this morning to debark nearly 100 passengers and discharge ninety-five tons of freight before proceeding to Seattle.

OPIUM RING HEADS KNOWN TO CUSTOMS

Officials Say Mrs. Ying Would Have Received $23,000 If Narcotics Had Been Smuggled Through

CHINESE PAPERS ASK FOR REDRESS

SAN FRANCISCO, July 11.—Ramifications of a purported international opium smuggling ring were being traced by Government officials here today as they awaited instructions from Washington regarding Mrs. Susie Ying (Kao), wife of the suspended Chinese vice-consul here, in whose baggage a fortune in opium was found last Monday.

Investigators last night announced that "incriminating evidence had been found in Mrs. Ying's personal baggage, which was opened after the opium had been found. This was said to have implicated "a high official" in the Chinese consulate here.

United States Attorney George J. Hatfield said only Mrs. Ying's quasi-diplomatic standing had prevented her arrest thus far. He said he expected instructions from the Department of Justice today on Mrs. Ying's case. Investigators declared they had found "indisputable proof of Mrs. Ying's culpability" in her personal baggage. She has insisted that she was unaware of the presence of opium in her trunks and that she had been made the dupe of smugglers.

Federal officials also said they had learned that Mrs. Ying would have received $23,000 if she had been successful in getting the opium past the customs inspectors here. They declared that prominent Chinese of San Francisco and Honolulu as well as others in China have been implicated and that the names of the ring's leaders were known to them.

John Smith, Government agent, declared last night that the price of opium here had soared $50 a tin since the disclosures.

Resentment against Mrs. Ying Kao ran high in the Nationalist circles of Chinatown. Chinese language newspapers printed an appeal for a mass meeting "to make amends for this insult offered the American people by one of our own race."

Coast-to-Coast Passenger Air Service Planned

NEW YORK, July 11.—The United Aircraft and Transport Corporation and affiliated companies have announced formulated plans for an all-air system of passenger travel from the Atlantic to the Pacific.

The new coast-to-coast system, which will be formally opened on October 1, will be approximately 3,000 miles in length from New York to San Francisco, all but 400 miles of which is now open to passenger travel.

The route from Cleveland to New York will be completed as soon as a New York air terminus has been selected.

The elapsed flying time from coast to coast will be about thirty hours.

The United Company is making survey flights for a new passenger line from Seattle to Juneau, Alaska, which, when completed, will give an air passenger line from Alaska to New York by way of San Francisco.

The New York to San Francisco route, by way of Chicago, will be over a 3,000-mile lighted airway, over which passenger planes will fly both day and night.

Associated with the United in the plan are the Boeing Aircraft Company, the Boeing Aircraft Transport, the Chance-Vought Aircraft Company, Pratt and Whitney Aircraft Engine Company and the Stout Air Lines.

"All Our Routes Are Scenic"

NANAIMO

The "hub" of the Island. As the steamers arrive from Vancouver the depot of the Vancouver Island Coach Lines gradually assumes the state of a beehive. Here, there and everywhere the passengers and baggage are handled with a dispatch and courtesy unexcelled in any country.

And the stranger within our gate asks: "Where are they going?"

Port Alberni, en route through the finest timber which fills logging companies with delight or envy.

Cameron Lake with its beautiful chalet, where accommodation may be had to suit the most fastidious, and campers also find their wants attended to—then on to the Port. This busy spot is the lumbermen's retreat on the West Coast and is well worth a visit, particularly to those who have been before, to note the rapid growth of this enterprising city.

Sproat Lake, its salmon hatchery and lumber mills, all are reached by our network of coach lines

SEASON OF SHAW IS BIG DRAWING CARD

International Interest in the Plays Arranged for the Malvern Festival

LONDON, July 10 (By The Canadian Press)—"Miss Edith Evans will take the part of the King's Favorite in Mr Shaw's play, 'The Apple Cart,' the first English performance of which will open Malvern Festival on Monday, August 19," says The Sunday Observer in connection with the special season of George Bernard Shaw's plays to be produced by Sir Barry Jackson, founder and director of the Birmingham Repertory Theatre. "She will also appear in 'Back to Methuselah' and 'Heartbreak House'," The Observer continues.

As already stated in The Observer Cedric Hardwicke will play King Magnus of England Caesar in Caesar and Cleopatra," and take his original part in "Back to Methuselah" and 'Heartbreak House." Charles Carson has the important role of the Prime Minister in the new play. Miss Barbara Everest will be seen as the Queen, and Matthew Boulton as Balbus, the somewhat heavy-handed Labor leader. Other members of the special festival company are Miss Dorothy Holmes-Gore, whose chief opportunity will be Cleopatra, Miss Eileen Beldon, Scott Sutherland, Clifford Marquand, Julian d'Albie, Frank Moore, Aubrey Mallalieu, Miss Eve Turner and Wallace Evennett.

Sir Barry Jackson says that interest in the special Shaw season has been worldwide. Applications for tickets for the whole cycle have been received from America, Poland, Germany, Italy and many other countries. In Great Britain, people are coming from places as far apart as Kilmarnock and Brighton, and the extraordinary thing is that towns like Rochdale are better represented in the applications than Oxford and Cambridge. Altogether eighty towns are represented up to now, and it is interesting to note that Reinhardt people from Berlin are coming over.

BE READY TO FALL IN WITH FULL FIELD PACKS IN TEN MINUTES FOR A HIKE TO THE FOOTHILLS!
THIS IS GOING TO BE FUN! WALKING IS MY FAVORITE METHOD OF TRANSPORTATION —NEXT TO RIDING!
Psst! Psst!
I'LL POUND A FEW EXTRA NAILS IN BLACKIE'S SHOES, SO THE SOLES WON'T COME LOOSE ON THE HIKE!
AND WHILE YOU'RE DOING THAT, I'LL PUNCTURE HIS CANTEEN! THEY SAY RUNNING WATER KEEPS FRESH!
THIS FLAT IRON WILL COME IN HANDY, IF BLACKIE DECIDES TO PRESS HIS PANTS ON THE WAY!
THIS PACK IS THE HEAVIEST THING I'VE CARRIED SINCE MY HORSE SPRAINED HIS ANKLE AND I HAD TO HELP HIM TO THE STABLE!
OUCH! I CAN HARDLY WALK! I'M TOO YOUNG FOR THE GOUT AND TOO OLD FOR INFANTILE PARALYSIS—SO IT MUST BE MY SHOES!
MY CANTEEN IS EMPTY AND I'M READY TO DROP WITH THIRST! HOWEVER, A GOOD SOLDIER NEVER COMPLAINS, SO I'LL HOLD OUT AS LONG AS I CAN!
GOSH, THIS WATER TASTES GOOD! TOO BAD YOU HAVEN'T ANY, BLACKIE!

HERE! WHAT'S THE MATTER WITH BLACKIE?
I THINK HE FAINTED, SIR!
BRAVE LITTLE FELLOW! SHOES FULL OF NAILS—CANTEEN EMPTY—AND HIS PACK LOADED WITH IRON! HE NEVER SAID A WORD, BUT I HAVE MY SUSPICIONS!
BULL, GIVE BLACKIE YOUR CANTEEN! THEN YOU AND SPUD CARRY HIM BACK ON A FIELD STRETCHER! IT'S ONLY FIVE MILES!
CAN YOU BEAT THAT FOR LUCK! I'D LIKE TO DROP HIM OVER A CLIFF!
WHAT A BEAUTIFUL DAY! TAKE YOUR TIME, FELLOWS, AND HANDLE WITH CARE—RIGHT SIDE UP! MY FEET MAY HURT, BUT I STILL HAVE A KICK LEFT IN EACH FIST IF YOU DROP THIS STRETCHER!
IF THIS WAS ONLY A HEARSE, I'D FEEL HAPPY!

Greyhounds of U.S. Navy Here for Five-Day Visit

U.S.S. Farenholt, Corry and Hull Moored at Ogden Point Docks—Open for Inspection Daily—Luncheon Arranged for Officers

Three trim greyhounds of the United States Pacific Naval fleet moored at the Ogden Point docks at 10 o'clock yesterday morning on a five-day courtesy visit to Victoria. The destroyers were the Farenholt, Corry and Hull.

Three sister ships of the warcraft now in port separated from the main fleet off Port Angeles and proceeded to Vancouver for a similar visit. These destroyers were the Sumner, MacDonald and Melvin.

The fleet was given quite a dusting on the way north, running into a stiff gale, which has incidentally delayed the Ruth Alexander, which was passed by the destroyers on their way to Victoria.

Commander S. O. Greig, who is in charge of the three greyhounds, accompanied by Lieut.-Commander L. F. Reifsnider and the commander of the Hull paid official calls on His Honor Lieutenant-Governor Robert Randolph Bruce, Premier Tolmie and Mayor Herbert Anscomb.

This afternoon His Honor and Premier Tolmie, together, returned the visit and extended a welcome to the officers and ship's company on behalf of the Province of British Columbia.

Mayor Herbert Anscomb, accompanied by Alderman James Adam, returned the official call yesterday afternoon and were shown over the ships.

Official calls were also made by the U.S. naval officers on Commander L. W. Murray, S.N.O. of the Esquimalt Naval Base, and Brig.-General J. Sutherland Brown, G.C. of Work Point Barracks.

At 1 o'clock this afternoon the three ships will be thrown open for inspection by the public. The visiting hours aboard the ships during their sojourn here will be from 1 to 5 p.m.

Arrangements have been made by the Provincial Government and civic authorities to entertain the officers of the ships and twenty officers coming from Fort Worden, headed by Commander Sunderland, at an informal luncheon to be held in the Empress Hotel at 12.15 o'clock noon on Saturday.

The Farenholt, the Corry and the Hull are sister ships. They are 312 feet in length, have a breadth of thirty-one feet and a depth of twelve feet, with a weight of 1,200 tons. They are equipped with four 4-inch guns, twelve 21-inch torpedo tubes and a number of smaller guns.

Each ship has a complement of 110 officers and men. On each ship are five naval reserve officers and thirty naval reserve men on a two weeks' training cruise. After leaving here on Monday the three ships will be joined by the three from Vancouver and together they will return to San Diego. En route south gunnery practice will be carried out off the coast of California.

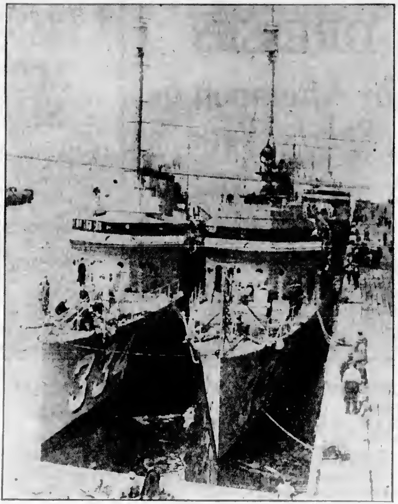
United States Destroyers Visiting Port



—Photograph by Chapman

THE U.S.S. Farenholt, Corry and Hull arrived here yesterday morning on a five-day visit to Victoria. Three American destroyers also are visiting Vancouver. They are the Sumner, Melvin and MacDonald. These six destroyers were detached from the main Pacific fleet, which is now anchored off Seattle, to pay a courtesy visit to British Columbia waters. It was originally planned to send the U.S.S. Mississippi here, but her schedule did not permit an extended visit to this port, so the present arrangements were made through the efforts of Mr. George Bucklin, American consul.

I'M ALONE CASE COMING UP SOON

Canadian Arbitrator on International Commission Is Expected to Be Appointed July 16

OTTAWA, July 11.—The Canadian arbitrator in the I'm Alone case will probably be appointed at the next meeting of the Cabinet on July 16. No intimation has been given as to who will represent the Dominion. It is understood, however, that an effort has been made by both the Government of Canada and the United States to select two men with similar position. Consequently, if one of the countries decides on a judge, it is probable that the selection of the other country will be made from the Bench also.

The conclusion reached by the arbitration board after hearing evidence and argument will doubtless form a basis for settlement of any future cases with points of similarity to the I'm Alone.

Electrified for 656 daylight mountain miles

The New Olympian to the East

CHICAGO MILWAUKEE ST. PAUL AND PACIFIC

OVER four mountain ranges, including the Cascades, Bitter Roots and Rockies by daylight, powerful electric locomotives furnish the motive power for the Queen of de luxe trains. Wonderfully ***clean, sootless, cinderless*** this ***electrified travel,*** permitting operation of open observation cars in summertime. The Milwaukee Road is the ***only*** transcontinental line having important electrified main line mileage. Its 656 miles constitute approximately forty per cent of the Nation's electrified mileage—by far America's longest electrified railroad.

Faster now—a business day saved over the shortest route between Seattle and Chicago. Luxuriously equipped—observation and club cars, ladies' lounge, radio, baths, coil spring mattresses, barber and valet, maid and manicure, library, soda fountain. And meals by Rector, Broadway's erstwhile favorite. ***No extra fare.***

Leave Seattle 6:15 p.m.

The MILWAUKEE ROAD
AMERICA'S LONGEST ELECTRIFIED RAILROAD

The Treasure House of Martin Hews

By E. PHILLIPS OPPENHEIM

CHAPTER XXX (Continued)

"You must obey," she whispered. "It is the only chance with him when he is like this." . . .

From the threshold I watched them. Martin Hews was some minutes producing his keys, but eventually the great door swung open. Just before the two disappeared into the shadows, Beatrice and I descended and moved across the courtyard in the grey morning light. We passed the first door, and the second—and there was no third. We looked at each other.

"What did your uncle mean?" I demanded.

"I cannot imagine," she answered.

But even at that moment we knew . .

The ground beneath our feet shook and rocked. There was a hissing sound, and then a tremendous explosion. The walls of the north wing, which inclosed the gallery, seemed suddenly to split and crumble and fall outwards. Red flames curled and leaped towards the skies. Clouds of smoke shot up and drifted away, darkening the whole countryside. The crash of further explosions followed, the sound of falling masonry in every direction. It was my fancy, of course, but in the first moment's silence that ensued after that awful pandemonium, I fancied I heard a shrill, mocking laugh.

We drew farther away, for the flames were spreading, and the heat was intolerable. The men who came running out from the house and tower could do nothing but gape upwards in amazement. Firemen and police were soon swarming over the place. I led Beatrice towards the car . . .

At the bend in the road before the station, I looked back for the last time. A fresh column of smoke was curling up to the sky. There was the thunder of masonry as another of the walls crashed to the ground.

"It is finished," I said. "The child has played with his toys for the last time."

There was a great deal of rough justice about Rachel's words when we went to see her at the hospital a few days later.

"I don't know that I'm sorry for either of them, though," she decided. "Martin Hews—well, he never ought to have been allowed to grow up—a poor creature like that, eaten up with vanity, all brain and no heart, and getting worse every year. Joseph—well, he was wicked," she went on. "He had a heart of flint. I curse him night and day for what he did to me. He was as cruel as they make 'em, and yet there was always something pulling the other way. He'd have had you done in, all right, Major, but he'd got his eye upon you for the young lady here; and they'd have treated me worse, only he wouldn't let them. Look here, Mister," she went on, "they're finished. That's the end of them. Do you want to do something for me?"

"Of course, I do," I assured her. "So does my wife That's why we're here."

"You tell Bloor to keep his hands off Charlie Andrews. I ain't denying he was in the gang, but he's finished with it, clear and honest, and he never did no one any real harm He's got a good chandlery business now, come to him through his father, and we're settling down, both of us. There's no good raking up old scores. What do you say, Major?"

"Unless Charlie Andrews is in it deep," I promised, "Bloor shan't touch him."

She drew a sigh of relief.

"That lets him out," she said, for he wasn't in it deep—never was—"

Bloor was at the station the next morning to see us off and he gave me his promise readily enough.

Yardsley was at the station, too. He brought with him my own family lawyer, whom I had not had occasion to trouble for many years.

"Your affairs, Mrs. Owston," he told Beatrice, "involve responsibility greater than I can undertake alone. Your uncle left nearly three-quarters of a million above the treasures at Breezeley. Then, as you know, there is another development. The man who perished with your uncle, whom I understand was a connection of the family—"

"My brother," Beatrice intervened.

"He has also left a fortune of three or four hundred thousand pounds, the whole of it unreservedly to you."

The whistle of the train sounded shrilly. There was the usual little commotion.

"Is there anything further we can do?" Mr. Yardsley asked. "You have all the money you want for abroad? There will be large sums to your credit at any time you care to draw a cheque. Anything else—"

"One thing," Beatrice interrupted, leaning out of the window. "A thousand pounds to Rachel Suess, who is at St. George's Hospital—a wedding present from Major Owston and myself . . ."

The train glided out. I changed my place and sat by Beatrice's side.

"Peace at last!" she sighed, with infinite content. "No more fighting, mind."

"I like that!" I declared. "I went all through the war, on three fronts. I fought afterwards in Russia. I was in the Spanish Foreign Legion for a year, and never have I been in such danger or risked my life so often as during the few weeks I was soldier of fortune, or whatever you call it, to your uncle."

Her hand stole into mine. She laughed at me.

"Well," she whispered, "the war is over. And soldiers after warfare—?"

(The End)

Clarence Darrow with one single remark won a debate over Ex-Congressman Willie Upshaw, of Georgia, in Atlanta recently—that is, if loudest applause and laughter count for anything

By agreement, there were no judges and no official decision. Upshaw, an ardent dry, told his audience how he had worked his way through school and studied on the farm.

"I was so determined as a boy," he said, "to be a public speaker, that I used to practise oratory on the poor mules while I was ploughing." Then he spent the best part of an hour telling his audience that prohibition was working and that America was drinking less than ever before.

When Darrow's turn came, he rose and fixed his famous glare on the perspiring and panting Upshaw.

"If you expect us to believe all you've said, sir," said Darrow firmly, "you must think you're still talking to a lot of mules."

Niece: Really, Aunt Jane, you are so sweet natured I believe you would speak well of the devil himself.

Aunt Jane Well, I'll say this, he is very industrious.

Burgess Bedtime Stories

Peter Sees a Big Family

By THORNTON W. BURGESS

'Tis those who do not know the facts
Make haste to judge another's acts.
—Peter Rabbit.

Peter Rabbit was sure he knew now why fish were scarce in the Laughing Brook and the Smiling Pool. Longlegs the Heron was blaming Rattles the Kingfisher, Rattles the Kingfisher was blaming Billy Mink. Billy Mink was blaming Little Joe Otter, Little Joe Otter was blaming Farmer Brown's Boy for the scarcity of fish. You know all of them are fishermen and you know, too, that it is always easy to blame the other fellow

Now Peter was sure that not one of these was wholly to blame. There was some one else doing a great deal of fishing and doing it without being seen. It was just by chance that Peter had discovered this. That some one else was Mrs. Watersnake Peter had seen her take two nice trout in succession from a certain pool in the Laughing Brook Undoubtedly, Mr Watersnake was catching his share. Judging by what he had seen of Mrs Watersnake's appetite, Peter felt that it wouldn't take many Watersnakes along the length of the Laughing Brook to cause a shortage in the supply of fish.

It was a few days after Peter had seen Mrs. Watersnake beside that certain little pool that he again sat beneath a fern where he could remain hidden but could see all that went on about him For a long time nothing happened. Finally Peter dozed When he opened his eyes again that flat rock where he had seen Mrs. Watersnake take her sunbath and eat her fish was covered with snakes. Yes, sir, it was literally covered with snakes. Mrs. Watersnake was there and crawling around her and over her were little Watersnakes At least, Peter assumed they were little Watersnakes and in this he was right.

"Goodness!" gasped Peter. "Can that possibly be all one family? I never have heard of any one with so many children. I'll count them."

But Peter didn't count them. They wouldn't keep still long enough. By the time he had reached a dozen he couldn't tell which ones he had counted and which ones he hadn't counted So at last he gave that up As a matter of fact, there were over thirty children, for Mrs. Watersnake was unusually large and she had a very large family.

Chatterer the Red Squirrel happened to come along and Peter saw him. "Do you remember, Chatterer," said Peter, "how Billy Mink and Buster Bear were complaining because the fishing was so poor? I think I know the reason"

"Look over on that flat rock," replied Peter

"Well, what is the reason?" demanded Chatterer.

"Look over on that flat rock," replied Peter "You'll see the reason surrounded by a lot of little reasons."

Chatterer looked over and saw Mrs. Watersnake and her family. "What have they got to do with fish?" demanded Chatterer

Just then Mrs. Watersnake slid into the water A moment later she slid out again, this time with a trout in her mouth. Chatterer said not a word He understood then what Peter had meant.

"Did you ever see so many children in one family?" demanded Peter.

"Yes," replied Chatterer, "I've seen more. I've seen Mrs. Gartersnake with a bigger family than that."

"I haven't, but that doesn't matter," replied Peter "This family is big enough. Just think of the number of fish it will take to feed all those snakes when they get big enough to eat small minnows and small trout."

"That's so," agreed Chatterer, "and all the time other people will be getting blamed for taking too many fish. That's the way it goes in this world Well, I don't like snakes and I'm not going to stay here"

"Neither am I," replied Peter And they both scampered away
